Pages 3 - 6

On Pages 3 - 6, provide information regarding gas utility plant-in-service, depreciation expense and depreciation reserve. The account numbers shown in column (b) are defined in the Uniform System Of Accounts (USOA). The definitions describe what type of plant equipment is included in each account number. If you do not have this schedule, call the PSC and ask to speak to someone in the Engineering and Management Services Department regarding Depreciation.

Definitions and/or Instructions

Pages 3 - 6 (continued)

Columns (c), (d), (e) and (f) require original installed cost of plant and equipment placed in service. If a replacement of plant occurs, such as a pump change-out or trading in a truck, then column (d) should show the full installed cost of the new item. In retirement column (e), record the original installed cost (from Plant Property Records), of the item which was replaced (removed). These entries should be supported by books and records, which identify the property and its location. The Balance at End of Year, column (f) equals columns (c) plus (d) minus (e).

Depreciation expense column (h) is computed using the Balance at End of Year column (f), --- or mid-year or mid-month convention used by your company. Record in column (g) the depreciation rate used, (from you company's PSC Depreciation Rate Schedule). Column (i) is the carry forward of depreciation reserve from the previous year annual report. Book Cost of Plant Retired column (j) should be the same as Retirements During the Year column (e). Column (k) should reflect cost incurred to remove the plant which was retired. Column (l) should reflect any money received from the sale or trade-in of the equipment removed or replaced. Reserve balance at End of Year column (n) equals (h) plus (i) minus (j) minus (k) plus (l) plus (m).

Page 7

There are seven different versions of Page 7 within this form beginning with Page 7a through Page 7g. Please only fill out the Page 7 that is applicable to your company. The other pages that do not apply to the company name listed on the cover of the report should be left blank. The company name appears across the top of each version in a gray block. These have been customized according to the company tariff.

Miscellaneous Charges:

Please provide the fee amounts charged, not the total collected, for the appropriate columns listed which will match tariffed amounts. These fields will include what the company charges for each miscellaneous activity listed under each column header.

If this amount is not listed in your tariff, but equals cost incurred, please list an explanation in the Explanation field at the bottom of the sheet. For example, if amounts incurred for tampering are charged back to the customer, then state "Tampering: all costs" in the explanation field. If the field is not adequate to list the full explanation, please attach a sheet to the form with this information.

Late Payment Charges:

Tariff Sheet No. and Effective Date: Please list the sheet number and effective date on the tariff sheet.

Delinquent After (days): List the day number on which a customer would be listed as "delinquent" as shown on bills or in tariff. This would equal the first day that the late payment charge could be applied. For example, if the following is on the bill "this bill will be delinquent after 21 days", then place 22 in this column.

Late Payment Charge: List the percent applied, no delivery, or graduated fee. For example, list "2% up to \$50" to show if there is a graduated fee.

Type of Interest: List "Simple" or "Compound".

Deferred Payment: List "Yes" or "No"

Tariff Sheet No.and Effective Date: List the tariff sheet and effective date of the tariff sheet for deferred payment rule.
