Brett Felber

Vs

Ameren Missouri

In addition opposing counsel is the last people that should be asked to as if I have complied with data requests. Opposing counsel is in ghost and hibernation mode and has failed to respond back to my 107 data requests that were submitted to him.

It would be hypocritical and prejudice for him to respond back with an answer and a gross amount of abuse that the commission has allowed him to do, then again. The whole process is in general, has been prejudiced against me.

Have fun with Kangaroo Court!
