Re: In the Matter of the Investigation of the State of Competition in the Exchanges of  
Sprint Missouri, Inc. Case No. IO-2003-0281

Dear Mr. Secretary:

Please find attached an original and nine (9) copies of John R. Idoux's Direct Testimony (Proprietary) and two (2) copies of John R. Idoux's Direct Testimony (Public) in the above referenced matter. I would appreciate if you would file the same and please return a file stamped copy of each. Please contact me at 913-315-9363 if you have any question regarding this filing.

Thank you for your assistance.

Very truly yours,

Lisa Creighton Hendricks

Case No. IO-2003-0281

**AFFIDAVIT OF**

STATE OF KANSAS     )  
                                  ) ss:  
COUNTY OF JOHNSON

I, John Idoux, being of lawful age and duly sworn, dispose and state on my oath the following:

1. I am presently Senior Manager, Regulatory Affairs/External Affairs for Sprint Missouri, Inc.
2. I have participated in the preparation of the attached Direct Testimony in question and answer form to be presented in the above entitled case;
3. The answers in the attached Direct Testimony were given by me; and,
4. I have knowledge of the matters set forth in such answers and that such matters are true and correct to the best of my knowledge and belief.

NOTARY PUBLIC

My Appointment Expires:

**SECTION I -- INTRODUCTION**

1   **Q.     Please state your name, title and business address.**

2   **A.     My name is John R. Idoux III. I am Senior Manager - External Affairs, for Sprint**  
3           **Corporation. My business address is 6450 Sprint Parkway, Overland Park, KS**  
4           **66251.**

5  
6   **Q.     Please summarize your educational and professional background.**

7   **A.     I hold Bachelor of Science degrees in Business Administration and Accounting**  
8           **from the University of Kansas in Lawrence, Kansas.**

9  
10          I began my career with Sprint Corporation in 1988. I held positions of increasing  
11          responsibility in the corporate audit department responsible for operational,  
12          financial, and regulatory assessment in the following areas: regulatory accounting,  
13          end-user and carrier billing, cost allocation, and customer service operations. In  
14          1992, I moved to Sprint's Carrier Services department and held positions of  
15          increasing responsibility in carrier account management responsible for Sprint's  
16          relationship with AT&T and MCI in the following areas: billing and collection  
17          agreements, access pricing, carrier billing, and network products and services. In  
18          November 1996, I was promoted to Manager -- Carrier Systems and had the  
19          responsibility for coordinating the system and interface changes required by  
20          Sprint's local division to implement the Federal Communications Commission's  
21          rules on electronic access to operations support systems. Substantial system  
22          modifications were required for billing, ordering, provisioning, pre-ordering,

1 trouble administration, and other areas to accommodate regulatory requirements,  
2 industry guidelines, and customer requests.

3 In October 1998, I was promoted to Senior Manager - State Regulatory,  
4 responsible for monitoring state regulatory proceedings that potentially impact the  
5 interests of Sprint; executing state specific intrastate regulatory plans and policies;  
6 and coordinating with all affected Sprint entities to assure the Company's views  
7 are effectively communicated and advocated before state commissions. In April,  
8 2001, I assumed my current position of Senior Manager - External Affairs,  
9 responsible for implementing Sprint's intrastate regulatory objectives and policies  
10 in Kansas and Missouri.

11  
12 **Q. Have you testified before any regulatory commissions?**

13 **A.** Yes. I have provided testimony in Missouri, Kansas, Wisconsin, Ohio, Nevada,  
14 Pennsylvania, and South Carolina.

15  
16 **Q. On whose behalf are you testifying?**

17 **A.** I am testifying on behalf of Sprint Missouri, Inc (hereafter referred to as  
18 "Sprint").

19  
20 **Q. How is Sprint's testimony structured?**

21 **A.** Sprint's direct testimony is structured in three sections:

22 Section I -- Introduction (this section providing an overview);

1        Section II -- General State of Competition (a section discussing the general state  
2        of competition within Sprint's 80 exchanges); and

3        Section III – Exchange-Specific Competition (evidence and discussion related to  
4        the exchange-specific category of services).

5        Sprint witness Mr. Mark Harper will provide evidence and discussion related to  
6        the statewide category of services. Both Mr. Harper and myself will discuss  
7        appropriate policy issues as they apply to the individual sections.

8  
9        **Q.     What is the purpose of this Case?**

10      **A.**     The Missouri Public Service Commission ("Commission") opened this  
11      investigation to examine the state of competition within the Sprint Missouri  
12      exchanges. Subsection 392.245.5 RSMo 2000 states that the Commission "shall,  
13      from time to time, on its own motion or motion by an incumbent local exchange  
14      telecommunications company, investigate the state of competition in each  
15      exchange where an alternative local exchange provider ("ALEC" or "CLEC") has  
16      been certified to provide local exchange telecommunications service and shall  
17      determine, no later than five years following the first certification of an alternative  
18      local exchange telecommunication company in such exchange, whether effective  
19      competition exists in the exchange for the various services of the incumbent local  
20      exchange telecommunications company."

21  
22      **Q.     When was a CLEC first certified to provide local exchange telecommunication**  
23      **service in a Sprint exchange?**

1     **A.**     ExOp of Missouri dba Unite was the first CLEC to be granted a certificate to  
2             provide basic local telecommunication service in a Sprint Missouri exchange with  
3             an effective date of December 15, 1998<sup>1</sup>. As a result, a CLEC will have been  
4             certified to provide local exchange telecommunications service in a Sprint  
5             exchange for five years as of December 15, 2003. Below is a timeline for ExOP  
6             of Missouri activity:

- 7             (a)     The Commission issued a Report and Order in Case No. Case No. TA-97-  
8                     193 on November 25, 1997 that granted ExOp of Missouri a certificate of  
9                     service to provide basic local telecommunications services in Missouri,  
10                    with the certification to become effective when its tariff becomes  
11                    effective.  
12  
13             (b)     The Commission issued a Report and Order, effective June 8, 1998 in  
14                     Case No. TO-98-382 that approved an interconnection agreement between  
15                     Sprint Missouri Inc. and ExOp.  
16  
17             (c)     ExOp filed tariff sheets in Case No. TA-97-193 (Tariff File No. 9900273)  
18                     on October 5, 1998 reflecting the rates, rules, and regulations it will use  
19                     and the services it will offer. ExOp filed substitute tariff sheets on  
20                     November 3 and 6, 1998 in order to make clarifications and bring its tariff  
21                     into compliance with Commission rules and regulations.  
22  
23             (d)     On November 25, ExOp filed a Motion to Restrict its Certificate of  
24                     Service Authority. By this motion, ExOp requests that the Commission  
25                     amend ExOp's existing certificate of service authority by eliminating  
26                     ExOp's authority to provide basic local exchange telecommunications  
27                     services in the exchanges presently served by SWBT.  
28  
29             (e)     On December 3, 1998, the Commission approved ExOP's Motion to  
30                     Restrict its Certificate of Service Authority and its tariffs.

31  
32  
33  
34     **Q.**     **Has the Commission previously determined what constitutes effective**  
35             **competition for this type of Case?**

---

<sup>1</sup> ExOp of Missouri started providing basic local telecommunications service in a Sprint exchange in February, 1999.

1    **A.**    Yes. In the SWBT Competition Case (Case No. TO-2001-467), the Commission  
2           ruled that “effective competition” as used in subsection 5 of the price cap statute  
3           “refers to competition that is adequate to accomplish the purposes that were  
4           previously to have been accomplished by the cost floors and maximum prices  
5           and, to produce the intended or expected results, namely accomplishing the  
6           ‘purposes and policies of chapter 392, RSMo, including the reasonableness of  
7           rates, as set out in section 392.185,’ over a sustained period running up to five  
8           years into the future.” Furthermore, the Commission noted that effective  
9           competition “is competition that exerts sustainable discipline on prices and moves  
10          them to the competitive level of true economic cost.”<sup>2</sup>

11

12   **Q.**    What criteria should the Commission use in determining if effective  
13           competition exists?

14   **A.**    As the Commission noted in the SWBT Competition Order “[t]he determination  
15           of what is effective competition does not necessarily turn on the definition of the  
16           term ‘service’. Nor does it turn on whether competitors that are not regulated by  
17           the Commission are considered. Given the final factor of Section 386.020(13),  
18           the Commission’s analysis must include *all relevant* factors.”<sup>3</sup>

19

20           Also from the SWBT Competition Order:

21                   “The legislature left the determination of what is effective competition to the  
22                   Commission. The statutes do not define effective competition, but rather

---

<sup>2</sup> Case No. TO-2001-467, Report and Order, December 27, 2001

<sup>3</sup> Case No. TO-2001-467, Report and Order, December 27, 2001

1           Section 386.020(13), lists the following factors that the Commission should  
2           consider in determining effective competition:

- 3
- 4           (a)    The extent to which services are available from alternative  
5           providers in the relevant market;
- 6
- 7           (b)    The extent to which the services of alternative providers are  
8           functionally equivalent or substitutable at comparable rates,  
9           terms and conditions;
- 10
- 11          (c)    The extent to which the purposes and policies of Chapter  
12          392, RSMo, including the reasonableness of rates, as set  
13          out in Section 392.185, RSMo, are being advanced;
- 14
- 15          (d)    Existing economic or regulatory barriers to entry; and
- 16
- 17          (e)    Any other factors deemed relevant by the Commission and  
18          necessary to implement the purposes and policies of  
19          Chapter 392, RSMo.”  
20

21   **Q.    Should the Commission give weight to competition provided by wireless**  
22   **providers, cable companies, internet services, satellite options, customer**  
23   **premises equipment manufactures and other non-regulated services and**  
24   **companies?**

25   **A.    As noted above, the Commission previously ruled that its analysis must include**  
26   ***all relevant factors.*** To the extent that wireless providers, cable companies,  
27   internet services, satellite options, customer premises equipment manufactures  
28   and other non-regulated services and companies are providing customers with an  
29   alternative to the products and services of an incumbent local exchange  
30   telecommunications company, or have the capability to provide customers with an  
31   alternative choice, the Commission must consider it.

1   **Q.**     How much weight should the Commission give to competition provided by  
2           wireless providers, cable companies, internet services, satellite options,  
3           customer premises equipment manufactures and other non-regulated  
4           services and companies?

5   **A.**     How much weight the Commission should give non-traditional forms of  
6           competition is left up to the Commission to decide. Sprint submits, however, that  
7           this determination can only be made on a case-by-case basis. As such, Sprint will  
8           present evidence related to these alternative providers as appropriate.

9

10   **Q.**     Sprint is seeking competitive classification for which services?

11   **A.**     Sprint's request for competitive classification can be classified into two separate  
12           categories. First, Sprint seeks competitive classification for certain services on a  
13           statewide basis, meaning in all 80 of Sprint's exchanges. Sprint will refer to these  
14           services as "statewide" throughout its testimony. Second, Sprint seeks  
15           competitive classification for additional services in certain of its exchanges. Sprint  
16           will refer to these services and exchanges as "exchange-specific" throughout its  
17           testimony. Schedule JRI-1 is a modification of Sprint's tariff index and identifies  
18           the service for which Sprint seeks state-wide competitive classification, exchange-  
19           specific competitive classification and no competitive classification.

20

21   **Q.**     Please summarize the list of services for which Sprint is seeking competitive  
22           classification on a statewide basis?

1     **A.**     Sprint is seeking competitive classification for the following services in all Sprint  
2             exchanges:

3             General Exchange Tariff

- 4             • Asynchronous Transfer Mode (ATM);  
5             • Frame Relay Service;  
6             • Private Line Mileage;  
7             • Directory Assistance;  
8             • National Directory Assistance;  
9             • Directory Assistance Call Completion;  
10            • Local Operator Assistance;  
11            • Custom Calling Service: Speed Calling 8 and Speed Calling 30; and  
12            • Centrex – All services.

13  
14            Message Toll Service (MTS) Tariff

15            *All services*

- 16            • Two Point Service;  
17            • Service Charges;  
18            • Conference Service;  
19            • Special Reserved Charge;  
20            • Outside Calling Area;  
21            • Sprint Sense Local Toll™;  
22            • Business Sense Local Toll™; and  
23            • 800-210 Local Toll Calling Plan.

24  
25            Private Line Tariff

26            *All services*

- 27            • IntraLATA Interexchange Type 102;  
28            • Sub-Voice Grade Service Series 200;  
29            • Voice Grade Service Series 300 and 400;  
30            • Private Line Service;  
31            • Signaling; and  
32            • Foreign Exchange Service.

33  
34            Wide Area Telephone Service (WATS) Tariff

35            *All services*

- 36            • 800 IntraLATA Access Line;  
37            • 800 IntraLATA Usage;  
38            • Outward WATS;  
39            • Installation; and  
40            • Opportunity 800™.

1     Access Tariff

2         *All Non-Switched or Special Access Services*

- 3             • Voice Grade Service;
- 4             • Digital Data Service;
- 5             • High Capacity Service;
- 6             • Special Access Surcharge;
- 7             • WATS Access Line Service;
- 8             • Special Access Term Discount Plan;
- 9             • Additional Engineering;
- 10            • Additional Labor;
- 11            • Miscellaneous Services (Special Access Related); and
- 12            • Common Channel Signaling/SS7.

13  
14     Sprint is not seeking competitive classification for any switched access service on a  
15     statewide basis, including carrier common line.

16  
17     **Q.     Please summarize the exchanges for which Sprint is seeking exchange-**  
18         **specific competitive classification.**

19     **A.     Sprint is seeking exchange-specific competitive classification for five of its 80**  
20         **exchanges in Missouri. Those five exchanges are:**

- 21             • Norborne;
- 22             • Kearney;
- 23             • Platte City;
- 24             • Rolla; and
- 25             • St. Robert.

26  
27     **Q.     Please identify the specific services that Sprint is seeking competitive**  
28         **classification for in the above five exchanges.**

29     **A.     For the above five exchanges, Sprint is seeking competitive classification for the**  
30         **following services from its General Exchange Tariff:**

- 31             1.    Directory Listings;
- 32             2.    Extension Service (Teen Pak);
- 33             3.    Local Exchange Service;
- 34             4.    EAS Additives;

- 1           5.    Local Measured Service;
- 2           6.    Extension and Tie Line Mileage (PBX);
- 3           7.    ISDN BRI;
- 4           8.    ISDN PRI;
- 5           9.    ISDN PRI II;
- 6           10.   Payphone;
- 7           11.   Direct Inward Dialing (PBX);
- 8           12.   Digital Trunking Service (PBX);
- 9           13.   Sprint Solutions;
- 10          14.   Busy Verification Service;
- 11          15.   Custom Calling Services;
- 12          16.   Express Touch;
- 13          17.   Network Services Packages;
- 14          18.   Forwarded Message Service (PBX); and
- 15          19.   Metropolitan Calling Area (MCA).

16

17   **Q.    Why does Sprint view competitive classification as need?**

18   **A.**   Sprint is currently a price cap company and a Commission finding under Section  
19   392.245.5 that effective competition exists for a particular service in an exchange  
20   would authorize Sprint to adjust its rates in response to competition. Currently,  
21   Sprint is subject to a price cap under Section 392.245. which allows Sprint to  
22   adjust its rates downwards, but there is a statutory limit on any increased prices.  
23   As the Commission noted in its General Findings of Fact in the SBC Competition  
24   Case, “[u]nlike a price cap company, [CLEC’s] and IXC’s, which are classified as  
25   competitive, have the authority to increase or decrease their prices on short notice  
26   to the Commission without the need of providing cost support for the change.  
27   This flexibility allows them to modify their offerings to meet customer needs, or  
28   to respond to the offerings of their competitors in the local market.”

1 **SECTION II - GENERAL STATE OF COMPETITION IN SPRINT EXCHANGES**

2

3 **Q. What is the purpose of this section of your testimony?**

4 **A.** In this section of my testimony I will provide general discussion and statistics  
5 related to the general state of competition in Sprint's exchanges.

6

7 **Q. Please provide an overview of Sprint's service territory.**

8 **A.** Sprint operates in 80 exchanges throughout Missouri (please refer to Schedule  
9 JRI-2 for a list of the exchanges and a map of Sprint's service territory). Sprint's  
10 largest exchange is Jefferson City with more than 64,000 access lines. Sprint's  
11 smallest exchange is Ionia with less than 175 access lines (please refer to  
12 Schedule JRI-3 for a listing of Sprint exchanges by access lines)<sup>4</sup>.

13

14 **Q. How many of Sprint's 80 exchanges have experienced local competition?**

15 **A.** CLECs and wireless providers currently have the capacity to serve all 80 Sprint  
16 exchanges. Sprint has identified 59 CLECS that have (a) certificates of service  
17 authority, (b) interconnection agreements, and/or (c) tariffs allowing them to offer  
18 local services in Sprint exchanges. Of these 59 CLECs, 27 appear to be resale  
19 providers. The remaining 32 carriers have the ability to serve Sprint's exchanges  
20 via resale, unbundled network elements, facility-based, or a combination of the  
21 three. In addition, Sprint has identified 16 wireless providers that also have the

---

<sup>4</sup> Access line counts are from Sprint's 2001 Annual Report. While Sprint's 2002 Annual Report is available and filed with the Commission, the access line counts are not public.

1 ability to offer local service in Sprint's exchanges. (Please refer to Schedule JRI-  
2 4).

3  
4 Sprint is aware of CLECs actually providing basic local exchange service in 76 of  
5 its 80 exchanges. Specifically, Sprint has seen its competitors provide local  
6 telecommunications service in all but the following four exchanges: (1) Craig, (2)  
7 Edgerton, (3) Missouri City, and (4) Strasburg.

8  
9 **Q. Of the 59 CLECs identified as having certificates of service authority,**  
10 **interconnection agreements, and/or tariffs, how many CLECs are actually**  
11 **providing service in Sprint's 80 exchanges?**

12 **A.** Sprint is aware of 25 CLECs providing some level of service in Sprint's  
13 exchanges. Those 25 CLECs include the following:

- 14 1. Buy-Tel Communications
- 15 2. Comm South
- 16 3. Delta Phones
- 17 4. DPI Teleconnect
- 18 5. ExOp of Missouri
- 19 6. EZ Talk Telecom
- 20 7. Fidelity Communications
- 21 8. Green Hills Telecommunications
- 22 9. Local Line America
- 23 10. Max-Tel Communications
- 24 11. Metro Teleconnect
- 25 12. Missouri Network Alliance
- 26 13. National Phone
- 27 14. Navigator Telecom
- 28 15. New Edge Networks
- 29 16. Payroll Advance
- 30 17. Phone-Link
- 31 18. Reitz Rentals
- 32 19. Snappy Phone of Texas
- 33 20. State Discount Telephone

21. Sterling International Funding (Reconnectx)
22. Tel-Link
23. Texas Hometel
24. Texas Teleconnect
25. Universal Telecom

The remaining 34 CLECs have met the regulatory requirements to begin to offer service. In fact, 23 of the 34 remaining CLECs are currently available and/or currently offering service in other parts of Missouri as indicated on the CLEC list maintained on the Commission's website. (Please see Schedule JRI-5 for a listing of available CLECs from the PSC website).

**Q. How are the CLECs listed above providing service in Sprint's exchanges?**

**A.** Three CLECs are primarily facility based: Green Hills Telecommunications, ExOp of Missouri, and Fidelity Communications. The remaining CLECs are resellers and/or purchase unbundled network elements from Sprint although a vast majority use resale.

**Q. Is resale a form of competition?**

**A.** Yes. However, Sprint agrees with the Commission's previous finding that "the mere presence of resellers is not substantial evidence for the Commission to determine that effective competition exists."<sup>5</sup> In each exchange in which Sprint seeks a competitive designation, there are facility-based competitors as well as resellers.

---

<sup>5</sup> Report and Order, Case No. TO-2001-467, Issues #1 and #6.

Sprint is not seeking competitive classification for all its services in all exchanges. Sprint is seeking exchange-specific for only five of its 80 exchanges. While resellers operating in Sprint's territory are scattered throughout all Sprint exchanges, the markets of facility based operators are very concentrated. Consequently, Sprint faces substantial competition where facility based CLECs are operating. In fact, Sprint has lost more than \*\*\* Start Proprietary \*\*\* End Proprietary \*\*\* percent of the market to a facility-based competitor in two of the exchanges where effective competition exists and is no longer the dominant market provider, as will be discussed fully in Section III of my testimony. The following chart compares the access lines for Sprint and its facility-based competitors:

\*\*\* Start Proprietary \*\*\*

	<u>Access Lines</u>	<u>Percent of Total</u>
Sprint: Rolla, Norborne & Kearney		
CLECs: Rolla, Norborne, & Kearney		
Total		

\*\*\* End Proprietary \*\*\*

The following graph further demonstrates the exchanges where Sprint faces competition has experienced a substantial decrease in growth of access lines whereas the remaining Sprint exchanges have seen only a modest decrease:

### 1998 - 2002 Access Line Growth Rates

1  
2  
3 **Q. Are there other competitors besides CLECs?**

4 **A.** Yes. Prior to the introduction of competition, many Sprint customers had second  
5 lines in order to connect to the internet or in order for teens or other household  
6 members to place and receive calls without tying up the primary line. Today,  
7 most cable TV operators offer a high speed internet connection and consumers are  
8 using this cable service as a substitute for Sprint's second lines. Likewise,  
9 consumers are also using wireless service not only for secondary lines but also for  
10 Sprint's primary lines. However, there is no way for Sprint to know exactly how  
11 many lines it has lost to these substitute services. In addition, Sprint competes  
12 with AT&T, Worldcom, SBC, CenturyTel, Alltel, and numerous other long  
13 distance providers for data and long distance related services including toll, frame  
14 relay, ATM, WATS, and private line, among other services. Sprint also competes  
15 with these and other PBX vendors for Centrex service. These services are highly  
16 competitive as will be discussed by Sprint witness Mr. Harper.

1

2 **Q. Please summarize the general state of competition in Sprint's 80 exchanges?**

3 **A.** CLECs are providing local services and related services to business and  
4 residential customers in almost all Sprint exchanges; however, these competitors  
5 are not providing service equally throughout all of Sprint's exchanges. Sprint  
6 recognizes that the level of local service competition in most exchanges does not  
7 constitute effective competition. On the other hand, Sprint is experiencing  
8 vigorous competition from facility based competitors and Sprint has experienced  
9 dramatic declines in access lines where facility based competition exists. Also,  
10 Sprint faces effective competition from other companies for specific products and  
11 services on a statewide basis. I will further explore in Section III the areas where  
12 Sprint is experiencing local exchange competition and Mr. Harper will address  
13 Sprint's substantial competition for statewide services.

14

15 **SECTION III – EXCHANGE SPECIFIC COMPETITION**

16 **Q. Please summarize the exchanges for which Sprint is seeking competitive**  
17 **classification.**

18 **A.** Sprint is seeking competitive classification for five of its 80 exchanges in  
19 Missouri. Those five exchanges include the following:

- 20 • Norborne;
- 21 • Kearney;
- 22 • Platte City;
- 23 • Rolla; and
- 24 • St. Robert.
- 25

1   **Q.    Please identify the specific services that Sprint is seeking competitive**  
2       **classification for the above five exchanges.**

3   **A.    For the above five exchanges, Sprint is seeking competitive classification for the**  
4       **following 19 service categories from its General Exchange Tariff (listed in the**  
5       **order as contained within the tariff):**

- 6           1.    Directory Listings;
- 7           2.    Extension Service (Teen Pak);
- 8           3.    Local Exchange Service;
- 9           4.    EAS Additives;
- 10          5.    Local Measured Service;
- 11          6.    Extension and Tie Line Mileage (PBX);
- 12          7.    ISDN BRI;
- 13          8.    ISDN PRI;
- 14          9.    ISDN PRI II;
- 15          10.   Payphone;
- 16          11.   Direct Inward Dialing (PBX);
- 17          12.   Digital Trunking Service (PBX);
- 18          13.   Sprint Solutions;
- 19          14.   Busy Verification Service;
- 20          15.   Custom Calling Services;
- 21          16.   Express Touch;
- 22          17.   Network Services Packages;
- 23          18.   Forwarded Message Service (PBX); and
- 24          19.   Metropolitan Calling Area (MCA), where available.

25       For clarification purposes, I have prepared Schedule JRI-6 listing all service  
26       categories within Sprint's General Exchange Tariff and indicating which services  
27       Sprint is seeking (a) exchange-specific competitive classification (same list as above),  
28       (b) statewide competitive classification (same list as discussed by Mr. Harper) and (c)  
29       services for which Sprint is not seeking competitive classification at this time. In  
30       addition, I have prepared Schedule JRI-7 to provide a brief service explanation for  
31       each of the above items.

32

1 For discussion purposes, I have combined the above 19 individual service categories  
2 into the following three primary groups:

- 3 • Residential/Business Access Line Switched Services -- includes: (1) Local  
4 Exchange Service; (2) Local Measured Service, (3) EAS, (4) ISDN -- BRI,  
5 PRI and PRI I, (5) Payphone, (6) and all PBX related services --  
6 Extension/Time Line mileage, DID, Digital Trunking and Forwarded Message  
7 Service.
- 8 • Line-Related Services -- included: (1) Extension Service, (2) Directory  
9 Listing, (3) Sprint Solutions, and (4) Custom Calling Services -- including  
10 Express Touch and Network Services Packages.
- 11 • MCA and Busy Line Verification

12  
13 **Q. Has the Commission made any previous rulings regarding the Residential/  
14 Business Access Line Switched Services you identified above?**

15 **A.** Yes. In the SBC Competition Case (Issues 1 and 6) the Commission found that  
16 all core access line services are deemed competitive for those exchanges where  
17 effective competition has been demonstrated. Specifically the Commission found  
18 that core switched services include the various basic business access services,  
19 including exchange access lines, analog trunks, and Basic Rate ISDN that  
20 customers use to make and receive calls over the public switched telephone  
21 network. The basic exchange access line is a line providing customers the ability  
22 to make and receive telephone calls -- either voice telephone calls or to transmit  
23 data to or from the public switched telephone network. Analog trunks are used to

1 connect the central office to a private branch exchange or key system, located on  
2 the customer's premises.  
3

4 **Q. Has the Commission made any previous rulings regarding the Line-Related**  
5 **Services you identified above?**

6 **A.** Yes. In the SBC Competition Case (Issues 2 and 7) the Commission found that  
7 all line-related services are deemed competitive for those exchanges where the  
8 Commission has ruled the basic access line faces effective competition.  
9 Specifically the Commission found that line-related or vertical services are  
10 services a customer may add to the customer's basic access line and which  
11 provide additional functions to that line. Line-related or vertical services are  
12 related to core switched access line services and the Commission found that these  
13 vertical services and custom calling features are inseparable from the underlying  
14 basic local service because vertical services and custom calling features are not  
15 available to the customer without that customer being provided the basic local  
16 service.  
17

18 **Q. Has the Commission made any previous rulings regarding the Busy Line**  
19 **Verification and MCA services you identified above?**

20 **A.** Yes. In the SBC Competition Case (Issues 10 and 17) the Commission found that  
21 MCA and busy line verification services are competitive for those exchanges  
22 where the Commission has ruled the basic access line faces effective competition.  
23

1 **Q. Has the Commission made any previous rulings regarding what specific**  
2 **factors are relevant when determining whether an exchange faces effective**  
3 **competition?**

4 **A. Yes. In the SBC Competition Case, the Commission found that it must make its**  
5 **determination of effective competition based on all the relevant factors including,**  
6 **but not limited to, the following: (1) market share loss; (2) the number of**  
7 **carriers, including resellers, actually providing both resale and facilities-based**  
8 **service in the exchanges, (3) the number of carriers certified to do business in the**  
9 **particular exchange, (4) the comparative longevity of the companies doing**  
10 **business, (5) and CLEC-owned fiber networks.**

11  
12 **Q. Based upon the Commission's criteria, does Sprint face effective competition**  
13 **in its Rolla, St. Robert, Kearney, Platte City, and Norborne exchanges?**

14 **A. Yes. Sprint has experienced substantial market share loss due to competition**  
15 **from facility-based CLECs. The facility-based CLECs operating in Sprint's**  
16 **exchanges all have made substantial investments in Sprint's operating territory**  
17 **and have established strong presences in the communities over the past five years.**  
18 **In addition to the facility based CLECs, there are numerous other CLECs that are**  
19 **certified to operate in Sprint's exchanges and have entered into interconnection**  
20 **agreements with Sprint. About a dozen resellers are operating in Sprint's**  
21 **exchanges.**

1

<u>Norborne</u>	<u>Sprint Access Lines</u>		
	<u>Total</u>	<u>Res</u>	<u>Bus</u>
1998	514	421	93
1999	201	159	42
2000	209	163	46
2001	190	148	42
*** Start Proprietary ***			
2002	█	█	█
*** End Proprietary ***			

2

3 The following chart provides an illustrative viewpoint:

4 \*\*\* Start Proprietary \*\*\*

5

6 \*\*\* End Proprietary \*\*\*

7

8 **Q. Is the access line decrease a result of competition or other factors?**

9 **A.** Sprint's access line reduction in Norborne is clearly related to competition rather  
10 than other factors. In Norborne, Sprint lost nearly \*\*\* Start Proprietary \*\*\* █  
11 percent \*\*\* End Proprietary \*\*\* of its access lines from 1998 to 2002; however,

1           on a statewide basis<sup>7</sup> Sprint experienced a one percent gain over the same time  
2           period. Also, as the following chart indicates, Sprint's Norborne exchange lost  
3           substantially more access lines than the number of access lines Sprint lost in its  
4           neighboring exchanges:

5       \*\*\* Start Proprietary \*\*\*

6

7       \*\*\* End Proprietary \*\*\*

8

9       **Q.     How many access lines do the competitive carriers you identified above have**  
10       **in Norborne for the same time frame?**

11       **A.     Sprint believes nearly all its access line lost in Norborne went to Green Hills**  
12       **Telecommunication Services, which is a 100 percent facilities based competitor.**  
13       **Based on information provided to Sprint by Green Hills, Green Hills had \*\*\***  
14       **Start Proprietary \*\*\* [REDACTED] \*\*\* End Proprietary \*\*\* access lines as of December**  
15       **31, 2002. The following chart summarizes the access line growth of Green Hills**  
16       **since it started providing service in November, 1999:**

---

<sup>7</sup> Statewide totals less Kearney, Rolla and Norborne.

<b>Norborne</b>	<b>Green Hills Access Lines</b>		
	<i>Total</i>	<i>Res</i>	<i>Bus</i>
1999	390	302	88
2000	378	313	65
2001	383	321	62
*** Start Proprietary ***			
2002			
*** End Proprietary ***			

1

2 **Q. What is Green Hills current service offering for local exchange telecommuni-**  
3 **cations service?**

4 **A.** Based upon their tariff, Green Hills is offering a residential single access line for  
5 \$6.50 per month, and a single business access line for \$13.00, per month. This  
6 compares to Sprint's basic residential and business rates of \$11.53 and \$17.31,  
7 respectively. Green Hills offers its residential and business customers with  
8 savings of 44 percent and 25 percent, respectively, from basic Sprint rates. In  
9 addition, Green Hills offers its customers with savings of up to 80 percent on  
10 other product offerings when compared to Sprint's rates. I have prepared the  
11 attached chart to compare Sprint's rates to Green Hills rates for Norborne:

Service	Sprint Resident	Green Hills Resident	Diff.	Sprint Business	Green Hills Business	Diff.
Local Phone Service	\$ 11.53	\$ 6.50	44%	\$ 17.31	\$ 13.00	25%
Call Waiting	\$ 4.30	\$ 2.25	48%	\$ 3.95	\$ 2.25	43%
Call Forwarding	\$ 2.70	\$ 1.00	63%	\$ 5.00	\$ 1.00	80%
Three Way Calling	\$ 1.95	\$ 1.00	49%	\$ 2.00	\$ 1.00	50%
Speed Calling 8	\$ 1.95	\$ 1.00	49%	\$ 2.40	\$ 1.00	58%
Speed Calling 30	\$ 5.70	\$ 2.25	61%	\$ 6.00	\$ 2.25	63%
Hot Line/Warm Line	\$ 3.50	\$ 2.25	36%	\$ 4.60	\$ 2.25	51%
Call Forward - Busy	\$ 1.00	\$ 1.00	0%	\$ 1.00	\$ 1.00	0%
Call Forward No Answer	\$ 1.50	\$ 1.00	33%	\$ 1.50	\$ 1.00	33%
Automatic Callback	\$ 4.00	\$ 2.25	44%	\$ 4.00	\$ 2.25	44%
Automatic Recall	\$ 4.00	\$ 2.25	44%	\$ 4.50	\$ 2.25	50%

1 A. Sprint clearly faces effective competition in its Norborne exchange. Based upon  
2 both access lines and basic revenue, Green Hills has captured nearly \*\*\* Start  
3 Proprietary \*\*\* 70 \*\*\* End Proprietary \*\*\* percent of the market in Norborne.  
4 In fact, Sprint is not even the dominate market player in Norborne. Since 1998,  
5 Sprint has lost \*\*\* Start Proprietary \*\*\* ■ \*\*\* End Proprietary \*\*\* percent of its  
6 customer base. During that same timeframe, Green Hills access line count has  
7 grown from zero to nearly \*\*\* Start Proprietary \*\*\* ■ \*\*\* End Proprietary \*\*\*.  
8 Green Hills is 100 percent facility based, offering a wide range of products and  
9 packages, has been given ETC status, and advertises in general media throughout  
10 the exchange. Green Hills' rates are substantially lower than Sprint's; however,  
11 Green Hills submits more franchise fee for its customers than does Sprint.

12

13 **Kearney**

14 **Q. Besides Sprint, which carriers are providing local exchange telecommuni-**  
15 **cations services in Kearney?**

16 A. Based upon the area phone book, there are five competitive carriers in the  
17 Kearney exchanges providing local exchange service. Those carriers include (See  
18 Schedule JRI-9):

- 19 1. 877-RingAgain
- 20 2. EZtalk
- 21 3. Max-Tel
- 22 4. State Telephone
- 23 5. Unite (ExOp of Missouri).

---

<sup>9</sup> City limits and exchange boundaries may not be the same.

On February 27, 2003, I contacted each of the above carriers via their published toll free number to verify if they were currently providing local exchange telecommunications service in Kearney. All five carriers confirmed that their respective company was offering local exchange service in Kearney.

**Q. Has Sprint seen a decrease in the number of customers served in Kearney?**

**A.** Yes. Sprint has experienced a \*\*\* Start Proprietary \*\*\*  \*\*\* End Proprietary \*\*\* percent decrease in the number of access lines since competition first entered the Kearney exchange. In December, 1998 Sprint reported a total of 4,735 access lines in Kearney; however, as of December 31, 2002, Sprint's access lines in Kearney had decreased by \*\*\* Start Proprietary \*\*\*  \*\*\* End Proprietary \*\*\* total access lines:

<u>Kearney</u>	<u>Sprint Access Lines</u>		
	<u>Total</u>	<u>Res</u>	<u>Bus</u>
1998	4735	3762	973
1999	4616	3832	784
2000	4411	3678	733
2001	4090	3394	696
*** Start Proprietary ***			
2002			
*** End Proprietary ***			

The following chart provides an illustrative viewpoint:

1           **\*\*\* Start Proprietary \*\*\***

2

3           **\*\*\* End Proprietary \*\*\***

4       **Q.     Is the access line decrease a result of competition or other factors?**

5       **A.**     Sprint's access line reduction in Kearney is clearly related to competition rather  
6           than other factors. Kearney lost nearly **\*\*\* Start Proprietary \*\*\*** ■ **\*\*\* End**  
7           Proprietary **\*\*\*** percent of its access lines from 1998 to 2002; however, on a  
8           statewide basis<sup>10</sup> Sprint experienced a one percent gain over the same time  
9           period. Also, as the following chart indicates, Sprint's Kearney exchange lost  
10          substantially more access lines than the number of access lines Sprint lost in its  
11          neighboring exchanges:

---

<sup>10</sup> Statewide totals less Kearney, Rolla and Norborne.

1   **\*\*\* Start Proprietary \*\*\***

2

3   **\*\*\* End Proprietary \*\*\***

4

5   **Q.     How many access lines do the competitive carriers you identified above have**  
6       **in Kearny for the same time frame?**

7   **A.     Sprint believes nearly all the access lines lost in Kearney went to ExOp of**  
8       **Missouri d/b/a Unite, which is a 100 percent facilities based competitor. Based**  
9       **on information provided to Sprint by Unite, Unite had \*\*\* Start Proprietary \*\*\***  
10    **██████████ \*\*\* End Proprietary \*\*\* access lines as of December 31, 2002. The**  
11    **following chart summarizes the access line growth of Unite since it started**  
12    **providing service in November, 1999:**

1

<b>Kearney</b>	Unite Access Lines		
	<i>Total</i>	<i>Res</i>	<i>Bus</i>
1998	0	0	0
1999	N/A	N/A	N/A
2000	963	575	388
2001	1586	1110	476
*** Start Proprietary ***			
2002			
*** End Proprietary ***			

2

3 **Q. What is Unite's current service offering for local exchange telecommuni-**  
4 **cations service?**

5 **A.** Based upon Unite's website ([www.exop.net/phonepricing.html](http://www.exop.net/phonepricing.html)) on March 26,  
6 2003, Unite is offering a single access line with metropolitan calling area (MCA)  
7 service for \$21.99 per month. This compares to Sprint's rate of \$25.27. The  
8 following was taken from Unite's website (see Schedule JRI-10 for a copy of  
9 Unite's webpage as of March 26, 2003):

10

<b>Pricing</b>	
Local Phone Service with Metro Calling	\$21.99
Additional Line with Metro Calling	\$20.34
<b>Enhanced Features</b>	
Value Pack (Your choice of 5 phone features)	\$11.00
Caller ID / Name & Number	\$7.50
Caller ID / Number Only	\$6.50
Call Forwarding	\$3.00
Call Waiting	\$3.00
3-Way Calling	\$1.50
Speed Dial	\$1.50
Call Return	\$3.00
Auto Redial	\$3.00
Teen Ring	\$3.25
Non-Published Number	\$1.60
Caller ID on Call Waiting	\$2.50
Caller ID on TV	\$1.75
Voice mail	\$4.95
Additional mailbox	\$1.95

Teen Ring	\$4.30	\$3.25	24%
Non-Published Number	\$1.90	\$1.60	16%
ISDN - BRI	\$50.27	\$45.00	10%

1  
2 **Q. Is Unite an Eligible Telecommunication Carrier for federal Universal Service**  
3 **Fund purposes?**

4 **A.** Yes. The Commission designated ExOp of Missouri "as an eligible carrier under  
5 the provisions of 47 U.S.C. Section 254 and 47 CFR 54.201(d) to receive federal  
6 universal service fund support with respect to the Kearney, Missouri exchange."<sup>11</sup>

7  
8 **Q. Has Unite or any of its affiliates made any statements regarding its**  
9 **competitive status in Kearney?**

10 **A.** Yes. In Case No. TA-97-193, ExOp made the following relevant statements:  
11 ExOp provides basic local telecommunications service exclusively through the  
12 use of its own facilities throughout the Kearney, Missouri, exchange<sup>12</sup>;

13 1) ExOp has been providing telecommunications services in the Kearney,  
14 Missouri, exchange since 1998<sup>13</sup>;

15 2) ExOp advertises the availability of and charges for its telecommunications  
16 services in media of general distribution throughout the Kearney,  
17 Missouri, exchange.<sup>14</sup>

<sup>11</sup> Order Granting Designation As An Eligible Carrier Pursuant to Section 254 of the Telecommunications Act of 1996, Case No. TA-2001-251, Ordered Paragraph 1, May 15, 2001.

<sup>12</sup> Order Granting Designation As An Eligible Carrier Pursuant to Section 254 of the Telecommunications Act of 1996, Case No. TA-2001-251, Stipulated Finding of Fact 4, May 15, 2001.

<sup>13</sup> Order Granting Designation As An Eligible Carrier Pursuant to Section 254 of the Telecommunications Act of 1996, Case No. TA-2001-251, Stipulated Finding of Fact 5, May 15, 2001.

<sup>14</sup> Order Granting Designation As An Eligible Carrier Pursuant to Section 254 of the Telecommunications Act of 1996, Case No. TA-2001-251, Stipulated Finding of Fact 7, May 15, 2001.

1 In addition to franchise fees, Unite also collects and submits E911 surcharges.  
2 Based on information received from Unite, the following amounts were submitted  
3 to the Clay County E911 administrator:

Kearney E911 Surcharge	
	<i>Unite</i>
2000	\$4,597
2001	\$8,048
2002	\$12,645

4

5 **Q. What is your conclusion regarding the status of competition in Sprint's**  
6 **Kearney exchange?**

7 **A.** Sprint clearly faces effective competition in its Kearney exchange. Based upon  
8 both access lines and basic revenue, Unite has captured at least \*\*\* Start  
9 Proprietary \*\*\* ■ \*\*\* End Proprietary \*\*\* percent of the market in Kearney  
10 although Unite's own comments indicates the actual market share is more than  
11 double. As such, Sprint would not be the dominate market player in Kearney.  
12 Since 1998, Sprint has lost over \*\*\* Start Proprietary \*\*\* ■ \*\*\* End  
13 Proprietary \*\*\* access lines – or \*\*\* Start Proprietary \*\*\* ■ percent \*\*\* End  
14 Proprietary \*\*\* of its customer base. During that same timeframe, Unite's access  
15 line count has grown from zero to \*\*\* Start Proprietary \*\*\* ■ \*\*\* End  
16 Proprietary \*\*\*. Unite is 100 percent facility based, offering a wide range of  
17 products and packages. In fact, Unite's rates are substantially lower than Sprint's.

**Platte City**

**Q. Besides Sprint, which carriers are providing local exchange telecommunications services in Platte City?**

**A. The same five CLECs that serve Kearney also provide local service in Sprint's Platte City exchange.**

**Q. Is Sprint experiencing the same type of access line loss in Platte City as it experienced in Kearney with Unite as a competitor?**

**A. Not yet; however, Unite just started providing service in Platte City and there is no reason to believe that Sprint will not experience a similar situation. Unite is fully authorized to provide service in Platte City and Sprint has already lost the City of Platte City to Unite. Furthermore, through its own admission, Unite provides competitive basic local telecommunications service through the use of its own facilities in Platte City. Unite made this and other admissions in its recent application for ETC status in Platte City<sup>17</sup>:**

1. ExOp is a competitive local exchange company ("CLEC") certificated by the Commission in Case No. TA-97-193 to provide basic local telecommunications service in portions of the State of Missouri. The Commission approved an interconnection agreement between ExOp and Sprint Missouri, Inc. ("Sprint") in Case No. TO-98-382. Pursuant to tariffs subsequently approved by the Commission, ExOp provides competitive basic local telecommunications service through the use of its own facilities in Kearney and Platte City. On February 6, 2003 the Commission in Case No. TN-2003-0249 issued its Order recognizing ExOp's change of corporate name to ExOp of Missouri, Inc. d/b/a Unite and approving the Company's tariff adoption notices.
2. ExOp received Commission designation as a carrier eligible for

<sup>17</sup> Unanimous Stipulation and Agreement, Case No. CO-2003-0252, March 14, 2003

1 following chart indicates, Sprint's Rolla exchange lost substantially more access  
2 lines than the number of access lines Sprint lost in its neighboring exchanges:  
3 \*\*\* Start Proprietary \*\*\*

4  
5 \*\*\* End Proprietary \*\*\*

6 Q. How many access lines do the competitive carriers you identified above have  
7 in Rolla for the same time frame?

8 A. Sprint believes nearly all the access lines lost in Rolla went to Fidelity, which is a  
9 100 percent facilities based competitor. Based on information provided to Sprint  
10 by Fidelity from its Annual Reports, Fidelity had \*\*\* Start Proprietary \*\*\*  
11 \*\*\* End Proprietary \*\*\* access lines as of December 31, 2002. The following  
12 chart summarizes the access line growth of Fidelity since 2000:

Rolla	Fidelity Access Lines		
	<u>Total</u>	<u>Res</u>	<u>Bus</u>
2000	190	90	100
2001	2,195	1,066	1,129
*** Start Proprietary ***			
2002			
*** End Proprietary ***			

**Q. What is Fidelity's current service offering for local exchange telecommunications service?**

**A.** Based upon their tariff, Fidelity is offering a residential single access line with for \$14.00 per month, and a single business access line for \$23.00, per month. This compares to Sprint's basic<sup>19</sup> residential and business rates of \$20.20 and \$31.38, respectively. Fidelity offers its residential and business customers with savings of 31 percent and 27 percent, respectively, from basic Sprint rates. In addition, Fidelity offers its customers with savings of up to 50 percent on other product offerings when compared to Sprint's rates. I have prepared the attached chart to compare Sprint's rates to Fidelity's rates for Rolla:

Service	Sprint Resident	Fidelity Resident	Diff.	Sprint Business	Fidelity Business	Diff.
Local Phone Service:	\$ 13.72	\$ 14.00	31%	\$ 21.70	\$ 23.00	27%
SLC & LNP Surcharge	\$6.48	N/A		\$9.68	N/A	
Call Waiting	\$ 4.30	\$ 3.50	19%	\$ 3.95	\$ 3.50	11%
Call Forwarding	\$ 2.70	\$ 2.00	26%	\$ 5.00	\$ 5.25	5%
Three Way Calling	\$ 1.95	\$ 2.00	-3%	\$ 2.00	\$ 2.00	0%
Speed Calling 8	\$ 1.95	\$ 1.50	23%	\$ 2.40	\$ 2.10	12%
Speed Calling 30	\$ 5.70	\$ 5.70	0%	\$ 6.00	\$ 7.90	-32%
Hot Line/Warm Line	\$ 3.50	\$ 3.25	7%	\$ 4.60	\$ 4.60	0%
Call Forward - Busy	\$ 1.00	\$ 1.00	0%	\$ 1.00	\$ 1.00	0%
Call Forward No Answer	\$ 1.50	\$ 1.50	0%	\$ 1.50	\$ 1.50	0%
Automatic Callback	\$ 4.00	\$ 3.25	19%	\$ 4.00	\$ 3.75	6%
Automatic Recall	\$ 4.00	\$ 3.50	12%	\$ 4.50	\$ 4.50	0%
Caller ID Calling Number	\$ 8.00	\$ 6.50	19%	\$ 8.00	\$ 7.95	1%
Call ID Name/Number	\$ 8.00	\$ 8.00	0%	\$ 9.50	\$ 9.95	-5%
Distinctive Ringing	\$ 4.00	\$ 3.25	19%	\$ 5.35	\$ 4.50	16%
Selective Call Acceptance	\$ 5.00	\$ 3.25	35%	\$ 6.00	\$ 4.50	25%
Selective Call Rejection	\$ 4.65	\$ 3.25	30%	\$ 5.00	\$ 4.50	10%
Directory: Addl. Listing	\$ 1.95	\$ 1.50	23%	\$ 2.50	\$ 2.10	16%
Directory: Alt. Listing	\$ 1.95	\$ 1.60	18%	\$ 2.50	\$ 2.10	16%
Directory: Non-published	\$ 1.90	\$ 1.45	24%	\$ 1.90	\$ 1.45	24%

<sup>19</sup> Sprint's rates includes both the subscriber line charge and the LNP surcharge which is not assessed by Fidelity.

ISDN BRI NRC	\$200.00	\$110.00	45%	\$200.00	\$110.00	45%
ISDN BRI (starting at)	\$45.20	\$35.00	23%	\$66.38	\$45.00	32%
Payphone – Access Line	N/A	N/A	N/A	\$32.25	\$20.00	38%
Payphone – Answer Sup.	N/A	N/A	N/A	\$4.00	\$2.00	50%

In addition to the above ala carte services, Fidelity offers its customers two custom calling packaged services offerings (Basic and Deluxe) providing substantial discounts of over 50 percent for combined features. Fidelity also offers its customers six convenience packages ranging in price from \$29.95 to \$93.15 per month (see Schedule JRI-13 for marketing material on all eight offerings).

**Q. Is Fidelity an Eligible Telecommunication Carrier for federal Universal Service Fund purposes?**

**A.** Yes. The Commission designated Fidelity as an eligible carrier under the provisions of 47 U.S.C. Section 254 and 47 CFR 54.201(d) to receive federal universal service fund support with respect to the Rolla, Missouri exchange.<sup>20</sup> As such, Fidelity (a) provides basic local telecommunications services throughout Rolla using its own facilities, (b) advertise the availability of and charges for these services in media of general distribution within Rolla, and (c) offers Lifeline services.

**Q. Are there other indicators on the level of competition in Rolla?**

---

<sup>20</sup> Case No. TA-2002-122
