**Title 4 – DEPARTMENT OF ECONOMIC DEVELOPMENT
Division 240 – Public Service Commission
Chapter 28 – Communications**

ORDER OF RULEMAKING

By the authority vested in the Public Service Commission under sections 386.040, 386.250, 386.310, 392.450, and 392.461 RSMo 2016, the commission adopts a rule as follows:

4 CSR 240-28.011 Certificate of Service Authority and/or Registration is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on May 15, 2018 (43 MoReg 982-983). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the Code of State Regulations.

SUMMARY OF COMMENTS: The public comment period ended July 2, 2018, and the commission held a public hearing on the proposed rule on July 9, 2018. The commission received timely written comments from AT&T, Missouri Cable Telecommunications Association (MCTA), CenturyLink, Windstream Missouri, Verizon, the Small Telephone Company Group and Missouri Independent Telephone Company Group (STCG), the Missouri Telecommunications Industry Association (MTIA), and the staff of the commission. Whitney Payne, representing the commission's staff; Richard Telthorst, on behalf of MTIA; Brian McCartney, representing STCG; and Craig Johnson representing Chariton Valley Communications, appeared at the hearing and offered comments.

COMMENT #1: MTIA points out that existing rule 28.030(1), which is being rescinded, lists various types of certificates or registrations that may be issued by the commission and suggests a similar list should be added to the new rule.

RESPONSE AND EXPLANATION OF CHANGE: The commission believes a listing of types of certificates or registration is not necessary. The type of certificates or registrations the commission may issue are determined by statute and any list established by regulation may become obsolete and misleading as the legislature acts to change the commission's authority. Further, the controlling statute allows some applicants to request either a certificate or a registration. It is better for the rule to be generic rather than to separate when a certificate or registration is appropriate. The commission will include a list of application forms that are available for use by applicants as part of its revision of section 28.011(1) and subsection 28.011(1)(A) described in response to Comment #2.

SEP 05 2018

COMMENT #2: MTIA expresses concern that proposed section 28.011(1) says a company “may” request a certificate of authority or registration. It believes that is not an optional requirement and that “may” should be changed to “shall.”

RESPONSE AND EXPLANATION OF CHANGE: MTIA misunderstands the intent of the section. The section is not intended to define when an applicant must obtain a certificate. That is defined by statute. Rather, the section intends to let applicants know how they can obtain the forms needed to submit an application. The commission has revised section 28.011(1) and subsection 28.011(1)(A) to clarify the rule.

4 CSR 240-28.011 Certificate of Service Authority and/or Registration.

- (1) Sample application forms for authorization to obtain or alter a certificate of service authority to provide basic local telecommunications, non-switched local exchange telecommunications, interexchange telecommunications, payphone, shared tenant services or registration to provide IVolP service are available on the commission’s website.
 - (A) Authorization is limited to the service area specified by the company’s initial application; however a company’s service area can later be altered by submitting a Notice of Change form.
 - (B) An attorney licensed to practice law in Missouri must file the application form or the Notice of Change form.
