(53) "Telecommunications service", the transmission of information by wire, radio, optical cable, electronic impulses, or other similar means. As used in this definition, "information" means knowledge or intelligence represented by any form of writing, signs, signals, pictures, sounds, or any other symbols. Telecommunications service does not include:

(a) The rent, sale, lease, or exchange for other value received of customer premises equipment except for customer premises equipment owned by a telephone company certificated or otherwise authorized to provide telephone service prior to September 28, 1987, and provided under tariff or in inventory on January 1, 1983, which must be detariffed no later than December 31, 1987, and thereafter the provision of which shall not be a telecommunications service, and except for customer premises equipment owned or provided by a telecommunications company and used for answering 911 or emergency calls;

(b) Answering services and paging services;

(c) The offering of radio communication services and facilities when such services and facilities are provided under a license granted by the Federal Communications Commission under the commercial mobile radio services rules and regulations;

(d) Services provided by a hospital, hotel, motel, or other similar business whose principal service is the provision of temporary lodging through the owning or operating of message switching or billing equipment solely for the purpose of providing at a charge telecommunications services to its temporary patients or guests;

(e) Services provided by a private telecommunications system;

(f) Cable television service;

(g) The installation and maintenance of inside wire within a customer's premises;

(h) Electronic publishing services; or

(i) Services provided pursuant to a broadcast radio or television license issued by the Federal Communications Commission;

**Instructions for completing the
Competitive Local Exchange Carrier (CLEC) Exchange Access Lines Report (Residential)**

A. Instructions for Section A: Local Voice Service and IVoIP Service.

Use these columns to report exchange access lines used to provide local voice service, as defined by 392.245.5(3) RSMo, and interconnected VoIP service, as defined by 47 CFR 9.3, if the end user's rates for these services are set by the filer. Lines should include all analog and digital (whether circuit switched or packet switched) exchange lines and Key/PBX trunk facilities connecting end users to the Public Switched Telephone Network. Do not use these columns for any exchange access lines used for interconnected VoIP service provided to another carrier.

B. Instructions for Section B: Other.

Use these columns to report exchange access lines to connect Internet Service Providers to the PSTN. In addition, use these columns to report exchange access lines used to provide interconnected VoIP service to another carrier if the other carrier is not certificated to provide telecommunications service by the Missouri Public Service Commission. Do not report any lines used to provide interconnected VoIP service to another carrier if the other carrier possesses a certificate to provide telecommunications service from the Missouri Public Service Commission.

Page 5(a) Definition: Exchange Access Lines

Exchange Access Lines refers to analog or digital lines used in the provisioning of local voice service or interconnected VoIP service. For DS-1 or higher bandwidth facilities, whether circuit or packet switched, a voice grade equivalency must be used. For channelized service, report the number of channels subscribed to by the customer. For example, a fully configured DS-1 facility is to be counted as 24 voice-grade equivalent lines. For partially equipped DS-1 facilities, count only the number of channels actually subscribed to by the end user. For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice communications.

Page 5(a) Column A: Exchange

Exchange refers to exchange names as provided in an incumbent local telephone company's tariff. Rate centers, wire centers, or central offices are not always the same as exchanges.

Page 5(a) Columns B, C, D, E: IVoIP Service

IVoIP Service refers to "Interconnected VoIP service" as defined in 47 CFR 9.3.

Page 5(a) Column B: Full Facility

Full Facility refers to arrangements where your company or an affiliate owns the switch and the local loop.

Page 5(a) Column C: Partial Facility

Partial Facility refers to arrangements where your company or an affiliate owns either the switch or the local loop.

Page 5(a) Column D: Other Resale

Other Resale refers to arrangements where your company leases facilities from an ILEC at a negotiated or arbitrated rate that is not simply a discount off the ILEC's tariffed rate. Examples include UNE-P arrangements, arrangements purchased via a commercial agreement.

Page 5(a) Column E: Pure Resale

Pure Resale refers to arrangements where your company leases facilities/services from the ILEC at a discount from the incumbent's tariffed rate.
