Subject: RE: Information request

Swearengen has proposed a September 29th direct testimony filing date for all parties in the rate design case. In order to make that a simultaneous filing date we will need billing units, rate impacts, and proof of revenues (accounting for rate switchers) for the Company's rate design proposal by September 1st. An alternative would be for Company to file its direct on September 1st, and the other parties would file direct on September 29th.

I think this is pretty ambitious.

Talk to you in the morning.

Subject: Information request
Importance: High

Swearengen says you need a commitment from us to provide certain information by Sept. 1. Can you detail what it is you need?

I'll call you in the morning to discuss.
