Re: Notice of a Pro Forma Change of Control of Mobilitie, LLC and MO Network Utility Transport, LLC; Case Nos. XA-2007-0299, CA-2016-0316

Dear Mr. Woodruff:

Mobilitie, LLC (“Mobilitie”) and MO Network Utility Transport, LLC (“MNUT” and, together with Mobilitie, “Licensees”) hereby respectfully notify the Missouri Public Service Commission (“Commission”) of the plan to undertake an internal restructuring of the BAI Communications Group (“Internal Restructuring”), of which Licensees are a part. It is Licensees’ understanding that Commission approval is not required to complete the Internal Restructuring. Accordingly, this letter is submitted for informational purposes only to ensure the continuing accuracy of the Commission’s records.

The Internal Restructuring will involve only changes to intermediate entities, and consequently there will be no change in the direct or ultimate ownership or control of Licensees. Nor will there be any impact on Licensees’ operations. The Internal Restructuring therefore constitutes only a pro forma change of control.

I. DESCRIPTION OF LICENSEES

Mobilitie is a Nevada limited liability company, which maintains its headquarters at 660 Newport Center Drive, Suite 200, Newport Beach, California 92660. Mobilitie is majority owned and controlled indirectly by Frequency Infrastructure Australia Holdings Pty Ltd (“FIAHPL”), the holding company for the BAI Communications Group. FIAHPL is a proprietary limited liability company incorporated in the State of Victoria, Australia, with its registered office at Level 10, Tower A, 799 Pacific Highway, Chatswood, NSW 2067, Australia. FIAHPL, in turn, is majority owned and controlled by the Canada Pension Plan Investment

Board, a Canadian corporation. MNUT, a Delaware limited liability company, is an indirect subsidiary of Mobilitie.

Through Licensees, the BAI Communications Group designs, builds, manages, and maintains wireless and wireline infrastructure solutions in Missouri, including neutral host distributed antenna systems, small cell systems, and Wi-Fi networks. Mobilitie holds authority from the Commission to provide interexchange and non-switched local exchange service in Missouri (Case No. XA-2007-0299). MNUT holds authority from the Commission to provide telecommunications services in Missouri (Case No. CA-2016-0316).

II. DESCRIPTION OF THE INTERNAL RESTRUCTURING

Through the Internal Restructuring, certain existing intermediate entities' assets and equity interests between Canada Pension Plan Investment Board (as the ultimate majority owner and controller of the BAI Communications Group) and Licensees will be transferred to newly formed entities. The Internal Restructuring will involve only changes to intermediate entities—that is, those currently situated between Licensees' direct parent and ultimate parents. Consequently, it will not result in any change in the direct or ultimate ownership or control of Licensees. Exhibit A includes pre- and post-Internal Restructuring organizational charts detailing the existing and proposed ownership structure of Licensees.

III. PUBLIC INTEREST CONSIDERATIONS

The planned Internal Restructuring, which the BAI Communications Group is undertaking to rationalize its international holdings, presents no public interest concerns. The Internal Restructuring will involve only changes to intermediate entities, and thus will result in no change to, or impact on, Licensees. Moreover, the Internal Restructuring will not result in any discontinuance of service or a change of provider for any customers. Accordingly, the Internal Restructuring will be seamless for Licensees' customers. In addition, because the Internal Restructuring will not result in any reduction in the number of competitors serving any relevant product market, it will not adversely affect competition, and customers will continue to have access to the same alternatives that are available today.

Because the direct and ultimate ownership and control of Licensees will remain the same, Licensees' current highly experienced and qualified management, technical, and operational teams will continue to be responsible for its day-to-day operations following the Internal Restructuring. For the same reason, the Internal Restructuring will not negatively impact the capitalization or financial condition of Licensees.

IV. DESIGNATED CONTACTS

All correspondence and communications with respect to this notice should be addressed or directed as follows:
