(53) "Telecommunications service", the transmission of information by wire, radio, optical cable, electronic impulses, or other similar means. As used in this definition, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols. Telecommunications service does not include:

(a) The rent, sale, lease, or exchange for other value received of customer premises equipment except for customer premises equipment owned by a telephone company certificated or otherwise authorized to provide telephone service prior to September 28, 1987, and provided under tariff or in inventory on January 1, 1983, which must be detariffed no later than December 31, 1987, and thereafter the provision of which shall not be a telecommunications service, and except for customer premises equipment owned or provided by a telecommunications company and used for answering 911 or emergency calls;

(b) Answering services and paging services;

(c) The offering of radio communication services and facilities when such services and facilities are provided under a license granted by the Federal Communications Commission under the commercial mobile radio services rules and regulations;

(d) Services provided by a hospital, hotel, motel, or other similar business whose principal service is the provision of temporary lodging through the owning or operating of message switching or billing equipment solely for the purpose of providing at a charge telecommunications services to its temporary patients or guests;

(e) Services provided by a private telecommunications system;

(f) Cable television service;

(g) The installation and maintenance of inside wire within a customer's premises;

(h) Electronic publishing services; or

(i) Services provided pursuant to a broadcast radio or television license issued by the Federal Communications Commission;

**Instructions for completing the
Competitive Local Exchange Carrier Access Line Report**

I. BACKGROUND

Effective August 28, 2005, Section 392.245.5 requires the Missouri Public Service Commission (MoPSC) to "maintain records of regulated providers of local voice service, including those regulated providers who provide local voice service over their own facilities, or through the use of facilities of another provider of local voice service." The MoPSC is to use these records in reviewing an incumbent local exchange telephone company's request for competitive status in an exchange.

II. PURPOSE

The purpose of this portion of the Annual Report is to ascertain, on an exchange specific basis, the number of voice-grade equivalent access lines in service being provided by your company in each exchange (as identified in your tariff) in Missouri. Information is sought for residential and business voice-grade equivalent access lines on an exchange-by-exchange basis. **Please use the exchange names listed in your tariffs.** Further, information is sought on the following ways of provisioning each access line: (A) full-facilities; (B) partial facilities; (C) Other resale, (D) pure resale, and (E) data or ISP-only.

Please do not report the number of lines used only for internal company purposes.

III. WHAT IS MEANT BY "LOCAL VOICE SERVICE"?

Local voice service means two-way voice service capable of receiving calls from a provider of basic local telecommunications services as defined by subdivision (4) of section 386.020, RSMo.

IV. WHAT IS MEANT BY "VOICE-GRADE" EQUIVALENT LINES?

You are to report voice-grade equivalent lines. Count as one voice-grade equivalent line: traditional analog POTS lines, Centrex-CO extensions, and Centrex-CU trunks. Count lines based on how they are charged to the customer rather than how they are physically provisioned. For example, count Basic Rate Integrated (BRI) and Digital Network (ISDN) Services lines as two voice-grade equivalent lines. Report 8 voice-grade equivalent lines if a customer buys 8 trunks that happen to be provisioned over a DS1 circuit. If a customer buys a DS1 circuit that is provided as channelized service, report 24 voice-grade equivalent lines, even if there is some indication that the customer is only using 8 of the derived lines. Thus, a voice-grade equivalent line is a line that directly connects an end user to a carrier and allows the end user to originate and terminate local telephone calls on the public switched network.

Voice-grade equivalent lines include high capacity (DS1, DS-3, etc.) lines that are channelized to provide voice-grade service. In such instances, it is the number of channels available for voice traffic to/from the public switched network that should be counted as voice-grade equivalent access lines. **Note for competitive LECs providing local exchange service over hybrid fiber-coaxial cable television systems:** Count your records and report how many voice-grade equivalent lines are being billed.

Competitive Local Exchange Carrier Access Line Report Con'td.**

V. WHAT IS MEANT BY "FULL FACILITIES LINES"?

For retail services, full facilities lines are those lines in which CLEC or its affiliate owns the switch and the local loop.

VI. WHAT IS MEANT BY "PARTIAL FACILITIES LINES"?

Partial facilities lines are those lines in which the CLEC or its affiliate owns either the switch or the local loop, but not both.

VII. WHAT IS MEANT BY "OTHER RESALE LINES"?

Other resale lines are those lines which a CLEC leases from the incumbent local exchange carrier at a negotiated or arbitrated rate that is not simply a discount off the incumbent's tariffed rate(s). (Examples include UNE-P arrangements, arrangements purchased via a commercial agreement.)

VIII. WHAT IS MEANT BY "PURE RESALE LINES"?

Pure resale lines are those lines which a CLEC leases from the incumbent local exchange carrier at a discount from the incumbent's tariffed rate.

IX. WHAT IS MEANT BY "DATA or INTERNET SERVICE PROVIDER-ONLY LINES"?

Data or Internet Service Provider-Only lines are those lines that are used strictly for data purposes.

X. WHAT IS MEANT BY "EXCHANGE"?

"Exchange", as defined in Missouri Revised Statutes §386.020(16), is a geographical area for the administration of telecommunications services, established and described by the tariff of a telecommunications company providing basic local telecommunications service.

Submitting this Annual Report is an "option" through EFIS.

A registered official company representative is authorized to utilize this option, type in all necessary information below, including the Notary's information (pursuant to Sections 432.200 and 432.295). After submitting the Annual Report through EFIS, you will receive a BMAR (confirmation) number. Indicate that BMAR number on the original and retain for your records.

RE: Calendar Year 2005 Annual Report

**IMPORTANT NOTICE TO
ALL MISSOURI PUBLIC UTILITIES**

Pursuant to Section 392.210, RSMo., Section 393.140, RSMo., and the rules at 4 CSR 240-3.540 (Telecommunications Companies), public utilities are required to submit an annual report to the Missouri Public Service Commission.

Please Note:

- ✓ Due on or before **April 15, 2006**
- ✓ The form(s) submitted to the Commission must be originals in loose-leaf format (in lieu of a hard copy, an electronic version may be submitted in the Commission's Electronic Filing and Information System, EFIS).
- ✓ Attempts to substitute forms such as stockholder reports without concurrently filing official Commission forms with appropriate cross-references will be considered non-compliant.
- ✓ Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None", "0" or "N/A" where it truly and completely states the fact. An unanswered question will result in a deficiency notice requiring an additional response.
- ✓ Each utility must submit a report even if it had **NO** revenues during the reporting year.

Reports that do not meet these requirements will not be considered "submitted." Utilities will be subject to legal action under state law for failure to submit annual reports on time without a timely extension request. A utility that does not timely file its annual report, or its response to a notice that its annual report is deficient when a response is sought, is subject to a penalty of one hundred dollars for each day that it is late in filing its annual report or response to a notice of deficiency.

Requests to submit annual report data under seal:

Utilities may request classification of selected portions of their annual report as non-public. Please note that all information classified as non-public will still remain subject to potential disclosure as provided under the Missouri open records act (Chapter 610 RSMo) and Section 386.480, RSMo..

January 17, 2006

Page 2 of 2

In order to take advantage of this procedure, the submitter, either through EFIS or in hard copy form, must:

- A. Provide both a fully completed version to be kept under seal and a redacted public version that clearly informs the reader that the redacted information has been submitted under seal. The cover of each version must clearly identify whether it is the public or the non-public version. Each page of each version of the report containing non-public information should be clearly identified as containing such information.
- B. Submit both versions of the annual report with a cover letter stating that the utility is designating some or all of the information in its annual report as confidential information, including the name, phone number and e-mail address (if available) of the person responsible for addressing questions regarding the confidential portions of the annual report.
- C. Prominently attach a detailed affidavit to both versions that identifies the specific types of information to be kept under seal, provides a reason why the specific information should be a closed record, and stating that none of the requested information is available to the public in any format.

Requests for extension to submit annual report:

Utilities may request an extension of less than 30 days by 1) submitting a written notification prior to April 15th to the Manager of the Data Center (the EFIS option for this is located under "Filing/Submission - Non-case Related Submission - MO PSC Annual Report Extension Request") that states the reason for the extension, and 2) certifying that a copy of the written request was sent to all parties of record in pending cases where the Company's activities are the primary focus (i.e., where the Company is identified as a moving party in the case caption) of the proceeding.

All requests for an extension of 30 days or more must be filed prior to April 15th as a legal pleading. If the Company is a corporation or partnership, the pleading must be filed by an attorney licensed to practice in Missouri. If the utility is individually-owned, the Company owner may file this pleading. The pleading must state the reason for the extension and certify that a copy of the written request was sent to all parties of record in pending cases where the Company's activities are the primary focus of the proceeding (i.e., where the Company is identified as a moving party in the case caption). The filing should be submitted in pleading form and comply with the filing requirements of Chapter 2 of 4 CSR 240.

Questions about the annual report form or its content may be submitted to:
Janis Fischer (573) 751-4257 or by email at Janis.Fischer@psc.mo.gov

The completed document should be submitted under EFIS (accessible from the Commission's Web page <http://www.psc.mo.gov/>) or mailed to:

Manager of the Data Center
Missouri Public Service Commission
200 Madison Street, Suite 100, Jefferson City, MO 65101
(P.O. Box 360, Jefferson City, MO 65102-0360)

Sincerely,

Wess A. Henderson
Executive Director
