RE: Atmos Energy Corporation
Tariff Filing No.

Dear Ms. Dale:

Enclosed is 1st Revised Sheet No. 195.1 of the tariffs of Atmos Energy Corporation for filing in the above-referenced matter. This tariff sheet revises the bill estimating procedures provisions to implement an Experimental Pilot Estimated Meter Reading Program. The effective date is July 6, 2006. However, the Company is also filing a Motion For Expedited Approval Of Tariff and requesting that the tariff be approved as soon as practicable.

If you have any questions or need additional information, please contact the undersigned, or Pat Childers at Atmos Energy Corporation.

Sincerely,

James M. Fischer

BILLING AND PAYMENT (continued)

(8) Experimental Pilot Estimated Meter Reading

The Company may estimate meter readings during the months of June and August as part of an experimental pilot program, until the effective date of rates approved by the Commission in the Company's first general rate case filed after January 1, 2007. Staff and the Public Counsel may petition the Commission at any time to suspend or terminate the experimental program for good cause. Prior to the Company rendering an estimated bill under the pilot program, the Customer's prior month bill will state the subsequent meter reading will be an estimate and the word "estimate" shall clearly appear on the bill.

The Customer's bill following the month of the estimated meter reading will true-up the actual consumption for the applicable period. Customers are encouraged to allow the Experimental Pilot Program to work and prove itself but a Customer's meter will be read if they request.

The Company will provide, by November 1, 2006, an evaluation of the experimental pilot program to Staff and Public Counsel. The evaluation shall include, but not be limited to, an analysis of actual usage based on meter readings for randomly sampled accounts for the months of June and August, the number of meters estimated each month, and a list of customers that requested to have their meters read. Contents of future annual evaluations will be determined by Staff, Public Counsel and the Company as the experimental pilot progresses.
