BEFORE THE PUBLIC SERVICE COMMISSION OF THE STATE OF MISSOURI

In the Matter of the Application of Spire Missouri)	
Inc. to Change its Infrastructure System)	Case No. GO-2020-0230
Replacement Surcharge in its Spire Missouri West)	
Service Territory)	

CORRECTED - VERIFIED APPLICATION AND PETITION OF SPIRE MISSOURI INC. TO CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE FOR IT'S SPIRE MISSOURI WEST SERVICE TERRITORY

COMES NOW Spire Missouri Inc., pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri and 20 CSR 4240-2.060, 2.080 and 3.265 of the Rules of Practice and Procedure of the Missouri Public Service Commission ("Commission") and, for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge ("ISRS") for its Spire Missouri West ("Spire West" or "the Company") Service Territory respectfully states as follows:

BACKGROUND

- 1. On August 28, 2003, Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri became effective. These statutory provisions authorize eligible gas corporations to recover certain infrastructure replacement costs through the implementation of an ISRS. Prior to implementing an ISRS or changing an ISRS, the gas corporation must file a petition with the Commission for review and approval before its rates and charges can be adjusted to provide for the recovery of the ISRS costs. To that end, the Company submits this Verified Application and Petition.
 - THE APPLICANT
- 2. Spire Missouri Inc. is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market

Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Spire Missouri's standing to do business in Missouri was submitted in Case No. GM-2013-0254 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

- 3. Spire Missouri Inc. is engaged in the business of distributing and transporting natural gas to customers in Missouri as a gas corporation subject to the jurisdiction of the Commission. It's operating unit, Spire West, provides gas service in western Missouri to customers in the counties of Barry, Barton, Bates, Buchanan, Carroll, Cass, Cedar, Christian, Clay, Clinton, Cooper, Dade, Dekalb, Greene, Henry, Howard, Jackson, Jasper, Johnson, Lafayette, Lawrence, McDonald, Moniteau, Newton, Pettis, Platte, Ray, Saline, Stone, and Vernon.
 - 4. Communications in regard to this Application should be addressed to:

Matthew Aplington General Counsel Spire Missouri Inc. 700 Market Street St. Louis, MO 63101 314-342-0785 Office Matt.Aplington@spireenergy.com

Michael C. Pendergast Of Counsel Fischer & Dority, P.C. 423 (R) South Main Street St. Charles, MO 63301 (314) 288-8723 Mcp2015law@icloud.com

Wesley E. Selinger Manager, Rates and Planning Spire Missouri Inc. 700 Market Street, 5th Floor St. Louis, Missouri 63101 (314) 230-5847

- 5. Other than cases that have been docketed at the Commission, Spire has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates.
- 6. Spire Missouri is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

THE ISRS REQUEST

7. With this application, Spire West requests an adjustment to its rates and charges through the implementation of an ISRS rate schedule that provides for the recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period of October 1, 2017 through February 29, 2020 to the extent the costs associated with those investments were not approved for recovery in Case Nos. GO-2019-0357, GO-2019-0116, and GO-2018-0310. Attached to this application as Appendix A is Spire West's recommended revenue requirement and supporting calculations. Spire West's three prior ISRS filings were adjusted by the Commission to remove the asserted impact of replacing plastic pipe using a methodology developed by Staff in Case No. GO-2018-0310. Spire Missouri currently has pending appeals on this issue before the Missouri Supreme Court and the Missouri Western District Court of Appeals in which material activity may occur during the pendency of this case. Spire West continues to support full recovery of its ISRS investments and believes it has provided ample evidence demonstrating that the replacement of plastic in the Company's ISRS filings results in no additional ISRS costs, but in fact, produces

ISRS savings for its customers. Therefore, the ISRS revenue calculation included in Appendix A does not reflect an adjustment for the replacement of plastic pipe and is reflective of the Company's ISRS calculations as they have been performed for well over a decade.

8. Consistent with filings approved in Spire West ISRS cases dating back to 2009, this application also includes pro forma ISRS costs for the months of January and February 2020. In accordance with the provisions of Sections 393.1009-1015 and 20 CSR 4240-3.265, the proposed ISRS rate schedule reflects the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Spire West's weighted cost of capital multiplied by the net original cost of the eligible infrastructure replacements during this period, including recognition of the accumulated deferred income taxes and accumulated depreciation associated with these replacements. Spire West also seeks to recover all federal, state and local income or excise taxes applicable to such ISRS income and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing. The revenue calculations in Appendix A produce annual revenues for Spire West of \$11,105,406 which is inclusive of \$2,370,885 of revenues from the October 1, 2017 through July 31, 2019 period. RSMo. 393.1012 (1) limits the amount of ISRS revenues the Commission may approve to ten percent of the base revenues approved by the Commission in the Company's most recent general rate proceeding. Annual base revenues of \$215 million were approved in Spire West's most recent general rate proceeding, Case No. GR-2017-0216; for Spire West. This limits the annualized ISRS revenues the Commission may approve to \$21.5 million. Because Spire's current Commission-approved annualized ISRS revenues equal \$15,909,792, Spire West has included \$5,590,208 for recovery in Appendix A. This amount will increase Spire West's annualized ISRS revenues to the maximum level allowed under the statute.

- 9. October 1, 2017 through July 31, 2019 ISRS Period. Included with the workpapers supporting the Company's application are the revenue calculations for costs associated with ISRS investments made during the period October 1, 2017 through July 31, 2019. These costs were excluded from recovery in prior Company ISRS proceedings, Case Nos. GO-2018-0310, GO-2019-0116, and GO-2019-0357, because of what the Commission deemed to be insufficient evidence demonstrating their eligibility. The Company has appealed this aspect of these cases to the Missouri Supreme Court and the Missouri Western District Court of Appeals. Spire West believes it should be allowed to recover on a going forward basis the revenues that were excluded for this period based on application of the Staff's percentage method. Spire continues to believe these investments are eligible for ISRS recovery because they a) do not increase revenues by directly connecting the infrastructure to new customers b) are in service and used and useful c) were not included in Spire's rate base in its most recent general rate case and d) replace or extend the useful life of existing infrastructure. The revenues for the period October 1, 2017 through July 31, 2019 included for recovery in this proceeding are \$2,370,885 as shown on Appendix A, Schedule 8, as part of the Company's total revenue requirement calculation.
- 10. Alternative Revenue Calculation. While the Company has not adjusted the costs of its ISRS investments in this filing, it recognizes that the Commission has ordered its ISRS revenue requirement be calculated by adjusting ISRS investments using

the aforementioned Staff methodology in the prior three cases. Therefore, pending the outcome of Spire's pending ISRS appeals, the Company has provided an alternative revenue requirement calculation employing Staff's methodology for the period of August 1, 2019 through February 29, 2020. Appendix B attached to this application includes the revenue calculation and support resulting from the application of the previously approved Staff methodology. Application of this methodology removes approximately \$3.6 million dollars in capital from the Company's revenue requirement calculation compared to the amounts included in Appendix A for this period. Appendix B produces annual revenues for Spire West of \$8,202,872; however, due to the aformentioned ISRS revenue cap provision contained in RSMo. 393.1012 (1) Appendix B includes \$5,590,208 in incremental ISRS revenues. Including the \$3.6 million amount, the amount of capital removed from ISRS recovery since the Company rebased its ISRS in Case No. GR-2017-0216, Spire West's last general rate case, is approximately \$27 million.

11. As described above, the Company has appeals pending before the Missouri Supreme Court and the Western District Court of Appeals related to previous Spire West ISRS proceedings. The outcomes of the appeals may impact the amount of annualized ISRS revenues the Company is authorized to collect and where that amount stands in relation to the amount permitted by the ISRS cap provision of RSMo 393.1012 (1). Attached as Appendix C is the revenue requirement and associated rate calculations for Spire West, using the same ISRS investments, as adjusted for the Staff methodology, similar to Appendix B, but removing the impact of the ISRS cap limitation. Appendix C includes \$8,202,872 in incremental ISRS revenues.

12. *Blanket Work Orders*. Beginning in Case No. GO-2019-0116, the Company took a more granular approach to its support for costs included under blanket work orders. Blanket work orders are work orders that cover thousands of tasks which remain open for an extended period and contain items that are not part of planned replacement projects. As part of the more in-depth review undertaken by the Company, some ISRS ineligible items were found to be included within the tasks under certain blanket work orders. The Company and Staff worked closely to establish a methodology for removing ISRS ineligible items from the Company's filing. Spire has employed that same methodology for all blanket work order investments included in its supporting appendices.

Eligibility of Costs

13. The infrastructure system replacements for which Spire West seeks ISRS recognition are set forth in Appendices A, B, and C, which are attached hereto and made a part hereof for all purposes. The Company has also provided a "level-set" on its recent ISRS activity and some general policy discussion on the replacement of cast iron and bare steel pipe in the Direct Testimony of Spire Missouri witness Tim Goodson. As previously stated, Appendix A includes those eligible infrastructure investments placed into service or to be placed into service on or after August 1, 2019 and does not reflect any adjustments to ISRS investment amounts. Appendix A also includes revenues related to investments made from October 1, 2017 through July 31, 2019 to the extent those revenues were not approved in Case Nos. GO-2019-0357, GO-2019-0116, and GO-2018-0310. Appendix B includes investments placed into service on or after August 1, 2019 and reflects adjusted ISRS investment amounts using the Staff methodology and

does not include prior period revenues. Appendix C provides rate calculations using the revenues produced in Appendix B but removing the impact of the ISRS cap provision previously described. The infrastructure system replacements listed on Appendices A B, and C are eligible gas utility plant projects in that they are all either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

- 14. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendices A, B, and C are also eligible for ISRS treatment because they: a) did not increase revenues by directly connecting to new customers; b) are currently in service and used and useful; c) were not included in Spire West's rate base in its most recently completed general rate case, Case No. GR-2017-0216 (the "Rate Case"), and d) replaced and/or extended the useful life of existing infrastructure.
- 15. Finally, the infrastructure system replacements listed on Appendix A ,B and C are eligible for ISRS treatment because Spire West's last Rate Case was decided

by the Commission Amended Report and Order issued on March 7, 2018 and effective on April 19, 2018 and included rate base investments made through September 30, 2017.

Rate Schedules, Calculations and Supporting Documentation

- 16. Attached hereto as Appendix A, Schedule 18 is the rate schedule, with supporting documents, proposed by Spire West in order to change its ISRS and to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs. This proposed rate schedule, on an annualized basis, will produce ISRS revenues of at least one million dollars, but not in excess of ten percent of Spire West's base revenue level as approved by the Commission in its most recently completed general rate case proceeding.
- 17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state, and federal income tax rates through a combined income tax rate conversion factor of 1.34135.
- 18. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the capital structure that was approved in the Rate Case and reflects an overall rate of return of 7.20%.
- 19. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 1.890% consistent with the cost of debt approved in the Rate Case.
- 20. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 9.80% consistent with the cost of equity approved in the Rate Case.

- 21. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule includes an adjustment for incremental property taxes related to 2017 and 2018 property tax amounts. As 2019 property tax amounts will be due within twelve months of this filing, those amounts have been included for recovery in this filing.
- 22. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Spire West in the Rate Case.
- 23. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, which is derived by dividing the appropriate pre-tax revenues, as calculated above, by the customer class billing determinants approved in the Rate Case, and then further dividing this quotient by twelve. (*See* Appendix A, B, and C). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

ADDITIONAL INFORMATION

- 24. In connection with 20 CSR 4240-3.265(22), attached hereto and incorporated herein as Appendix D is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.
- 25. Pursuant to 20 CSR 240-3.265(8) and (9), Spire West intends to continue using the annual notices and customer bill language approved by the Commission in Case No. GO-2018-0310, at the time its current ISRS was first established.

25. Pursuant to 20 CSR 240-3.265(8) and (9), Spire West intends to continue using the annual notices and customer bill language approved by the Commission in Case No. GO-2018-0310, at the time its current ISRS was first established.

WHEREFORE, pursuant to 393.1015.2(3) and Commission Rule 20 CSR 4240-3.265(12), Spire Missouri West respectfully requests that the Commission issue an Order, approving the ISRS rate schedules submitted in connection with the Application in order to provide for the recovery of the eligible infrastructure system replacement investments made by Spire West from August 1, 2019 through February 29, 2020 and grant such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015.

Respectfully submitted.

INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE ISRS

Description: Rate ISRS is designed to recover the costs associated with the Company's eligible infrastructure replacements in accordance with the provisions of sections 393.1009, 393.1012 and 393.1015, RSMo.

Applicability: Rate ISRS is applicable to each customer billing for service during the effectiveness of the ISRS rate element.

ISRS Rate Element: In addition to the other charges provided for in the Company's tariff, a monthly ISRS Rate Element shall be added to each bill for service on and after the effective date of the ISRS rate. The amount of the ISRS Rate Element, by customer class, is as follows:

Residential Small General Service Large General Service Large Volume Service Intrastate Transportation Service	\$3.16 \$4.75 \$20.59 \$173.25 \$173.25	per month per month per month per month

Context and talking points for Customer Service

Pipeline Upgrade Charge (Infrastructure System Replacement Surcharge-ISRS)

January 2020

What is the Pipeline Upgrade Charge (ISRS) for?

We're committed to bringing the people we serve reliable energy that's safe. In 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe, over time, with a safer, more reliable material (plastic). The Pipeline Upgrade Charge (ISRS) covers a portion of the upfront cost we pay for these pipeline upgrades. The Pipeline Upgrade Charge (ISRS) also covers costs we incur to meet government requirements to relocate our pipelines for the greater good of the communities we serve, such as for road expansions.

Who approves or regulates this charge?

The Pipeline Upgrade Charge (ISRS) is authorized by a Missouri statute (section 393.1009-1015). The charge and amount are approved by the Missouri Public Service Commission.

What's the charge for?

On February 3rd, the Company filed ISRS petitions for the recovery of costs associated with work for the period August 1, 2019 through February 29, 2020.

How much is the charge?

As a result of this most recent filing, residential customers will now see a Pipeline Upgrade Charge (ISRS) on their bill:

- Missouri East-\$2.84
- Missouri West-\$3.16.

The approved amount only covers a portion of the cost needed to upgrade our infrastructure.

Throughout the year, we'll continue working with the MoPSC to determine a fair rate for the Pipeline Upgrade Charge (ISRS).

How often can this charge change?

This charge can change up to twice a year.

How do customers learn about the charge?

Appendix D

At the time, the Pipeline Upgrade Charge (ISRS) was renewed, we provided our customers with an initial notice about the change through a bill insert. We'll also send, once a year, a bill message to further educate customers about the charge.

Here is some helpful information for you to share with customers inquiring about the Pipeline Upgrade Charge (ISRS).

- We care about your safety, so in 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe over time with safer, more reliable plastic pipes. The Pipeline Upgrade Charge (ISRS) covers a portion of the costs of those pipeline upgrades, as well as a portion of what we spend on projects for the greater good of the communities we serve (i.e. road improvements).
- We work with MoPSC closely to make sure rates are fair, and we're following Missouri law. And according to those laws, we can work with the MoPSC to adjust the charge up to two times a year.
- Even with this charge, it will take us decades to fully recover our costs.
- We always try to keep this charge as low as possible for customers. This charge has generally been an increase of less than 2 percent of the total annual bills.
- This charge is lower for residential customers than for commercial and industrial customers.
