**Supplemental Rules and Regulations Governing
the Rendering of Sewer Service in Benton County**

Rule 1 DEFINITIONS

(a) "SERVICE SEWER" in the Benton County service area, the Company will install, own and maintain grinder pump units and the pressurized portion of the service sewer, and the Customer's Service Sewer shall terminate at the connection to the grinder pump unit.

Rule 2 GENERAL

(b) The Company shall have the right to enter upon the Customer's premises for the purpose of inspecting for compliance with these Rules and Regulations, and to gain access to Company-owned facilities, equipment, and service sewers on the Customer's property including, but not limited to, grinder pump units or septic tank effluent pump units, for installation, inspection, service, repairs, and replacement.

Rule 4 APPLICATIONS FOR SEWER SERVICE

(c) Any change in the location of an existing service connection, or a Company-owned grinder pump unit or septic tank effluent pump unit, requested by the Customer shall be made at the Customer's expense.

Rule 5 INSIDE PIPING AND CUSTOMER SERVICE SEWER

(d) The connection of the Customer's service sewer into the collecting gravity sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If the Company's collecting sewer is vitrified clay pipe of 12" diameter or less and there is no properly located "Y" branch at a suitable location, a "Y" branch shall be provided and installed by the Customer at a location specified by the Company. If the Company's collecting sewer is greater than 12" in diameter, or is PVC or ABS truss pipe of any size, a neat hole may be cut at a location Specified by the Company, and a saddle provided and installed by the Customer to which the Customer's service sewer will be connected. The Invert of the Customer's service sewer at the point of connection shall be at the centerline or higher elevation than the Company's collecting sewer.

(e) For Customers served by a gravity system, a Disconnection Cleanout or Elder Valve shall be installed by the Customer on all new Customer Service Sewers, or on existing Customer Service Sewer if a replacement or repair near the property line is necessary. A Disconnection Elder Valve shall be installed by the Company on Customer Service Sewer, if no such valve exists and if the Customer must be disconnected for any reason. This device is to be installed on the Company's side of the building property line on the specified entity's easement as prescribed by this regulation. For all residential construction the service line and Disconnect Cleanout housing shall be of 4" PVC SDR-35 or Schedule 40 pipe. The Disconnect Cleanout housing as manufactured by Elder Valve, Inc. must be the expense of the Owner/Customer and can be obtained from the Company at their then current charge per valve.

(f) Except for Customers in the Benton County service area where service is provided by grinder pumps, the Customer is obligated to construct, repair, and maintain the service sewer from the collecting sewer to the building of the Customer. Such construction and maintenance by the Customer shall be subject to the approval of an authorized inspector of the Company and shall be in accordance with these Rules and Regulations, as well as construction information of the Company in force at that time.

Rule 7 DISCONTINUANCE OF SERVICE BY COMPANY

(g) The Company reserves the right to discontinue services for refusal to allow access by the Company to Company-owned pump units located upon the Customer's property, in accordance with Rule 2 (e).

Rule 11 RULES APPLYING TO CUSTOMERS SERVED BY AN ALTERNATE COLLECTION SYSTEM

(h) In Benton County service area, the Company will install, own and maintain grinder pump units. Electricity costs for pump operation, including in the Benton County service area where the Company owns and maintains grinder pump units, shall be the responsibility of the Customer.

(i) The Customer shall furnish all materials and install the gravity Customer Service Sewer from the building to the STEP or Grinder Pump, and except in the Benton County service area the pressure Customer Service Sewer to the Company's collecting sewer; or if the entire Customer Service Sewer is gravity flow, the Customer shall furnish all materials and install the Customer Service Sewer, including the Disconnection Cleanout or Elder Valve, to the Company's collection sewer. All construction is to be inspected and approved by the Company. Application accompanied by a specified inspection fee as set forth in the Schedule of Service Charges, must be filed in writing forty-eight hours in advance, stating the location, name of the applicant, name of property owner and time at which tap is to be made. The Company shall not be required to supply sewer service until such construction has been inspected and approved by the Company's representative. The Customer shall be liable to the Company for any damages to the Company's collecting sewer lines resulting from such work. One connection shall not service more than one property.

(j) Except in the Benton County service area, the service sewers from the point of connection to Company owned Collecting sewer to the STEP or Grinder Pump System unit and building shall be constructed, owned and maintained by the Customer and are subject to inspection by the Company. These service sewers shall be sized in accordance with the applicable Engineering criteria.

Rule 12 EXTENSION OF COLLECTING SEWERS, EXPANSION OF TREATMENT CAPACITY, AND ACQUISITION OF EXISTING SEWER SYSTEM

(k) This Rule shall govern the extension of collecting sewers as requested by the Applicant(s) where there are no collecting sewers in existing streets and/or roadways, in areas of new development, expansions of existing developed area, expansion of treatment capacity in certain situations, and acquisitions of existing sewer systems. For purposes of this rule, the cost and construction of Company-owned grinder pump units or septic tank effluent pump units are excluded.
