File No. EO-2012-0008

ORDER GRANTING INTERVENTION

Issue Date: February 1, 2012

Effective Date: February 1, 2012

On December 22, 2011, Kansas City Power & Light Company ("KCP&L") filed the above-titled application. The Commission set January 13, 2012 as a deadline for applications to intervene. The Commission granted the applications for most of the applicants on January 26, 2012. The application of Missouri Industrial Energy Consumers ("MIEC") is taken up in this order due to KCP&L's objection to the application.

KCP&L claims that it does not know the companies that MIEC represents and, thus, KCP&L is unable to discern if any MIEC members are KCP&L customers. KCP&L further states that large customers have the chance to "opt-out" of demand sides measures, so that none of their costs would be assigned to that customer.

MIEC replied by listing Ford Motor Company and Corn Products, Inc., which are KCP&L customers. MIEC also stated that any opt-out decision would not be permanent under Commission Rule 4 CSR 240-20.094(6)(H); thus, even if its members opted out, they would still have an interest in the outcome of the case.

Commission Rule 4 CSR 240-2.075(3) allows the Commission to grant intervention to a person who has an interest different from that of the general public and which may be adversely affected by a final order arising from the case, or if granting intervention would serve the public interest. After review of the objection from KCP&L and MIEC's response, the Commission finds that MIEC meets the standards in the above-cited rule. The Commission will grant MIEC's application to intervene.

THE COMMISSION ORDERS THAT:

1. The application to intervene filed by Missouri Industrial Energy Consumers is granted.
2. This order shall become effective immediately upon issuance.
