Re: Qwest Annual Reports for Calendar Year 2005
BMAR-2006-1886
BMAR-2006-1887

Dear Ms. Fischer:

Enclosed please find a confidential and also a public version of Competitive Local Exchange Carrier and/or Interexchange Telecommunications Carrier Annual Report to the Missouri Public Service Commission for the year ending December 31, 2005 for Qwest Communication Corporation.

The report contains additions on page 3 and now contains confidential information. The pages containing confidential information are clearly marked and printed on yellow paper. I have also signed and included an affidavit stating that the report with confidential information should be kept under seal. If you have any questions on the confidential portion of the report please contact Wayne Culp at 402-422-7903 or Wayne.Culp@qwest.com.

If you have any questions on any other aspect of these reports, please feel free to contact Randy Burns at 402-422-4079 or Randy.Burns@qwest.com

Sincerely,

A handwritten signature in black ink, appearing to read "Wayne Culp", is written over a light blue horizontal line.

Wayne Culp

FURTHER AFFIANT SAITH NAUGHT.

Wayne Culp

Subscribed and sworn to before me, a Notary Public in and for such State and County, this 8 day of May, 2006.

This page was revised May 8, 2006

* Missouri Revised Statutes §386.020(53)

(53) "Telecommunications service", the transmission of information by wire, radio, optical cable, electronic impulses, or other similar means. As used in this definition, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols. Telecommunications service does not include:

(a) The rent, sale, lease, or exchange for other value received of customer premises equipment except for customer premises equipment owned by a telephone company certificated or otherwise authorized to provide telephone service prior to September 28, 1987, and provided under tariff or in inventory on January 1, 1983, which must be detariffed no later than December 31, 1987, and thereafter the provision of which shall not be a telecommunications service, and except for customer premises equipment owned or provided by a telecommunications company and used for answering 911 or emergency calls;

(b) Answering services and paging services;

(c) The offering of radio communication services and facilities when such services and facilities are provided under a license granted by the Federal Communications Commission under the commercial mobile radio services rules and regulations;

(d) Services provided by a hospital, hotel, motel, or other similar business whose principal service is the provision of temporary lodging through the owning or operating of message switching or billing equipment solely for the purpose of providing at a charge telecommunications services to its temporary patients or guests;

(e) Services provided by a private telecommunications system;

(f) Cable television service;

(g) The installation and maintenance of inside wire within a customer's premises;

(h) Electronic publishing services; or

(i) Services provided pursuant to a broadcast radio or television license issued by the Federal Communications Commission;

12. Local Exchange Carriers Federal/State Low-Income/Disabled Universal Service Fund Subscribers

Background and Purpose: To ascertain on a monthly basis the number of subscribers being provided federal and/or Missouri low-income/disabled support as being reported to USAC (federal support, Form 497) and the fund administrator of the Missouri programs (Missouri support).

Calendar Year 2005

Month	Number of	Number of

TOTAL:	0	0

**Instructions for completing the
Competitive Local Exchange Carrier Access Line Report**

I. BACKGROUND

Effective August 28, 2005, Section 392.245.5 requires the Missouri Public Service Commission (MoPSC) to "maintain records of regulated providers of local voice service, including those regulated providers who provide local voice service over their own facilities, or through the use of facilities of another provider of local voice service." The MoPSC is to use these records in reviewing an incumbent local exchange telephone company's request for competitive status in an exchange.

II. PURPOSE

The purpose of this portion of the Annual Report is to ascertain, on an exchange specific basis, the number of voice-grade equivalent access lines in service being provided by your company in each exchange (as identified in your tariff) in Missouri. Information is sought for residential and business voice-grade equivalent access lines on an exchange-by-exchange basis. **Please use the exchange names listed in your tariffs.** Further, information is sought on the following ways of provisioning each access line: (A) full-facilities; (B) partial facilities; (C) Other resale, (D) pure resale, and (E) data or ISP-only.

Please do not report the number of lines used only for internal company purposes.

III. WHAT IS MEANT BY "LOCAL VOICE SERVICE"?

Local voice service means two-way voice service capable of receiving calls from a provider of basic local telecommunications services as defined by subdivision (4) of section 386.020, RSMo.

IV. WHAT IS MEANT BY "VOICE-GRADE" EQUIVALENT LINES?

You are to report voice-grade equivalent lines. Count as one voice-grade equivalent line: traditional analog POTS lines, Centrex-CO extensions, and Centrex-CU trunks. Count lines based on how they are charged to the customer rather than how they are physically provisioned. For example, count Basic Rate Integrated (BRI) and Digital Network (ISDN) Services lines as two voice-grade equivalent lines. Report 8 voice-grade equivalent lines if a customer buys 8 trunks that happen to be provisioned over a DS1 circuit. If a customer buys a DS1 circuit that is provided as channelized service, report 24 voice-grade equivalent lines, even if there is some indication that the customer is only using 8 of the derived lines. Thus, a voice-grade equivalent line is a line that directly connects an end user to a carrier and allows the end user to originate and terminate local telephone calls on the public switched network.

Voice-grade equivalent lines include high capacity (DS1, DS-3, etc.) lines that are channelized to provide voice-grade service. In such instances, it is the number of channels available for voice traffic to/from the public switched network that should be counted as voice-grade equivalent access lines. **Note for competitive LECs providing local exchange service over hybrid fiber-coaxial cable television systems:** Count your records and report how many voice-grade equivalent lines are being billed.

**Instructions for completing the
Competitive Local Exchange Carrier Access Line Report Con'td.**

V. WHAT IS MEANT BY "FULL FACILITIES LINES"?

For retail services, full facilities lines are those lines in which CLEC or its affiliate owns the switch and the local loop.

VI. WHAT IS MEANT BY "PARTIAL FACILITIES LINES"?

Partial facilities lines are those lines in which the CLEC or its affiliate owns either the switch or the local loop, but not both.

VII. WHAT IS MEANT BY "OTHER RESALE LINES"?

Other resale lines are those lines which a CLEC leases from the incumbent local exchange carrier at a negotiated or arbitrated rate that is not simply a discount off the incumbent's tariffed rate(s). (Examples include UNE-P arrangements, arrangements purchased via a commercial agreement.)

Pure resale lines are those lines which a CLEC leases from the incumbent local exchange carrier at a discount from the incumbent's tariffed rate.

**VIII.
WHAT IS**

IX. WHAT IS MEANT BY "DATA or INTERNET SERVICE PROVIDER-ONLY LINES"?

Data or Internet Service Provider-Only lines are those lines that are used strictly for data purposes.

X. WHAT IS MEANT BY "EXCHANGE"?

"Exchange", as defined in Missouri Revised Statutes §386.020(16), is a geographical area for the administration of telecommunications services, established and described by the tariff of a telecommunications company providing basic local telecommunications service.
