1. Does the retirement of Sibley Units 1, 2, and 3 and common plant constitute an extraordinary event as interpreted by the Commission justifying the imposition of an AAO or other deferral mechanism to record a Regulatory Liability under the Uniform System of Accounts ("USoA") in connection with GMO's retirement of Sibley Units 1, 2 and 3 and common plant?
2. If the Commission determines that an AAO or other deferral accounting mechanism should be ordered in connection with GMO's retirement of Sibley Units 1, 2 and 3 and common plant, how should amounts to be recorded to the Regulatory Liability be quantified?
