RE: DNR Permit Number: MO-0130583

Dear Mr. Myers,

The application for an operating permit for the Wastewater Treatment was completed by my office. We incorrectly indicated the owner to be Gary F. Myers and the continuing authoring would be Cedar Green Condominium Owners Association. The owner and continuing authoring is Cedar Green Land Acquisition, LLC, as they are the owners by warranty deed and plan to retain ownership of the plant.

At the time we completed the form, DNR mandated that we indicated an organized HOA as the continuing authority regardless of the legal authority the owner of plant to retain the asset. The plant is controlled and owned by this Cedar Green Land Acquisition, LLC as of today.

Please call for any question.

Respectfully,

A handwritten signature in blue ink, appearing to read "Matthew J. Marschke".
