

EC-2023-0395

Brett Felber

VS

Ameren Missouri

Good afternoon, unfortunately since the Commission has cancelled the evidentiary hearing, I have no other choice but to bring this matter before the Civil Courts of the 22nd Judicial. I have unfortunately filed a litigational suit against Both Ameren Missouri and the Missouri Public Service Commission for breach of contract. Fraud with the intent to deceive, deceptive business practices, with the intent to defraud. Ameren for the property damage and etc.

I have no interest in this matter being decided by the Public Service Commission and have now wasted over 101 days of excuses from both the Commission and Ameren Missouri. I have incurred expenses I never should have and unfortunately, I and all plaintiffs involved with the suit filed will seek all punitive damages against both the Commission and Ameren and making sure that all parties as defendants of the suit are held accountable for their fraudulent actions.

Lisa Lambert

Also, the AG's office has opened up a new complaint against Ameren Missouri for the breach of contract.
