B. Instructions for Section B: Other Integrated Voice over Internet Protocol (I-VoIP).

Use these columns to reflect Interconnected VoIP residential or business lines that enable another provider to serve end-user customers. Do not report lines in Section B if the filer of this annual report provides Interconnected VoIP service or local voice service whereby the filer sets the end-user's rates for the service; instead report such lines in the appropriate column in Section A. This column (column B) is also used for C-LECs reporting lines for affiliated entities pursuant to Subsection 392.550.3(7) RSMo.

C. Instructions for Section C: Internet Service Provider Lines.

If data collection methods permit, use this column to reflect dial-up ISP lines provided to Internet Service Providers. Otherwise, report dial up ISP lines in Section A.

Definitions:

Exchange Access Lines:

Exchange Access Lines refers to analog or digital lines used in the provisioning of local voice service or interconnected VoIP service. For DS-1 or higher band-width facilities, whether circuit or packet switched, a voice grade equivalency must be used. For channelized service, report the number of channels subscribed to by the customer. For example, a fully configured DS-1 facility is to be counted as 24 voice-grade equivalent lines. For partially equipped DS-1 facilities, count only the number of channels actually subscribed to by the end-user. For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice communications.

Exchange:

Exchange is used as that term is defined by Subsection 386.020 (16) RSMo. Exchange refers to the telephone exchange listings as found in the tariffs of local exchange carriers. Rate centers, wire centers, and central offices are not always the same as exchanges.

Local Voice Service and Interconnected VoIP (I-VoIP) Service:

Local Voice Service refers to voice-grade telephone lines as that term is defined by Subsection 392.245.5 (3) RSMo.

Interconnected VoIP Service is used as that term is defined by Subsection 386.020 (23) RSMo. as amended by H.B. 1779.

Full Facility:

Facility is used as that term is defined in Subsection 386.020 (53) RSMo., as amended by H.B. 1779.

Full Facility refers to arrangements where your company or an affiliate owns the switch and the local loop.

Partial Facility:

Partial Facility refers to arrangements where your company or an affiliate owns either the switch or the local loop, but not both.

Resale:

Resale refers to the provision of service pursuant to Subsection 386.020 (47) RSMo., as amended by H.B. 1779.

Resale refers to arrangements where your company does not own, operate, or control any telecommunications facilities but rather, leases facilities from another carrier (such as an incumbent LEC), either through a negotiated or arbitrated agreement, or via a tariffed discounted rate.

Completion of Page 5(a) and 5(b) required only for companies providing local voice services as listed under 392.245.5(3) RSMo. or IVoIP service as listed under 386.020 RSMo.

VoIP providers must submit pages 5(a) and 5(b) as proprietary (P); see Instructions Page 1 for submission requirements.
