Subject: 2006 Annual Report Deficiency / Tele-Reconnect, Inc.

Thank you for submitting your Competitive Local Exchange Carrier (CLEC) Annual Report to the Missouri Public Service Commission (PSC). Certain deficiencies have been noted in your data.

Your **2006** Annual Report does not correctly list the names of telephone exchanges served. The PSC requires the names of the exchanges as itemized by the CLEC's tariff, with each of their line counts, differentiated by type as noted in the Annual Report's Pages 5 (a) and (b). **Please note that Annual Reports that list only county names, municipalities or NPA-NXX code numbers, or that try to describe service territories such as "all AT&T" or "statewide," or that do not sort the exchanges and total the numbers per exchange, are not satisfactory for compliance with PSC Rules. Please provide a list sorted by exchange name with the total number of lines per exchange.**

If your line counts were submitted as Highly Confidential (HC) previously, you must submit the new data as an HC supplement to your Annual Report. Otherwise, you can E-mail or Fax the missing details at this time to be filed with your Annual Report, and then please remember to provide an updated list as part of the next year's Annual Report.

Please be advised that response to Deficiencies in Annual Reports must be provided within twenty (20) days of notification or penalties may be applied.

Your prompt attention to resolving this matter will be appreciated.
