P.S. PSC Auditor, Ed Began, was in Branson during the weekend on June 3 and 4 and noted the company's address is a computer and internet related business. Mr Rabah may reasonably have a business associate there and may conduct business thru that associate and at that address. Also, the 2005 Annual Report was mailed to that address and he did receive, complete and file it. Apparently the person I talked to at the restaurant was mistaken about the above address (Suite 5) being a restaurant. The restaurant is at Suite 4.
