This row typically includes revenue associated with switched access service, special access service, billing and collection service. NECA settlements, if any, should be reported solely in Column B.

Revenue reporting clarifications:

Total Company Revenue (Column B) = Missouri Intrastate revenue in Column A + Interstate revenues + International revenues.

IVoIP revenue: If unable to distinguish Missouri Jurisdictional revenue in Column A then a safe harbor percentage can be applied to total revenue that corresponds to the FCC's safe harbor percentage.

Retail non-switched private line service revenue: All of a customer's non-switched private line service revenue can be reported in Column B if 10% or more of the customer's private line network traffic is considered interstate traffic.
