Case No. EO-2009-0011

NOTICE REQUIRING STAFF RESPONSE

Issue Date: January 2, 2009

In compliance with 4 CSR 240-23.020, the above-referenced electric utility filed its required compliance plan. As this filing is in response to newly-promulgated regulations, the Commission directs its Staff to review the plan and report the results of its review to the Commission. Due to the press of Commission business, the Staff noted it was unable to conduct such a review for at least four months, as of August 2008. This case was administratively closed until that filing could be made. However, a filing by the company reopened the case. The Commission, at this time, simply requires the Staff to set a date by which the report will be filed.
