Subject: RE: Annual Report Deficiency for Strongcord Infrastructure Systems Management, LLC (BMAR-2022-1661)

This email is a deficiency notice for your 2021 annual report. Your annual report is considered deficient until the following issue(s) are addressed:

- The company submitted two reports with both marked “non-public” but one was filed as public. Section 392.550.3(7)(C)RSMo requires companies providing IVoIP service to submit, as part of their annual reports, the number of customers or lines served in each exchange, and requires the Commission to maintain such information as proprietary and not available to the public. The company must resubmit its report in two forms, a public (with line counts redacted, even if reporting zero) and non-public version. The Commission changed the report filed as public to non-public to keep the lines non-public.
- The confidential version of the report reports revenues, line counts and relay revenue however the public report reports 0 on these pages. Please redact the confidential numbers instead of reporting 0.

Please resubmit your revised annual report in its entirety to correct the deficiency. Any revised annual report/response must be filed within the Missouri Commission's Electronic Filing and Information System (EFIS) using the identification number(s) in the subject of this email. This deficiency must be resolved within the next 20 days. Failure to respond and adequately resolve the deficiency by this deadline may result in punitive action against the company.
