5 **CASE NO. ET-2016-0246**

6 Q. Please state your name and business address.

7 A. My name is Natelle Dietrich. My business address is 200 Madison Street,
8 Jefferson City, Missouri 65101.

9 Q. By whom are you employed and in what capacity?

10 A. I am employed by the Missouri Public Service Commission (“Commission”)
11 as Commission Staff Director.

12 Q. Please describe your education and relevant work experience.

13 A. I received a Bachelor’s of Arts Degree in English from the University of
14 Missouri, St. Louis, and a Master’s of Business Administration from William Woods
15 University. During my tenure with the Commission, I have worked in many areas of
16 telecommunications regulation. In October, 2007, I became the Director of Utility
17 Operations. The division was renamed the Tariff, Safety, Economic and Engineering
18 Analysis Department in August 2011. In October 2015, I assumed my current position as
19 Commission Staff Director. In this position, I oversee all aspects of the Commission Staff.

20 My responsibilities include involvement in several activities related to implementing
21 sound energy policy in Missouri. I was the Lead Director for the Commission’s rulemakings
22 on such things as the implementation of the Missouri Energy Efficiency Investment Act, the
23 Chapter 22 rewrite, and the Commission’s renewable energy standard regulations. Relevant

Rebuttal Testimony of
Natelle Dietrich

1 activities relate to oversight of Staff's analysis of and positions on renewable energy, energy
2 efficiency, demand side management, demand response and smart grid. I was a member of
3 the Missouri Delegation to the Missouri/Moldova Partnership through the
4 National Association of Regulatory Utility Commissioners ("NARUC") and the US Agency
5 for International Development.

6 I am a member of the NARUC Subcommittee on Rate Design and the Staff
7 Subcommittee on Telecommunications. I serve on the Staff of the Federal/State Joint Board
8 on Universal Service, as lead Staff for the Missouri Universal Service Board, and was a
9 member of the Governor's MoBroadbandNow taskforce.

10 Q. Have you previously testified before the Commission?

11 A. Yes. My Case Summary is attached as Attachment ND-r1.

12 Q. What is the purpose of your testimony?

13 A. The purpose of my testimony is to respond to the Direct Testimony of
14 Ameren Missouri witness Mark J. Nealon, specifically his comments at page 14, lines 14
15 through 17, that electric vehicle (EV) charging stations "can be considered a 'public service'
16 to the extent that [they] enable[] the free flow of people and goods across our state" and,
17 therefore, are a regulated offering. I will also address general EV policy questions raised by
18 the parties in their October 21, 2016 filings in this case, and posed by the Commissioners in a
19 recent Agenda meeting.

20 Q. Do you agree with Mr. Nealon that Ameren Missouri's EV charging stations
21 proposal is a regulated offering?

22 A. Yes. I am advised by Staff Counsel that the Commission has jurisdiction over
23 the activity of manufacturing, selling or distributing electricity for light, heat or power and the

1 activity of owning or operating electric plant. I will direct the Commission to “Staff’s
2 Response to Order Directing Filing” (“Staff’s Response”) for statutory authority supporting
3 my statement; however, in summary, Staff’s Response states, “EV charging stations are
4 devices used to convey electricity into electric vehicles...The electricity delivered into electric
5 vehicles by EV charging stations [is] necessarily used for light, heat and power...EV charging
6 stations fall within the definition of “electric plant” and...every entity ‘owning, operating,
7 controlling or managing any electric plant’ [is] an ‘electrical corporation’...Consequently, the
8 operation of an EV charging station is generally subject to the regulation of the
9 Commission.”¹

10 Q. If the Commission determines that it has jurisdiction over EV charging
11 stations, are there policy reasons for which the Commission should not assert that
12 jurisdiction?

13 A. No. While Staff is appreciative of the various public policy arguments related
14 to promoting renewable or clean energy and reducing carbon emissions, Staff Counsel
15 informs me that policy decisions are only pertinent when the Commission has discretion. In
16 other words, if the Commission has jurisdiction over a service or an offering, the Commission
17 has no choice but to exercise it.

18 Q. Does this conclude your testimony?

19 A. Yes.
