Laura,

Please file Ameren's Word doc into EFIS File No. EW-2010-0187. Thanks !

Regards,

Randy

Adam,

After our meeting you asked me to look into the business practices in other RTOs and to comment on whether those business practices address any of our concerns. Attached are my comments on some of the business practices of PJM and ISO-NE. As it turns out, there are some fundamental differences between PJM's and MISO's market rules that certainly address, at least in part, several of our major concerns. I'd be happy to discuss any of these comments with you next week or at the workshop on Wednesday. Have a great weekend.

Keith, I wanted to thank you and your team for the time last week to discuss the ARC issue further. May we have an electronic copy of your presentation to distribute to other members of the commission staff?

Further, I'm not sure if you're the correct person to ask of this, but can you or perhaps someone on the AmerenUE side let us know what actions AmerenUE would have undertaken internally (not asking about advocacy, etc.) if the ARC application from earlier this year in MO would have been processed?

Let me know if I can clarify that question at all. Thanks. Also looking forward to more information regarding some of the suggested solutions.
