Revenue reporting clarifications:

Total Company Revenue (Column B) = Missouri intrastate revenue in Column A + Interstate revenues + International revenues.

IVolP revenue: If unable to distinguish Missouri Jurisdictional revenue in Column A then a safe harbor percentage can be applied to total revenue that corresponds to the FCC's safe harbor percentage.

Retail non-switched private line service revenue: All of a customer's non-switched private line service revenue can be reported in Column B if 10% or more of the customer's private line network traffic is considered interstate traffic.

6. Line Quantities for Basic Local Telecommunications &/or IVoIP Services

[illegible]

About reporting line quantities:

1. Report line quantities for basic local telecommunications service and/or IVolP service as those terms are defined in 386.020(4) and (23).
2. Lines include analog and digital. For DS-1 or higher band-width facilities a voice grade equivalency must be used. For channelized service report the number of channels subscribed to by the customer. For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice service.
3. Exchange refers to areas as listed in ILEC tariffs. (Exchanges are not always the same as rate centers, wire centers and central offices.)
4. Per 392.550(7)(c) IVolP line quantities must be filed on a confidential basis. See instructions for how to file annual report information on a confidential basis.
