Subject: Universal Telecom, Inc. 2004 Missouri Public Service Commission Annual Report

Thank you for submitting the Competitive Local Exchange Carrier (CLEC) annual report to the Commission. I have reviewed the annual report. The response to page 1, item 2.a. according to our records should be effective date March 31, 2002 and case number TA-2002-183. While Universal Telecom, Inc. originally received a CLEC certificate in TA-2000-598 the TA-2002-183 case amended the certificate and authorized the inclusion of certain small incumbent local carrier exchanges. Please include the TA-2002-183 case in future annual report submissions.

I also noted that an affidavit notarized in the state of Kentucky does not require that the notary affix a seal or stamp. I am mentioning this specifically for Staff or public readers of this email since it will be included as a supplemental submission to this annual report (BMAR-2005-0169) in the Commission's Electronic Filing and Information System (EFIS).

Please call or email if you have any questions.
