**ORDER DIRECTING FILING**

Issue Date: April 19, 2011

Effective Date: April 19, 2011

On January 18, 2011, KCP&L Greater Missouri Operations Company (“GMO”) filed a revised Integrated Resource Plan in File No. EE-2009-0237. With that filing, GMO stated:

As a result of this additional analysis completed per the Stipulation and Agreement in Case No. EE-2009-0237, GMO has determined that the preferred resource plan filed in August, 2009 is no longer appropriate. Significant changes have occurred in projections of both natural gas costs and CO2 emission costs along with recently proposed U.S. Environmental Protection Agency regulations, (Transport Rule) that dictates [sic] the need to fully evaluate additional alternative resource plans prior to determining a revised preferred plan. GMO will be conducting this additional analysis and expects to have results available in the summer of 2011.

On February 8, 2011, the Commission’s Staff filed a complaint against GMO, i.e. File No. EC-2011-0250. Staff alleged that, based upon GMO’s statement that its preferred resource plan was no longer appropriate and that it needed to conduct additional analysis,

GMO had violated the Nonunanimous Stipulation Agreement approved by the Commission in File No. EE-2009-0237. On March 11, 2011, KCP&L Greater Missouri Operations Company (“GMO”) filed its answer. As part of its answer, GMO, citing multiple grounds, requested the complaint be dismissed. On April 7, 2011, Staff and the Missouri Department of Natural Resources both responded arguing the complaint should not be dismissed.

The Commission will direct GMO to provide a date certain, the earliest date it believes is possible, to file the results of its additional analysis and an appropriate preferred resource plan.

**THE COMMISSION ORDERS THAT:**

1. No later than 12:00 p.m. (noon) on April 25, 2011, KCP&L Greater Missouri Operations Company shall file a pleading informing the Commission of the earliest date it is able to provide the additional analysis for its Integrated Resource Plan and its preferred resource plan.
2. This order shall become effective immediately upon issuance.
