Issue Date: June 17, 2020

Effective Date: June 17, 2020

On June 3, 2020, Union Electric Company, d/b/a Ameren Missouri filed a Request to Amend Evaluation, Measurement and Verification Schedule, and Motion for Expedited Treatment requesting that the Commission extend the deadline for its contractor to file the Evaluation, Measurement, and Verification (EM&V) Final Report for the 2019 program year. The Ameren Missouri 2019-21 MEEIA Energy Efficiency Plan Report that was approved by the Commission on December 5, 2018, as part of a Stipulation and Agreement in this case, establishes time frames during which certain activities must be completed. According to that schedule, the EM&V 2019 program year Final Report was scheduled to be filed on June 9, 2020. Ameren Missouri states that its contractor requested an additional nine days to complete the Final Report for program year 2019.

Ameren stated that it had discussed this extension with the Commission Staff and Staff has no objection to the extension, so long as the other deadlines in the EM&V schedule are also extended. Ameren included a revised table showing the deadlines if the request for amendment is granted. The Commission directed that any other

responses to Ameren Missouri's request be filed no later than June 5, 2020. No responses were filed.

Having reviewed the unopposed request for an amendment of the EM&V schedule, the Commission finds it to be reasonable and will grant the request.

THE COMMISSION ORDERS THAT:
