STAFF RECOMMENDATION

COMES NOW the Staff of the Missouri Public Service Commission and for its recommendation, states as follows:

1. On March 18, 2011, BullsEye Telecom, Inc. (“the Company”) filed its Application in this case. It seeks to expand its basic local telecommunications authority to include all Missouri exchanges and to classify the company and its services in those exchanges as competitive.

2. In the attached Memorandum, labeled Appendix A, the Staff recommends that the Missouri Public Service Commission (Commission) grant the Company’s request to expand its basic local telecommunications authority. The Commission shall grant an application for a certificate of telecommunications service authority upon a finding that the grant of authority is in the public interest. §§392.430 and 392.440 RSMo 2000. In addition, the Staff recommends that the Commission either approve the submitted tariff sheets or allow them to become effective by operation of law.

3. Staff also recommends that the Commission classify the Company’s newly extended services as competitive. The Commission may classify a telecommunications provider or its services as competitive if the Commission determines it is subject to sufficient competition to justify a lesser degree of regulation and that such lesser regulation is consistent with the protection of ratepayers and promotes public interest. §392.361.4. RSMo Supp. 2009. A majority of the services a competitive company provides must be classified as competitive. §392.361.3. RSMo Supp. 2009.

4. The Staff further recommends that the Commission state in its order that, pursuant to § 392.410 RSMo 2000, the authority conferred by the certificate of service authority shall be null and void unless it is exercised within one year of its issuance.

5. The Company is not delinquent in filing an annual report, paying the PSC assessment, MoUSF, and Relay Missouri.

6. The Staff recommends that the application be granted with the following conditions:

a. The applicant's originating and terminating access rates shall not exceed the access rates of the incumbent local exchange company against whom the applicant is competing pursuant to Sections 392.361.6 and 392.370 RSMo.

b. If the directly competing ILEC, in whose service area the applicant is operating, decreases its originating and/or terminating access service rates, the applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates in the directly competing ILEC's service area within 30 days of the directly competing ILEC's reduction of its originating and/or terminating access rates in order to maintain the cap.

7. The Staff recommends that the "standard" waivers, listed below, be granted, as required by §392.420 RSMo. The Company shall list the waivers in its tariff as long as they are effective.

- 4 CSR 240-3.550 (4) and (5)(A) Quality of service reports
