Registration to Provide Interconnected)
Voice Over Internet Protocol Service)
File No. DA-2010-0177

NOTICE OF DEFICIENCY

Issue Date: December 8, 2009

On December 8, 2009, Interface Security Systems, L.L.C., filed an application for registration to provide interconnected voice over Internet protocol service. Interface's application is not signed and there is no street address, telephone number, facsimile number and electronic e-mail address listed for such signatory. The application also failed to state the type of business and the jurisdiction in which it was created. The application also did not contain a completed certificate of service. Further, the affidavit attached to the application failed to provide the exchanges in which the company proposes to provide VoIP service, pursuant to §392.550.3(2), RSMo Cum. Supp. 2008. Finally, the affidavit refers to an attached list of corporate officers, but no list was attached.

The Commission cannot take action on this application until these deficiencies are corrected. The Commission will leave the file open until December 18, 2009, to allow Interface to correct the deficiencies. If no response is filed by that time, the Commission will reject the application and close the file.
