DOGWOOD ENERGY, LLC'S APPLICATION TO INTERVENE

COMES NOW Dogwood Energy, LLC ("Dogwood") and respectfully submits its Application to Intervene in this proceeding pursuant to 4 CSR 240-2.075. In support of its Application, Dogwood states as follows:

1. Dogwood is a limited liability company organized and existing under the laws of the State of Delaware and authorized to conduct business in the State of Missouri. Dogwood owns the 655 MW combined cycle generating facility located in Pleasant Hill, Missouri, which is within the MPS service territory of KCP&L Greater Missouri Operations Company ("GMO").

2. All communications and pleadings in this case should be directed to:

3. On June 4, 2010, GMO filed an application with the Missouri Public Service Commission. The applicant has requested to make changes to its charges for electric service, a substantial portion of which proposed increase is directly related to plant additions, particularly GMO's share of Iatan 2, an 850 MW super critical, coal-fired generation facility

and GMO's share of its investment in environmental control equipment of Iatan 1 and Iatan Common plant.

4. Dogwood seeks to intervene in this proceeding because the Commission's decision could affect Dogwood's interests. Dogwood must ensure robust access to both transmission and power supplies in the region. Dogwood has been an active participant in recent cases involving GMO, including Case Nos. EM-2007-0374, EO-2008-0046 and ER-2009-0090. Dogwood takes no position at this time pending further investigation and understanding of GMO's proposals.

5. Granting Dogwood's Application to Intervene will also be in the public interest because Dogwood will bring to this proceeding its expertise and its experience as a wholesale electric power provider.

WHEREFORE, Dogwood respectfully requests that the Commission grant this Application to Intervene together with any further and/or additional relief the Commission deems just and proper.

Respectfully submitted,

CURTIS, HEINZ,
GARRETT & O'KEEFE, P.C.
