

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application)
of GoSEMO, LLC)
for Expanded Designation as)
an Eligible Telecommunications Carrier) **Case No. DA-2021-0197**
Pursuant to Section 214(e)(2))
of the Communications Act)
Of 1934, as Amended)

STAFF RECOMMENDATION

COMES NOW the Staff of the Missouri Public Service Commission, by and through counsel, and for its *Recommendation* in this matter hereby states:

1. On January 5, 2021, GoSEMO, LLC, (Company or GoSEMO) filed a *Petition for Expanded Designation as an Eligible Telecommunications Carrier* with the Commission requesting that the Commission issue an order expanding the Company’s eligible telecommunications carrier (ETC) status for the purpose of receiving federal high-cost and low-income support for specific census blocks and ETC status for the purpose of receiving solely federal low-income support for certain other census blocks. The Company’s request, if approved, would permit it to receive federal support pursuant to the Rural Digital Opportunity Fund (RDOF) auction held by the Federal Communications Commission (FCC).

2. The RDOF program is part of the FCC’s attempt to bridge the digital divide. It seeks to expand high-speed broadband service to rural homes and small businesses presently lacking the service. Phase one of the auction began October 29, 2020, and targeted over six million homes and businesses unserved by voice and broadband speeds with downloads of at least 25 Mbps. Phase two of the auction will cover areas that are partially unserved and those areas not covered in Phase one. Winning bidders

must submit to the FCC proof of their ETC status within 180 days of being announced as a winning bidder.

3. The Company is presently registered in the state of Missouri as an interconnected voice over internet protocol (VoIP) service provider. The Company included Exhibits A1 and A2 with its *Petition*, which outline the specific census blocks for which it requests expanded ETC designation.

4. Commission rule 20 CSR 4240-31.016 governs the specific eligible telecommunications carrier requirements that each applicant must meet. Applications must also comply with 20 CSR 4240-2.060 and shall be verified by oath as to the truthfulness contained in the application by an officer or director of the applicant.

5. The FCC requires all winning bidders to submit a Long Form that includes information about a company and its plans to fulfill its bid requirements, which must be approved prior to a company receiving any funds. The ETC process under 20 CSR 4240-31.016 does not address and is not designed to assess a company's technology broadband speed and latency capabilities.

6. Staff conducted an investigation and has provided a memorandum attached to this pleading as Appendix A. Staff's memorandum outlines the reasons why Staff believes GoSEMO has met the requirements of 20 CSR 4240-31.016 and should receive expanded ETC designation.

7. GoSEMO sought waiver of the 60 day notice requirement pursuant to the Commission's rule 20 CSR 4240-4.017. Staff recommends that the waiver be granted.

WHEREFORE, Staff recommends that the Commission approve GoSEMO, LLC's, request for expanded designation as an eligible telecommunications carrier for the

purpose of receiving federal high-cost and low-income support for census blocks identified in Exhibit A1 of the *Petition* and for the purpose of receiving solely federal low-income support for the census blocks identified in Exhibit A2 of the *Petition*; that it grant waiver of the 60-day notice; and that it grant such other and further relief as the Commission considers just in the circumstances.

MEMORANDUM

To: Missouri Public Service Commission Official Case File
Case No. DA-2021-0197

From: Kari Salsman, Research/Data Analyst
John Van Eschen, Regulatory Compliance Manager
Telecommunications Department

Subject: Staff's Recommendation to Approve GoSEMO, LLC's Request for
Expansion of Existing ETC Designation

Date: February 4, 2021

On January 5, 2021, GoSEMO, LLC (GoSEMO or company) filed an application for expansion of its designation as an Eligible Telecommunications Carrier (ETC).¹ The company is headquartered in Sikeston, Missouri and is a registered IVoIP provider in Missouri.² The company later supplemented its application. GoSEMO was recently awarded federal Rural Digital Opportunity Fund (RDOF) support to build broadband facilities in more rural areas.³ The RDOF funding requires the company to extend broadband service to a designated number of locations in certain census blocks. GoSEMO seeks to expand its ETC designation to the won census blocks as well as Lifeline only ETC designation in additional areas of Missouri.⁴

Federal authority enables state commissions to grant ETC status to a company.⁵ Missouri's ETC application requirements are contained in existing Missouri Commission rule 20 CSR 4240-31.016. Staff reviewed the company's request for compliance with Missouri's rules as well as federal requirements. In Staff's opinion the company has adequately met all requirements. Consequently Staff supports the company's application for expansion of its ETC status.

Staff recommends the Commission expand GoSEMO LLC's ETC status for the purpose of receiving federal high-cost and low income support in the area identified by census blocks in Exhibit A1 and low-income only in the area identified by census blocks in Exhibit A2 of the company's application.

¹ ETC status granted in Case No. RA-2019-0089. The company currently receives funding to expand broadband service to approximately 1,800 Missouri locations. Company officials have previously indicated that the company was serving 47% of its obligated locations at the end of 2019 and continue to expand its network.

² Case No. DA-2019-0145. GoSEMO is a subsidiary of Semo Electric Cooperative serving six counties in Southwest Missouri.

³ The company, along with others through their participation in the Rural Electric Cooperative Consortium, has been awarded \$88,238,707 over 10 years to extend broadband service to 44,910 locations. Companies in this consortium generally deploy fiber as the last mile technology.

⁴ Census Block Service areas are listed in Exhibit A1 and A2 of ETC expansion application with the areas being in Southwest Missouri.

⁵ 47 U.S.C. §214(e)(2) and FCC rule §54.201.
