**ORDER PROVIDING NOTICE, ESTABLISHING INTERVENTION DEADLINE,
AND DIRECTING RESPONSE**

Issue Date: March 1, 2010

Effective Date: March 1, 2010

On February 24, 2010, Union Electric Company, d/b/a AmerenUE, asked the Commission to grant it variances from certain requirements of the Commission's Integrated Resource Planning Rule, 4 CSR 240-22. The Commission's rule requires AmerenUE to file its Integrated Resource Planning Filing (IRP) in February 2011. The purpose of the IRP filing is to ensure that investor-owned electric utilities, such as AmerenUE, consider all options, including demand side efficiency and energy management measures, to provide safe, reliable, and efficient electric service to the public at reasonable rates, in a manner that serves the public interest.

Since the Commission's decision to grant or deny the requested variances may affect the substance of AmerenUE's IRP filing, the Commission will provide notice to other potential interested parties and the public, and will establish an intervention deadline. The Commission will establish a date for its Staff and other interested parties to offer recommendations regarding AmerenUE's request for variances.
