Subject: RE: Qwest Interprise America, Inc. Missouri 2003 Annual Report

Thanks for the information. This report was prepared by an individual who left the company as of March 31.....so I have picked up her responsibilities.

Qwest Interprise America's (QIA) revenues are not published separately in the companies 10-k as filed with the SEC. QIA is a subsidiary of Qwest Communications International. The revenues from QIA are included as a part of the total company, Qwest Communications International revenues, when the company publishes its financial reports.

Would you like us to provide the revenues for Qwest Communications International as the total company revenues? You will see that the reports filed for QCC and USLD also state that the total company is not available. They are also subsidiaries of Qwest Communications International. We could provide that same information for them as well, if you would like.

Thank you for submitting the 2003 annual report to the Missouri Public Service Commission. I have reviewed the report and according to our records the response to page 1, item 2 effective date of certification should be November 15, 2001 and case no. TO-2002-168. This case recognized the name change from U.S. West Interprise America, Inc. and approved the tariff. Please include this information in future annual report submissions. In addition, I we need more information explaining why total company revenues are no available (page 3, item 10). Please provide this information as soon as possible.

Please call or email if you have any questions.
