Re: Request for Interconnection & Compensation Arrangements

Dear Mr. Marks:

Previously we have sent you requests on behalf of the following Local Exchange Companies (LECs) to begin negotiations with Halo Wireless (Halo) toward an Interconnection Agreement pursuant to Section 251 of the Telecommunications Act of 1996:

Citizens Telephone Company
Green Hills Telephone Corporation
Green Hills Telecommunication Services

Letter Sent
December 30, 2010

Goodman Telephone Company
Granby Telephone Company
Grand River Mutual Telephone Corporation
Lathrop Telephone Company
McDonald County Telephone Company
Oregon Farmers Mutual Telephone Company
Ozark Telephone Company
Seneca Telephone Company

January 26, 2011

Rock Port Telephone Company

January 27, 2011

In addition to the above, several other LECs that we represent have recently received billing records from their tandem provider, AT&T Missouri, indicating that Halo is sending traffic to the AT&T tandems in Missouri over the LEC-to-LEC (or Feature Group C) network for ultimate termination to customers served by these LECs. Currently, Halo has no agreement with any of these LECs to terminate this traffic.

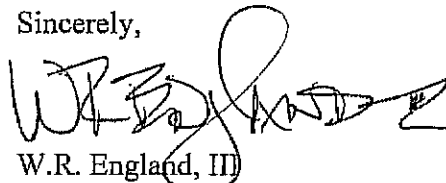

Accordingly, the following LECs request that Halo begin negotiations, pursuant to Section 251 of the Telecommunications Act, to establish appropriate interconnection agreements (including reciprocal compensation) for the local (i.e., intraMTA) wireless traffic that Halo Wireless is terminating to them.

Ellington Telephone Company
Farber Telephone Company
Fidelity Telephone Company
Fidelity Communications Services I
Fidelity Communications Services II
Holway Telephone Company
Iamo Telephone Corporation
Kingdom Telephone Company
KLM Telephone Company
Le-Ru Telephone Company
Mark Twain Rural Telephone Company
Mark Twain Communications Company
New Florence Telephone Company
Steelville Telephone Exchange, Inc.

In response to our earlier correspondence, you have questioned the procedures that these LECs are pursuing to request negotiations. Accordingly, let me make it clear that these LECs seek to initiate negotiations toward an interconnection agreement pursuant to Sections 251 and 252, as envisioned by the FCC in its 2005 T-Mobile decision. Therefore, if voluntary negotiations are unsuccessful, these LECs are willing to submit to arbitration before the Missouri Public Service Commission.

Accordingly, please acknowledge receipt of this letter and indicate Halo Wireless' willingness to begin negotiations towards an interconnection agreement for the exchange of, and compensation for, local (intraMTA) wireless traffic. I look forward to hearing from you.

Sincerely,

W.R. England, III

Subject: Summary of RLEC Agreements with Cingular and T-Mobile

Attached per our telephone discussion is a summary of indirect interconnection Traffic Termination Agreements between our Missouri rural local exchange carrier (RLEC) clients and Cingular and/or T-Mobile. This summary was compiled some time ago, and we have not reviewed it recently. Of course, the executed agreements will control if there is any difference between this summary and the actual agreements.

Also enclosed are copies of the Agreements between Citizens Telephone Company and Cingular and T-Mobile. With the exception of the rates, traffic factors and the provision for transit traffic to Alma Telephone Company, the terms and conditions of these agreements are very similar, if not identical, to those with the other RLECs listed on the summary.

Trip

Mr. Russell Wiseman
President
Halo Wireless
2351 West Northwest Hwy., Suite 1204
Dallas, TX 75220

**Re: Blocking of Terminating Traffic from Halo Wireless, Inc.
Ellington Telephone Company**

Dear Mr. Wiseman:

This notice to commence blocking the telecommunications traffic that Halo Wireless, Inc. (Halo) is terminating to Ellington Telephone Company (Ellington) is made pursuant to the Missouri Public Service Commission (MoPSC) Enhanced Record Exchange (ERE) Rule, 4 CSR 240, Chapter 29. Under the ERE Rule, a terminating carrier may request that the tandem carrier (in this case, AT&T Missouri) block the traffic of an originating carrier and/or traffic aggregator that has failed to fully compensate the terminating carrier for terminating compensable traffic. In addition, the MoPSC's ERE rules provide that "InterLATA Wireline Telecommunications traffic shall not be transmitted over the LEC-to-LEC network . . ." Also, the MoPSC's ERE rules require the originating carrier to deliver originating caller identification with each call. A review of Halo's traffic reveals that a majority, if not all, of traffic terminating from Halo lacks the correct originating caller identification.

Reasons for Blocking: Halo Wireless has failed to fully compensate Ellington for the traffic Halo is terminating to it after Halo's filing for Bankruptcy protection (post-bankruptcy traffic) in violation of 4 CSR 240-29.130(2); Halo is transmitting InterLATA wireline telecommunications traffic over the LEC-to-LEC network in violation of 4 CSR 240-29.010(1); and/or Halo is failing to deliver correct originating caller identification with each call it is terminating to Ellington in violation of 4 CSR 240-29.130(2).

Date for Blocking to Begin: April 12, 2012.

Actions Necessary to Prevent Blocking. In order for Halo Wireless to avoid having its traffic blocked on the LEC-to-LEC Network beginning on April 12, 2012, Halo must: 1) compensate Ellington for the post-bankruptcy traffic Halo is terminating to Ellington at the appropriate access rate for interexchange traffic (including interMTA wireless traffic) and the reciprocal compensation rate for intraMTA wireless traffic; 2) immediately cease and desist from transmitting InterLATA wireline telecommunications traffic over the LEC-to-LEC network that terminates to Ellington; and 3) immediately begin providing correct originating caller identification information for each call Halo terminates to Ellington. These actions must be taken on or before April 10, 2012. Alternatively, Halo can use other means to terminate its traffic (other than the Missouri LEC-to-LEC network) or file a formal complaint with the MoPSC as permitted by 4 CSR 240-29.130(9).

Contact Person for Further Information. Ellington has designated W.R. England, III and Brian McCartney as contact persons for further correspondence or information regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "W.R. England, III". The signature is stylized and somewhat cursive.

W.R. England, III

VIA EMAIL & CERTIFIED MAIL

Mr. Leo Bub
AT&T Missouri
One Bell Center, Room 3520
St. Louis, MO 63101

**Re: Blocking of Terminating Traffic from Halo Wireless, Inc.
- Ellington Telephone Company**

Dear Leo:

I am writing on behalf of Ellington Telephone Company to request the assistance of AT&T Missouri (AT&T) in blocking traffic from Halo Wireless, Inc. (Halo) OCN 429F, as Halo has failed to: 1) compensate Ellington for traffic Halo is terminating to it after Halo's filing for bankruptcy protection (post-bankruptcy traffic) and 2) comply with the Missouri Public Service Commission's (MoPSC) Enhanced Record Exchange (ERE) rules by (a) transmitting InterLATA wireline telecommunications traffic over the LEC-to-LEC network and/or (b) failing to provide, or altering, originating caller identification for this traffic.

As you are aware, terminating carriers, such as Ellington, may request the tandem carrier, in this case AT&T, to block traffic over the LEC-to-LEC network where the originating carrier: 1) has failed to fully compensate the terminating carrier for terminating compensable traffic (*see* 4 CSR 240-29.130(2)); 2) is transmitting InterLATA wireline telecommunications over the LEC-to-LEC network in violation of 4 CSR 240-29.010(1); and/or 3) is failing to deliver the correct originating caller identification in violation of 4 CSR 240-29.130(2).

Therefore, Ellington requests that AT&T take the necessary steps to block Halo's traffic from terminating over the LEC-to-LEC network to the following exchanges and telephone (NPA/NXX) or local routing numbers:

Company Name	Exchange(s)	Local Routing Number or NPA NXX
Ellington Telephone Company	Clearwater Lake	573/461
	Ellington	573/663
	Garwood	573/945
	Redford	573/558
	Sweetwater	573/924

Ellington requests that AT&T implement blocking of Halo traffic on April 12, 2012. Please let me know whether AT&T will be able to block traffic on the date requested. If you have any questions regarding this request or require additional information, please contact me at your earliest convenience.

Thank you in advance for your attention to and cooperation in this matter.

Sincerely,

W.R. England, III
