

Exhibit No.:
Issue(s): *Advanced Metering Infrastructure*
Witness: *Daniel I. Beck, PE*
Sponsoring Party: *MoPSC Staff*
Type of Exhibit: *Supplemental Surrebuttal Testimony*
Case No.: *ER-2019-0335*
Date Testimony Prepared: *February 20, 2020*

MISSOURI PUBLIC SERVICE COMMISSION

INDUSTRY ANALYSIS DIVISION

ENGINEERING ANALYSIS DEPARTMENT

SUPPLEMENTAL SURREBUTTAL TESTIMONY

OF

DANIEL I. BECK, PE

**UNION ELECTRIC COMPANY,
d/b/a Ameren Missouri**

CASE NO. ER-2019-0335

Jefferson City, Missouri
February 2020

1 A. The Commission approved the current tariffs implementing inclining block rates
2 for residential summer usage in Case Nos. ER-2018-0145 and ER-2018-0146 on December 6,
3 2018. KCPL had already installed AMI meters for over 90% of its Missouri customers by
4 December 31, 2015 (Customers in the Kansas City metro area). Approximately 15,000 KCPL
5 customers located in Saline, Chariton, Carroll, Lafayette, Howard, and Pettis Counties did not
6 get AMI meters initially.¹ By September 2016, approximately 180,000 GMO customers, which
7 equates to approximately 56% of GMO's customers, had AMI installed.² GMO planned to
8 install approximately 140,000 additional units in its rural service areas by the end of 2019.³

9 In contrast, Ameren Missouri expects to install its first AMI meter in July 2020
10 (approximately one year after it filed the current case) with deployment of approximately
11 1.3 million AMI meters taking place over a period of years from 2020 to 2025.⁴ The table
12 below lists end of year targets planned by Ameren Missouri:⁵

<u>Year</u>	<u>%</u>
2020	10%
2021	25%
2022	45%
2023	60%
2024	80%
2025	100%

20 Q. Does this conclude your supplemental surrebuttal testimony?

21 A. Yes.

Daniel I. Beck, P.E.

Manager of Engineering Analysis Department
Industrial Analysis Division

Missouri Public Service Commission
P.O. Box 360
Jefferson City, MO 65102

I graduated with a Bachelor of Science Degree in Industrial Engineering from the University of Missouri at Columbia. Upon graduation, I was employed by the Navy Plant Representative Office in St. Louis, Missouri as an Industrial Engineer. I began my employment at the Commission in November, 1987, in the Research and Planning Department of the Utility Division (later renamed the Economic Analysis Department of the Policy and Planning Division) where my duties consisted of weather normalization, load forecasting, integrated resource planning, cost-of-service and rate design. In December, 1997, I was transferred to the Tariffs/Rate Design Section of the Commission's Gas Department where my duties include weather normalization, annualization, tariff review, cost-of-service and rate design. In June 2001, I was transferred to the Engineering Analysis Section of the Energy Department, which was created by combining the Gas and Electric Departments. I became the Supervisor of the Engineering Analysis Section, Energy Department, Utility Operations Division in November 2005. Since that time my title has been changed to reflect reorganizations and my current title is Manager of the Engineering Analysis Department, Industry Analysis Division. My job duties have basically remained the same since 2005 but in October 2015, I was given added responsibilities in the area of depreciation.

I am a Registered Professional Engineer in the State of Missouri. My registration number is E-26953.
