Resources )

**AT&T MISSOURI'S APPLICATION AND MOTION  
FOR EXPEDITED TREATMENT**

COMES NOW AT&T Missouri<sup>1</sup> and respectfully requests that the Commission issue an Order, on an expedited basis, that reviews and reverses the decision of the North American Numbering Plan Thousands-Block Pooling Administrator, NeuStar, Inc. ("NANPA"), to withhold certain numbering resources from AT&T Missouri.

The requested numbering resources are necessary to meet the expanding telecommunications needs of St. Francois County Ambulance District ("SFCAD"), located in Farmington, Missouri. These resources consist of a one thousands-block from which two hundred (200) consecutive numbers can be drawn within (1) the 573 NPA, (2) the Farmington rate center, and (3) the XXXX range of 5100 - 5299, (i.e., 573-NXX-5100 through 5299). AT&T Missouri further requests that if such specific resources are not available when the Commission issues its order, the Commission should direct NANPA to provide such resources as are available to meet SFCAD's numbering resource needs.

In support of this Application, AT&T Missouri states as follows:

1. AT&T Missouri is a Delaware corporation with its principal Missouri office at One AT&T Center, Room 3520, St. Louis, Missouri 63101. It may be contacted at the regular

<sup>1</sup> Southwestern Bell Telephone Company d/b/a AT&T Missouri ("AT&T Missouri"). AT&T Missouri files this verified Application and motion for expedited treatment pursuant to 4 CSR 240-2.060, 4 CSR 240-2.080(16), 4 CSR 240-37.040 and 47 CFR 52.15(g)(3)(iv).

and electronic mail addresses and telephone and facsimile numbers of its attorneys, as set out under the signature block of this Application. AT&T Missouri is authorized to do business in Missouri<sup>2</sup> and its fictitious name is duly registered with the Missouri Secretary of State.<sup>3</sup> AT&T Missouri is a "local exchange telecommunications company" and a "public utility," and is duly authorized to provide "telecommunications service" within the State of Missouri, as each of those phrases is defined in Section 386.020, RSMo.

2. All correspondence, pleadings, orders, decisions, and communications regarding this proceeding should be sent to:

3. This Application is prompted by SFCAD's expansion of current operations. As a result, SFCAD is in need of additional numbering resources. A January 8, 2013, letter from Mr. Ryan C. Pratte, SFCAD's Administrator, outlines SFCAD's need for 200 additional lines to complete projects in support of its expansion of current operations. *See*, Exhibit A, attached hereto. As the letter indicates, SFCAD is requesting 200 additional numbers in sequential order, preferably within the XXXX range beginning with 5100, as soon as possible.

---

<sup>2</sup> In accordance with 4 CSR 240-2.060(1) and (G), a certified copy of Southwestern Bell Telephone Company's Certificate of Good Standing from the Missouri Secretary of State was filed with the Commission on August 15, 2007, in Case No. IK-2008-0044. The company has since been converted into a Delaware corporation. *See*, Certificate of Conversion from the Missouri Secretary of State, dated October 3, 2012 (which was filed with the Commission on December 4, 2012 in Case No. IO-2013-0323).

<sup>3</sup> In accordance with 4 CSR 240-2.060(1)(E) and (G), a copy of the registration of the fictitious name "AT&T Missouri" was filed with the Commission on July 17, 2007, in Case No. TO-2002-185.

4. AT&T Missouri has researched the available numbering resources in the Farmington rate center and has determined that it has no numbers available to meet SFCAD's needs.

5. Consequently, AT&T Missouri requests that the Commission grant it numbering resources consisting of a one thousands-block from which two hundred (200) consecutive numbers can be drawn within (1) the 573 NPA, (2) the Farmington rate center, and (3) the XXXX range of 5100-5299 (i.e., 573-NXX-5100 through 5299).

6. On January 10, 2013, AT&T Missouri submitted a Thousands-Block Application Form, Part 1A, for the numbering resources assignment necessary to meet SFCAD's needs. A copy of the Application is attached hereto as Exhibit B. AT&T Missouri completed the Application in accordance with the Industry Numbering Committee's Thousands-Block Pooling Assignment Guidelines and filled out the necessary Months to Exhaust and Utilization Certification Worksheet, a copy of which is attached hereto as Exhibit C.

7. On January 10, 2013, NANPA denied the request on the grounds that AT&T Missouri had not met the utilization and/or months-to-exhaust criteria. A copy of that decision is attached hereto as Exhibit D.

8. AT&T Missouri seeks the Commission's direction to overturn NANPA's decision to withhold numbering resources. This Commission has overturned NANPA's decision to withhold numbering resources in several cases and AT&T Missouri respectfully submits that it should likewise do so here.

9. Under existing procedures, NANPA has asserted that it is required to accept or reject an application for resources based solely on FCC criteria. However, the FCC's March 31, 2000, Order in its Number Resource Optimization docket states that a carrier may challenge a

resource denial before the appropriate state regulatory commission and a state commission may choose to affirm or overturn NANPA’s decision to withhold numbering resources.<sup>4</sup> Thus, the Commission has the authority to “affirm or overturn the NANPA’s decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein.”<sup>5</sup> Moreover, the FCC determined that states may overturn NANPA’s decision to withhold numbering resources from the carrier where there is a verifiable need for the carrier to satisfy a specific customer request:

We also agree with WinStar that a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier’s inability to satisfy a specific customer request. We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.<sup>6</sup>

10. The FCC further explained in its March 31, 2000, Order that a “[c]arrier may demonstrate such a need by providing the state with documentation of the customer request and current proof of the utilization in the rate center” and that states “may grant requests for customers seeking contiguous blocks of numbers.”<sup>7</sup> Moreover, although the FCC declined to establish a specific timeframe for states to act on these requests, the FCC indicated “in most instances, 10 business days from receipt of request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.”<sup>8</sup>

11. Further, this Application complies with 4 CSR 240-37.040. AT&T Missouri has attached hereto its “Months-to-Exhaust Worksheet” indicating the utilization for the Farmington rate center encompassing both the preceding six months and projected monthly utilization for the

next twelve months. 4 CSR 240-37.040(1)(A)1. *See*, Exhibit C. AT&T Missouri has also attached hereto its most recently-filed FCC Form U1 of Form 502 for this rate center. 4 CSR 240-37.040(1)(A)2. *See*, Exhibit E(HC). Finally, AT&T Missouri attaches copies of its originally-filed request to NANPA (i.e., its Thousands-Block Application Form, Part 1A) and NANPA's denial of that request. 4 CSR 240-37.040(1)(A)3. *See*, Exhibits B and D, respectively. These materials and the instant Application demonstrate a verifiable need for the numbering resources requested herein. In connection with this request, AT&T Missouri has exhausted all other available remedies designed to conserve numbering resources. 4 CSR 240-37.040(1)(A)4.

12. AT&T Missouri has no final unsatisfied judgments or decisions against it from any state or federal agency or court which involve Missouri retail customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application. AT&T Missouri has one pending action against it in Missouri, brought by end-user customers, which involves retail customer service or rates.<sup>9</sup>

13. AT&T Missouri does not have any annual report or assessment fees that are overdue in Missouri.

14. AT&T Missouri seeks expedited treatment and requests that the Commission act on this request within thirty (30) calendar days. SFCAD has explained that these numbers are needed, in order to allow it to complete current projects, on an expedited basis. *See*, Exhibit B. In order to accommodate SFCAD's needs, the Commission must issue its order expeditiously, so that AT&T Missouri will have enough time to file a new request with NANPA for the release of the numbering resources to AT&T Missouri described herein. AT&T Missouri filed this request for expedited treatment as soon as it could have after NANPA rejected AT&T Missouri's request

for numbering resources and AT&T Missouri determined that it was not feasible to implement a technological alternative.

WHEREFORE, AT&T Missouri respectfully requests that the Commission overturn NANPA's previous determination in this matter within thirty (30) calendar days, and instruct NANPA to release the numbering resources described herein. AT&T Missouri further requests that if such specific resources are not available when the Commission issues its order, the Commission should direct NANPA to provide such resources as are available to meet the numbering resource needs of the St. Francois County Ambulance District.

## Thousands-Block Application Form

### Part 1A

#### Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under “Block Applicant” the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator’s name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN)are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider<sup>ix</sup>. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, inter-exchange carrier, CMRS. The also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers shall indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA must seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.
