Re: Case No. TT-2006-0474 (McLeodUSA Access Rate Case)

Dear Mary Ann:

I am writing to express AT&T Missouri's objection to McLeodUSA's First Set of Data Requests, which you submitted to us on August 16, 2006:

**McLeodUSA Data Request**

Please produce AT&T Missouri's most recent cost studies estimating costs associated with AT&T Missouri's switched access rates. Your complete response will include electronic versions of any models, studies, supporting calculations or analysis that support the estimated costs (including any models that generate investments, expenses, engineering assumptions or other inputs into the studies or models). Each study or model should be a fully functioning version whereby a cost analyst can revise assumptions and inputs and generate alternative results. For each relevant output of the studies or models provided, please identify the existing AT&T Missouri rate element(s) that correlate to each such cost

**AT&T Missouri Objection**

AT&T Missouri objects to this Data Request on the ground that it is overbroad, burdensome and seeks the production of information that is neither relevant nor calculated to lead to the discovery of relevant evidence.

Please call me with questions or if you would like to discuss this objection.

Very truly yours,

Leo J. Bub
