Instructions for completing the**Competitive Local Exchange Carrier (CLEC) Exchange Access Lines Report (Residential)****A. Instructions for Section A: Local Voice Service and IVoIP Service.**

Use these columns to report exchange access lines used to provide local voice service, as defined by 392.245.5(3) RSMo, and interconnected VoIP service, as defined by 47 CFR 9.3, if the end user's rates for these services are set by the filer. Lines should include all analog and digital (whether circuit switched or packet switched) exchange lines and Key/PBX trunk facilities connecting end users to the Public Switched Telephone Network. Do not use these columns for any exchange access lines used for interconnected VoIP service provided to another carrier.

B. Instructions for Section B: Other.

Use these columns to report exchange access lines provided on a wholesale basis to a non-certificated carrier providing interconnected VoIP service. Do not report lines in Section B if the filer of this annual report provides interconnected VoIP service or local voice service whereby the filer sets the end user's rates for the service; instead report such lines in the appropriate column in Section A.

Page 5(a) Definition: Exchange Access Lines

Exchange Access Lines refers to analog or digital lines used in the provisioning of local voice service or interconnected VoIP service. For DS-1 or higher band-width facilities, whether circuit or packet switched, a voice grade equivalency must be used. For channelized service, report the number of channels subscribed to by the customer. For example, a fully configured DS-1 facility is to be counted as 24 voice-grade equivalent lines. For partially equipped DS-1 facilities, count only the number of channels actually subscribed to by the end user. For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice communications.

Page 5(a) Column A: Exchange

Exchange refers to exchange names as provided in an incumbent local telephone company's tariff. Rate centers, wire centers, or central offices are not always the same as exchanges.
