2. The name of Applicant's current electric service provider is:

City of Butler

3. Applicant requests the Missouri Public Service Commission to order a change of the electric supplier to the address indicated above.

4. Applicant requested the Commission to order a change of electric supplier from City of Butler (Current)

to Osage Valley Electric Cooperative (Requested)

5. Applicant requests the Missouri Public Service Commission to order a change of electric provider for the following reasons.*

The aforementioned properties are not found within the City of Butler city limits, but are currently provided power by the City of Butler. Currently, established ordinances directly impede expansion of electrical services to multiple private properties in our housing area, preventing advancement of home constructions and devaluation of property in Evergreen Estates.

It is our understanding that some of the currently provided power services to our properties are not provided legally. These properties were constructed after 1991. It is our understanding it is Osage Valleys' territory and therefore right to provide power to our geographical area. It is our understanding there is no current territorial agreement. It is our understanding the city has not found ownership paperwork for the electric lines in our community.

6. Applicant has taken the following steps in an attempt to work out electric

service problems with the electric service provider: The service issue was discovered approximately 6-7 months ago when property owners were refused new electrical services to newly purchased property. Property owners attempted to remedy the situation once the issue was discovered. This issue has been presented during several City Council open and closed sessions, but minimal information has been provided to property owners upon inquiry to the City of Butler. Conflicting reports have been made regarding progress towards a territorial agreement. This is directly delaying building structures requiring electricity on these properties.

WHEREFORE, Applicant requests the Missouri Public Service

the Staff of the Commission nor the Office of the Public Counsel represents the applicant, and neither will act as applicant's attorney nor give substantive advice to the applicant. The Office of the Public Counsel and Staff will try to answer any questions an applicant may have about Commission procedure. The applicant should also be aware that if any pleading or correspondence is to be filed with the Commission, a copy of that document must be sent to all the other parties.

Other parties may request information from the applicant through the Commission discovery procedure, which is similar to what is allowed in court cases. The purpose of discovery is to find out generally what evidence a party intends to present at a hearing, or what a party's witnesses may be expected to testify at a hearing. All parties, including the pro se applicant, may engage in discovery, in accordance with the Commission's rules.

If there are contested matters, the Commission will hold a hearing.

At the hearing, the pro se applicant can expect the following procedure: Each party will be allowed to make a brief opening statement. Then the applicant will present evidence. If applicants expect to take the stand to testify on their own behalf, they will have to testify in narrative form, since there will be no attorney to ask them questions. If the applicant intends to put a witness on the stand, applicant will have to ask nonleading, direct examination questions to elicit the witness's testimony. All witnesses will be asked to give an oath or affirmation, and any witness may be questioned by the Commissioners or the Administrative Law Judge. All witnesses are subject to cross-examination by the other parties. All witnesses should have personal knowledge of the subject of their testimony. Applicants should bring to the hearing at least thirteen copies of any exhibit or document they intend to offer into evidence.

After the applicant has presented evidence, the other parties will

8. What efforts have been made by the present supplier to solve or mitigate the problem;
 9. The impact the Commission's decision may have on economic development, on an individual or cumulative basis; and
 10. The effect the granting of authority for a change of suppliers might have on any territorial agreements between the two suppliers in question, or on the negotiation of territorial agreements between the suppliers.
- The applicant should try to address these factors when presenting testimony at

the hearing.

INFORMATION ON PUBLIC SERVICE COMMISSION PROCEDURE

FOR PRO SE CHANGE OF SUPPLIER APPLICANTS

Pro se applicants are applicants who choose to represent themselves before the Public Service Commission rather than being represented by an attorney. This attachment is intended to give pro se applicants information on Commission procedures for applicants for a change of electric supplier. However, it is still the responsibility of pro se applicants to educate themselves about Commission procedures. "Parties who represent themselves must satisfy all relevant rules of procedure; they are entitled to no indulgence they would not have received if represented by counsel." Sutton v. Kestler, 930 S.W.2d 516, 517 (Mo. App. 1996). Enclosed please find a copy of the Commission's rules on Practice and Procedures. You will be expected to follow these rules.

Generally, there will be five parties in a change of supplier case:

- (1) the applicant;
- (2) the applicant's current electric supplier;
- (3) the electric supplier to whom the applicant wishes to change;
- (4) the Staff of the Commission;
- and (5) a representative of the Office of the Public Counsel. The Staff of the Commission is a separate party and will make an independent recommendation to the Commissioners. However, the Commissioners will make the ultimate decision. The Office of the Public Counsel represents the general public before the Commission. Neither
