## ORDER DIRECTING RESPONSE

Issue Date: November 19, 2010

Effective Date: November 19, 2010

On October 29, 2010, Kansas City Power & Light Company and KCP&L Greater Missouri Operations Company filed a joint application asking the Commission to grant a variance from the Commission's renewable energy standards rule to allow the applicants to delay filing a standard offer contract for the purchase of solar renewable energy credits beyond the November 1 submission date specified in the rule. The Commission established November 18 as the deadline for interested parties to respond to that application.

The Staff of the Commission and the Missouri Coalition for the Environment, d/b/a Renew Missouri filed separate responses on November 18. Staff's only objection to the application was that it did not indicate when the applicants would be prepared to file a standard offer contract. Renew Missouri also objected to the open-ended nature of KCP&L and KCP&L-GMO's application. Renew Missouri initially asked the Commission to deny the application for that reason, but on November 19, filed an amended response asking that if the Commission grants the variance application, it do so with a date certain when the applicants might file a standard offer contract.

Before acting on KCP&L and KCP&L-GMO's application, the Commission will direct those companies to reply to the responses filed by Staff and Renew Missouri

**THE COMMISSION ORDERS THAT:**

1. Kansas City Power & Light Company and Kansas City Power & Light - Greater Missouri Operations Company shall reply to the responses of the Commission's Staff and the Missouri Coalition for the Environment, d/b/a Renew Missouri no later than November 26, 2010.

2. This order shall become effective immediately upon issuance.
