Morris Woodruff, Secretary
Missouri Public Service Commission
P.O. Box 360
Jefferson City, MO 65102

Re: File No. EO-2015-0055

Dear Mr. Woodruff:

Accompanying this letter are revised Evaluation, Measurement and Verification reports prepared by The Cadmus Group, Inc. for Ameren Missouri's residential energy efficiency programs for the 1st Program Year of Ameren Missouri's Missouri Energy Efficiency Investment Act (MEEIA) plan approved in this docket. The reports have been revised to correct minor mathematical errors related to Nonparticipant Spillover and when calculating the percentage of target that the energy savings achieved. These revisions have not caused any substantive changes to the reports' results and did not cause changes to the recommendations in the original reports that were submitted in this docket on July 14, 2017. The substance of the reports and their conclusions remain the same.

Please also note that the reports prepared by ADM Associates for Ameren Missouri's Community Savers and BizSavers programs for the same program year, and which were also filed on July 14, 2017, are unchanged.

Please contact me should you have any questions.

Sincerely,

/s/ Paula N. Johnson
