SURREBUTTAL TESTIMONY

OF

DARRIN R. IVES

Case No. EM-2017-0226, et al.

| 1 | | I. INTRODUCTION |
|----|----|---|
| 2 | Q: | Please state your name and business address. |
| 3 | A: | My name is Darrin R. Ives. My business address is 1200 Main Street, Kansas City, |
| 4 | | Missouri 64105. |
| 5 | Q: | Are you the same Darrin R. Ives that provided Direct Testimony and Supplemental |
| 6 | | Direct Testimony on behalf of Great Plains Energy ("GPE"), Kansas City Power & |
| 7 | | Light Company ("KCP&L"), and KCP&L Greater Missouri Operations ("GMO") |
| 8 | | in EE-2017-0113? |
| 9 | A: | Yes, I am. |
| 10 | Q: | What is the purpose of your Surrebuttal testimony? |
| 11 | A: | The purpose of my Surrebuttal Testimony is to: |
| 12 | | • Identify and respond to the primary criticisms offered in rebuttal testimony by |
| 13 | | Midwest Energy Consumers Group ("MECG") and the City of Independence |
| 14 | | ("Independence") regarding GPE's February 23, 2017, Application for Approval |
| 15 | | of Transaction ("Application for Approval of Transaction") as well as the October |
| 16 | | 12, 2016, Application for a Limited Variance ("Application for Limited |
| 17 | | Variance") from the Commission's Affiliate Transaction Rule filed by GPE, |
| 18 | | KCP&L and GMO. In response to the primary criticisms I will note the actions |
| 19 | | that have been taken by GPE, KCP&L and GMO to address reasonable and valid |
| 20 | | concerns expressed by parties; |

1

- Introduce the witnesses filing surrebuttal testimony on behalf of GPE, KCP&L
 and GMO; and
- 3 Explain how the criticisms made in rebuttal testimony do not justify a conclusion 4 contrary to that supported by the direct and supplemental direct testimony filed in 5 this proceeding (by GPE, KCP&L, GMO, Staff of the Commission ("Staff"), and the Office of the Public Counsel ("OPC")) which fully supports findings by the 6 7 Commission that (1) GPE's acquisition of Westar (the "Transaction") will not be 8 detrimental to the public interest given the level of Transaction savings and the 9 commitments GPE, KCP&L and GMO are making in connection with this request 10 for a limited variance from the affiliate transactions rule; and (2) good cause has 11 been shown to grant the limited variance from the affiliate transactions rule 12 requested by GPE, KCP&L and GMO.

13 Q: Which

Which parties filed rebuttal testimony?

A: Of the 10 parties granted intervention, two have filed rebuttal testimony: MECG by Mr.
Michael P. Gorman and Independence by Mr. Joseph A. Herz. Messrs. Gorman and Herz
both provided testimony in the proceeding before the Kansas Corporation Commission
("KCC") through which KCC approval of GPE's acquisition of Westar Energy, Inc.¹
("Westar") (the "Transaction") is being sought, and their testimony in this case is similar
to the testimony each provided before the KCC.

¹ Westar includes Kansas Gas & Electric Company, a wholly owned subsidiary of Westar providing electric utility service in Kansas.

1 Q:

2

Please summarize the positions of witnesses Gorman and Herz to which you will be responding.

Although Mr. Gorman is "generally supportive" of the Stipulation and Agreement 3 A: between GPE, KCP&L and GMO and Staff ("Staff S&A")², Mr. Gorman discusses the 4 5 capital market reaction to the Transaction, KCP&L and GMO's financial integrity after 6 the Transaction and Transaction savings and recommends additional conditions for the 7 Commission to approve the Transaction and the variance requested from the affiliate transactions rule. Those conditions relate to (1) independent utility boards; (2) ratepayer 8 9 protections in the form of utility-specific capital structure commitments and an income tax election commitment; and (3) treatment of transition costs in post-closing rate cases.³ 10

Mr. Herz takes the position that the Joint Application for a limited variance from the affiliate transactions rule lacks sufficient detail and also argues that (1) retail, wholesale and transmission customers need adequate assurance that they not bear higher capital costs due to the Transaction; (2) the Transaction gives rise to concerns regarding service quality; (3) the Transaction may have a detrimental effect on wholesale power customers; and (4) Transaction savings may not be realistic and may not be fully realized.⁴

² Gorman Rebuttal, p. 4. Note: All cites are to the March 23, 2017 Michael P. Gorman Rebuttal testimony filed in EM-2017-0226 *et al.*, based upon representations of MECG counsel that this is the only Gorman Rebuttal that will be offered into evidence.

³ Gorman Rebuttal, p. 2.

⁴ Herz Rebuttal, pp. 6-7.

| 1 | Q: | Please introduce the other witnesses that are providing surrebuttal testimony on |
|----|----|--|
| 2 | | behalf of GPE, KCP&L and GMO? |
| 3 | A: | GPE, KCP&L and GMO are sponsoring surrebuttal testimony of six witnesses in addition |
| 4 | | to my own surrebuttal testimony. Those witnesses, in alphabetical order, are: |
| 5 | | • Kevin Bryant will respond to Messrs. Gorman and Herz regarding the financial |
| 6 | | impacts of the Transaction; |
| 7 | | • <u>Steven Busser</u> will address integration planning and provide an update regarding |
| 8 | | Transaction efficiencies in response to the testimony of Messrs. Gorman and |
| 9 | | Herz; |
| 10 | | • Melissa Hardesty, Senior Director of Taxes at KCP&L, will respond to the |
| 11 | | income tax issues raised by Mr. Gorman; |
| 12 | | • William Kemp responds to the testimony of Messrs. Gorman and Herz that |
| 13 | | address GPE's estimates of Transaction efficiencies; |
| 14 | | • Kevin Noblet, KCP&L's Vice President of Delivery, will respond to the |
| 15 | | testimony of Mr. Herz regarding quality of service, specifically, call center |
| 16 | | performance and electric service reliability; and |
| 17 | | • Lisa Quilici, Senior Vice President of Concentric Energy Advisors, will respond |
| 18 | | to the testimony of Mr. Gorman regarding independent utility boards, ring-fencing |
| 19 | | and other merger commitments of GPE, KCP&L and GMO. |
| 20 | Q: | How is your surrebuttal testimony organized? |
| 21 | A: | My surrebuttal testimony is comprised of five Sections. |
| 22 | | • Section I is the Introduction. |

| 1 | | • Section II presents an overview or "Executive Summary" of the merger proposal, |
|----|----|---|
| 2 | | inclusive of proposed conditions that I provide in my testimony. I will address |
| 3 | | my first stated purpose, responding to the major concerns of Messrs. Gorman and |
| 4 | | Herz, in this summary. |
| 5 | | • Section III responds to the rebuttal testimony of MECG witness Gorman. |
| 6 | | • Section IV responds to the rebuttal testimony of Independence witness Herz. |
| 7 | | • Section V summarizes our findings and conclusions. |
| 8 | Q: | What is the primary conclusion that the Commission should take away from your |
| 9 | | surrebuttal testimony? |
| 10 | A: | There are two important conclusions. First, that GPE, KCP&L and GMO have |
| 11 | | established 1) that the Transaction is not detrimental to the public interest as supported by |
| 12 | | Staff and OPC through their testimony in support of the Staff S&A and in support of the |
| 13 | | Stipulation and Agreement reached between GPE, KCP&L, GMO and OPC ("OPC |
| 14 | | S&A"), and 2) that the additional protections for Missouri customers provided for in the |
| 15 | | Staff S&A, the OPC S&A and in my surrebuttal testimony will allow the Commission to |
| 16 | | approve the Transaction as requested by GPE in the Application for Approval of |
| 17 | | Transaction as well as the Application for Limited Variance from the Commission's |
| 18 | | Affiliate Transaction Rule as requested by GPE, KCP&L and GMO, based on findings |
| 19 | | that the Transaction is not detrimental to the public interest and that good cause exists for |
| 20 | | the limited variance. |
| 21 | Q: | How does your testimony relate to the testimony of other Company witnesses? |

A: I will present a complete statement of how GPE, KCP&L and GMO's proposal is not
detrimental to the public interest, including proposed conditions provided for in the Staff

| | S&A, OPC S&A and in my surrebuttal testimony in response to Mr. Gorman that serve |
|----|--|
| | as "belt and suspenders" for that purpose. I will refer at several points in my testimony to |
| | other witnesses for GPE, KCP&L and GMO. These witnesses respond to specific |
| | rebuttal testimony of MECG and Independence and/or provide support for the role served |
| | by a merger commitment. |
| | II. EXECUTIVE SUMMARY |
| Q: | Please provide your perspective of the regulatory review as it stands at this point |
| | with the filing of GPE, KCP&L and GMO's surrebuttal testimony. |
| A: | GPE announced a merger agreement (the "Transaction") with Westar on May 31, 2016 |
| | and GPE, KCP&L and GMO subsequently filed an Application for Limited Variance |
| | from the affiliate transactions rule on October 12, 2016 and then, on February 23, 2017 |
| | GPE filed an Application for Approval of Transaction and related relief. It has been and |
| | remains GPE's intention to complete the Transaction as expediently as possible to |
| | minimize the uncertainty that a merger presents to all of our stakeholders including the |
| | Commission, Staff, customers, shareholders, and the employees of GPE and Westar. As |
| | described in the surrebuttal testimonies of Kevin Bryant and Steve Busser, GPE has used |
| | the intervening period to take several actions that will allow us to begin delivering the |
| | benefits of the Transaction to our customers as soon as possible. |
| | Having reviewed and considered the testimony submitted by MECG and |
| | Independence on February 14, 2017, we present this surrebuttal testimony to respond to |
| | issues they have raised. In some cases, we explain how the commitments that have |
| | already been made address the issue raised by MECG or Independence, and in one case, |
| | |

we make an additional commitment to address a reasonable concern raised by MECG. In

23

6

,

other cases, however, we disagree with either the issue raised, the proposed resolution or
 the Commission's authority to address the specific topic raised. It is our hope and
 intention that this surrebuttal testimony will resolve all of the outstanding issues so that
 the Transaction can move forward on terms not detrimental to the public interest.

5

Q: Why are merger commitments and conditions important?

6 Merger commitments and conditions are an integral component of virtually every utility A: 7 merger. They document the applicant's commitments to ensuring that the Commission 8 and other stakeholders can be assured that particular concerns have been addressed and 9 that the Commission can reach a conclusion that the Transaction satisfies the existing 10 standard. Merger commitments or conditions are often negotiated during settlement 11 discussions, as has been done between GPE, KCP&L, GMO, Staff and OPC in this 12 However, GPE felt that it was important to propose an additional proceeding. 13 commitment as part of its surrebuttal testimony in this proceeding in response to a 14 specific issue raised by MECG to allow the Commission to consider it as part of the 15 record, should the Application for Approval of Transaction and Application for Limited 16 Variance be fully litigated.

17

III. RESPONSE TO MECG WITNESS GORMAN

18 Q: To what sections of Mr. Gorman's rebuttal testimony will you respond?

A: I will respond to Mr. Gorman's capital structure condition recommendation as well as his
 recommendation that deferral authority for transition costs should be prohibited. I will
 also briefly respond to Mr. Gorman's recommendation for additional ring-fencing
 commitments and his cost and rate comparison analysis.

1 a. Capital Structure

2

Q: What is Mr. Gorman's capital structure recommendation?

A: MECG witness Gorman recommends that if the utility's stand-alone capital structure (as opposed to the corporate consolidated capital structure of GPE) is used for ratemaking purposes, the common equity ratio of total capital would not exceed 50% unless the utilities prove a different common equity ratio is needed to preserve the credit standing of the utility.⁵

8 Q: Do you agree with this recommendation by Mr. Gorman?

9 A: In general, with one important exception. GPE most certainly intends to propose that the 10 stand-alone capital structures of KCP&L and GMO should be used for ratemaking 11 purposes, and Kevin Bryant explains in his surrebuttal testimony why use of the 12 corporate consolidated capital structure of GPE which includes Transaction debt would 13 not be appropriate to use to set rates for KCP&L or GMO post-closing. In addition, I 14 also agree with Mr. Gorman that providing some reasonable bounds on the utility-15 specific capital structures of KCP&L and GMO to be used for ratemaking purposes can 16 make sense. Where I differ with Mr. Gorman is in the bounds to set for the utility-17 specific capital structures of KCP&L and GMO to be used for rate making purposes. 18 Instead of capping common equity at 50% as proposed by Mr. Gorman, it would be more 19 reasonable to set a range for the utility-specific equity ratio of KCP&L and GMO to be 20 used for ratemaking purposes. I would recommend an equity ratio range of 45-53% 21 equity to total capital. This provides a lower bound equity ratio that is consistent with 22 GPE's intentions to capitalize its utilities consistent with typical practices in the electric

⁵ Gorman Rebuttal, pp. 2, 21-23.

| 1 | | utility industry and the maintenance of investment grade credit ratings for KCP&L and |
|---|----|---|
| 2 | | GMO while also providing more flexibility than Mr. Gorman's proposal. |
| 3 | Q: | Are GPE, KCP&L and GMO providing an additional commitment beyond those |
| 4 | | contained in the Staff S&A and the OPC S&A in response to Mr. Gorman's rebuttal |
| 5 | | testimony? |
| 6 | A: | Yes. This is an additional condition that I sponsor in response to Mr. Gorman's proposal. |
| 7 | | Specifically, GPE, KCP&L and GMO recommend this additional condition specifically |
| 8 | | read, |
| 9 10 11 12 13 14 15 16 | | For ratemaking purposes, KCP&L and GMO agree to the use of an actual utility-specific capital structure with an equity share of no less than 45 percent and no more than 53 percent; provided, however, that KCP&L and GMO may petition the Commission for relief from this condition for reasons not related to the Transaction and the Commission may grant such relief, to the extent it chooses to do so, based on a finding of good cause. |
| 17 | | See Commitment no. 18 in Schedule DRI-4 attached hereto. |
| 18 | Q: | Why is it appropriate to have more flexibility with respect to the ratio of equity to |
| 19 | | total capital than proposed by Mr. Gorman? |
| 20 | A: | Capital structures can vary over time for a variety of reasons, including equity issuances, |
| 21 | | debt maturity and construction projects to name just three. For example, the equity ratio |
| 22 | | tends to be higher immediately after an equity issuance, and lower immediately after a |
| 23 | | debt issuance as the utilities take actions consistent with striving to achieve an optimal |
| 24 | | capital structure at any particular point in time. Equity ratios higher than 50% are not |
| 25 | | uncommon in the electric utility industry and both KCP&L and GMO have had rates set |

| 1 | | using equity ratios higher than 50% in the not too distant past. ⁶ Adoption of Mr. |
|----------------------------|-----------------|---|
| 2 | | Gorman's proposal would unreasonably limit flexibility that has been recognized as |
| 3 | | reasonable in the past and therefore should not be adopted by the Commission. |
| 4 | Q: | Does this additional capital structure condition alter in any way GPE, KCP&L and |
| 5 | | GMO's commitment, as set forth in the Staff S&A, that capital costs shall not |
| 6 | | increase as a result of the Transaction ⁷ ? |
| 7 | A: | No, that commitment, and all of the other commitments in the Staff S&A, as well as all of |
| 8 | | the commitments in the OPC S&A would remain in place and effective. |
| 9 | b. | Transition Costs |
| 10 | Q: | What is Mr. Gorman's recommendation regarding transition costs? |
| | | |
| 11 | A: | Although Mr. Gorman recognizes that recovery of transition costs is appropriate, |
| 11 12 | A: | Although Mr. Gorman recognizes that recovery of transition costs is appropriate, provided the utility demonstrates that those expenditures have been cost-beneficial to |
| | A: | |
| 12 | A: | provided the utility demonstrates that those expenditures have been cost-beneficial to |
| 12 13 | A: Q: | provided the utility demonstrates that those expenditures have been cost-beneficial to customers, he recommends an absolute prohibition on the possibility of deferring |
| 12 13 14 | | provided the utility demonstrates that those expenditures have been cost-beneficial to customers, he recommends an absolute prohibition on the possibility of deferring transition costs until they can be addressed in future rate cases. ⁸ |
| 12 13 14 15 | Q: | provided the utility demonstrates that those expenditures have been cost-beneficial to customers, he recommends an absolute prohibition on the possibility of deferring transition costs until they can be addressed in future rate cases. ⁸ Do you agree with Mr. Gorman's recommendation regarding transition costs? |
| 12 13 14 15 16 | Q: | provided the utility demonstrates that those expenditures have been cost-beneficial to customers, he recommends an absolute prohibition on the possibility of deferring transition costs until they can be addressed in future rate cases. ⁸ Do you agree with Mr. Gorman's recommendation regarding transition costs? While I agree that transition costs should be recoverable when the utility establishes that |

.

⁶ Case No. ER-2006-0314, equity ratio of 55.22% for KCP&L; Case No. ER-2007-0291, equity ratio of 59.17% for KCP&L; Case No. ER-2012-0174, equity ratio of 53.16% for KCP&L; Case No. ER-2012-0175, equity ratio of 53.16% for GMO; and Case No. ER-2014-0370, equity ratio of 50.642% for KCP&L.
⁷ Staff S&A, para. A.7.

⁸ Gorman Rebuttal, p. 21.

1

2

Q: Why do you believe that the possibility of deferring transition costs in future rate case should not be prohibited at this time?

A: First, this recommendation by Mr. Gorman is inconsistent with the treatment of transition
costs in the vast majority of transaction approval orders issued in the last twenty years or
so. In most of those cases, the possibility of deferring transition costs in the future was
specifically acknowledged, just as GPE, KCP&L, GMO and Staff have proposed in
paragraph B.3. of the Staff S&A.⁹

8 Second, given the nature of transition costs, it is likely that many of them will 9 create long-term benefits and that transition costs of that nature would be amortized over 10 a multi-year period. Under those circumstances, it can be appropriate to defer the 11 associated transition costs so that rate recovery and expense recognition are appropriately 12 matched. There is no good reason to deny the possibility of that future action at this time. 13 Third, GPE, KCP&L and GMO have agreed not to seek rate recovery of the acquisition premium or transaction costs and to flow 100% of Transaction savings to the 14 15 benefit of customers in the normal course of ratemaking. Transition costs are akin to 16 expenditures utilities may make to attain service improvements or increase the efficiency 17 of operations. Because transition costs must be cost-beneficial to customers to be eligible 18 for rate recovery under paragraph B.3. of the Staff S&A, and given the concessions GPE,

⁹ See, e.g., Report and Order, July 1, 2008, Case No. EM-2007-0374, In the Matter of the Joint Application of Great Plains Energy Incorporated, Kansas City Power & Light Company, and Aquila, Inc., for Approval of the Merger of Aquila, Inc., with a Subsidiary of Great Plains Energy Incorporated and for Other Related Relief; Report and Order, April 12, 2011, Case No. ER-2010-0355, In the Matter of the Application of Kansas City Power & Light Company for Approval to Make Certain Changes in its Charges for Electric Service to Continue the Implementation of Its Regulatory Plan; Order Approving Stipulations and Agreements and Authorizing Merger Transaction, September 7, 2016, File No. EM-2016-0213, In the Matter of Empire District Electric Company, Liberty Utilities (Central) Co. and Liberty Sub Corp. Concerning an Agreement and Plan of Merger and Certain Related Transactions.

| 1 | | KCP&L and GMO have already made regarding the acquisition premium, Transaction |
|----------------------------------|----|---|
| 2 | | costs and Transaction savings, it would be unreasonable to pre-emptively prohibit the |
| 3 | | possibility of deferring costs which are beneficial to customers. |
| 4 | c. | Additional Ring-fencing Conditions |
| 5 | Q: | In discussing ring-fencing conditions, Mr. Gorman also recommends that GPE |
| 6 | | should be prohibited from using utility assets, cash flows or guarantees or |
| 7 | | assurances for the financial obligations of GPE or other non-regulated affiliates. ¹⁰ |
| 8 | | How do you respond? |
| 9 | A: | I agree, in fact this recommendation by Mr. Gorman is fully addressed in paragraph A.1. |
| 10 | | of the Stipulation and Agreement between GPE, KCP&L and GMO and Staff which |
| 11 | | reads, in relevant part, as follows: |
| 12 13 14 15 16 17 | | Neither KCP&L nor GMO shall guarantee the debt of the other, or of GPE, or of any of GPE's other affiliates, or otherwise enter into make-well or similar agreements, unless otherwise authorized by the Commission. Neither KCP&L nor GMO shall pledge their respective stock or assets as collateral for obligations of any other entity, unless otherwise authorized by the Commission. |
| 18 | | Moreover, the commitment made in paragraph A.1. of the Stipulation and Agreement |
| 19 | | goes even further than Mr. Gorman's recommendation by precluding the use of utility |
| 20 | | assets, cash flows, guarantees or assurances for any entity other than the subject utility |
| 21 | | itself whereas Mr. Gorman's recommended language would have limited the applicability |
| 22 | | of such restrictions to non-regulated affiliates. |
| 23 | | Therefore, this recommendation of MECG witness Gorman should not be adopted |
| 24 | | by the Commission. GPE, KCP&L and GMO witnesses Lisa Quilici and Melissa |
| 25 | | Hardesty address the balance of Mr. Gorman's ring-fencing recommendations. |

¹⁰ Gorman Rebuttal, p. 26.

1Q:Mr. Gorman included as Schedule MGP-1 in his rebuttal testimony the list of2commitments made by GPE in the KCC proceedings. Do GPE, KCP&L and GMO3propose to adopt any of those commitments in this proceeding?

A: Yes. We propose to adopt commitments made in the KCC proceeding which are relevant
to our Missouri operations and customers and which are not already addressed in the
Staff S&A or in the OPC S&A. Attached as Schedule DRI-4 is a list of the commitments
GPE made in the KCC proceeding modified as necessary to reflect Missouri
jurisdictional entities, which we propose to make here. Summarized, we propose to adopt
the following Supplemental Commitments in addition to those conditions agreed to in the
Stipulations and Agreements:

11

• No. 4 – honor existing collective bargaining agreements;

- No. 7 use best efforts to achieve desired staff reductions through natural attrition;
- No. 8 consider targeted voluntary staffing reductions if natural attrition is not
 sufficient, and enhance KCP&L and GMO employee severance packages;
- No. 9 maintain and promote all low-income assistance programs consistent with
 those in place at all operating utility companies, except as provided for in the
 Corporate Social Responsibility section of the OPC S&A;
- No. 11 provision that KCP&L and GMO will not commingle assets, will
 conduct business as separate legal entities, and will maintain existing separation
 of regulated and non-regulated business operations;

| 1 | • No. 12 - provision that KCP&L and/or GMO will not include in any debt or |
|---|---|
| 2 | credit instrument any financial covenants or default triggers related to GPE or any |
| 3 | of its affiliates; |

- No. 14 identifies specific actions to be taken in the unlikely event that the credit
 rating of KCP&L or GMO is reduced by S&P or Moody's to below investment
 grade; commits that if the cost of returning KCP&L or GMO to investment grade
 are above the benefits, the affected utility shall be required to show and explain
 why it is not necessary, or cost effective, to take such actions and how they will
 continue to provide safe and adequate service at just and reasonable rates in
 Missouri;
- No. 22 KCP&L and GMO fuel and purchased power costs shall not be
 adversely impacted as a result of the Transaction;
- No. 24 the return on equity ("ROE") of KCP&L and/or GMO will not be
 adversely affected and shall be determined in future rate cases;
- No. 25 if actual utility-specific capital structure is used to set rates, KCP&L and
 GMO commit to uphold that their future rates will be set commensurate with the
 financial and business risks of KCP&L or GMO, as applicable;
- No. 35 GPE, KCP&L and GMO will maintain adequate records for audit and
 examination of all centralized corporate costs allocated to or directly charged to
 KCP&L or GMO;
- No. 40 GPE, KCP&L and GMO will provide Staff and the Commission with
 detailed journal entries and final detailed journal entries; and

| 1 | | • No. 42 – GPE acknowledges that its utility subsidiaries need significant capital to |
|----|----|--|
| 2 | | invest in energy supply and delivery infrastructure and meeting these capital |
| 3 | | requirements is a high priority. |
| 4 | | These Supplemental Commitments are listed with greater specificity in Schedule DRI-4 |
| 5 | | and are in addition to the commitments set forth in the Staff S&A and in the OPC S&A. |
| 6 | đ | Cost and Rate Comparison |
| 7 | Q: | Mr. Gorman presents a comparison of operation and maintenance ("O&M") costs |
| 8 | | and refers to Staff testimony in a KCP&L rate case regarding administrative and |
| 9 | | general ("A&G") costs in arguing that GPE is unlikely to attain savings from the |
| 10 | | Transaction. ¹¹ How do you respond? |
| 11 | A: | Please refer to Mr. William Kemp's surrebuttal testimony where he thoroughly refutes |
| 12 | | the conclusions Mr. Gorman attempts to draw from his O&M cost comparison. |
| 13 | | Regarding A&G costs, Mr. Gorman questions GPE's ability to bring cost |
| 14 | | efficiency to its Missouri operations because in KCP&L's most recently concluded |
| 15 | | general rate case (Case No. ER-2014-0370) the Commission directed that its Staff |
| 16 | | conduct a management audit of KCP&L's A&G costs. ¹² Mr. Gorman is implying that |
| 17 | | the mere ordering of a management audit implies that GPE will not be able to realize |
| 18 | | merger efficiencies that impact A&G costs. |
| 19 | Q: | Did Staff conduct the A&G management audit as directed by the Commission? |
| 20 | A: | Yes, and on January 17, 2017 the Staff filed the results of its audit in Case No. EO-2016- |
| 21 | | 0124. On page 2 of the Staff's report, as a part of the Executive Summary, Staff |
| 22 | | concluded that "KCPL A&G expenses are high in numerous comparisons, driven |

 ¹¹ Gorman Rebuttal, pp. 35-38.
 ¹² Gorman Rebuttal, pp. 37-38.

| 1 | | primarily by Pension Expense. The Company has taken actions to better control pension |
|----|----|--|
| 2 | | expense and while the benefit of those actions will not be realized in the near term, they |
| 3 | | are anticipated to eventually lower A&G costs." |
| 4 | Q: | Does this finding support the conclusion Mr. Gorman attempts to draw from the |
| 5 | | Commission's directive for Staff to conduct a management audit of KCP&L's A&G |
| 6 | | costs? |
| 7 | A: | Not at all. Mr. Gorman's unfounded conclusion should be disregarded by the Commission. |
| 8 | | IV. RESPONSE TO INDEPENDENCE WITNESS HERZ |
| 9 | Q: | To what sections of Mr. Herz's rebuttal testimony will you respond? |
| 10 | A: | I will respond to Mr. Herz's discussions regarding (a) the adequacy of the Application for |
| 11 | | Limited Variance; (b) alleged wholesale power supply impacts; (c) the acquisition |
| 12 | | premium and Transaction savings. |
| 13 | a. | Affiliate Transactions Rule Variance |
| 14 | Q: | Mr. Herz alleges that GPE, KCP&L and GMO's request for a variance from the |
| 15 | | affiliate transactions rule – to permit all transactions between the regulated |
| 16 | | operations of KCP&L, GMO and Westar to occur at cost except for wholesale |
| 17 | | power transactions, which will be based on rates approved by FERC – should be |
| 18 | | denied because sufficient detail regarding the specific types of goods or services that |
| 19 | | will be exchanged has not been provided. ¹³ How do you respond? |
| 20 | A: | The limited variance requested by GPE, KCP&L and GMO in the context of this |
| 21 | | Transaction is the very same variance that was granted to permit transactions to occur at |
| 22 | | cost between KCP&L and GMO as a result of GPE's acquisition of Aquila, Inc. in 2008. |

¹³ Herz Rebuttal, p. 8.

1 Consequently, the types of goods and services that will be exchanged among the 2 regulated operations of KCP&L, GMO and Westar as a result of GPE's acquisition of 3 Westar is expected to be very similar to those which have been exchanged since 2008 4 between KCP&L and GMO's regulated operations. They include the full range of 5 services typically provided by a shared services organization, as KCP&L currently 6 houses all employees and neither GMO nor GPE has any employees. Although it is not 7 currently expected that all Westar employees will become KCP&L employees upon 8 closing of the Transaction, there will be services provided to KCP&L and GMO by 9 employees of Westar after closing and, conversely, there will also be services provided to 10 Westar by employees of KCP&L after closing. Absent the limited variance requested by 11 GPE, KCP&L and GMO, these transactions among the regulated operations of KCP&L, 12 GMO and Westar may be subject to the asymmetric pricing requirements of the 13 Commission's affiliate transactions rule (4 CSR 240-20.015(2)) even though the 14 Commission's affiliate transactions rule is, by its express terms, designed to prevent utilities from subsidizing non-regulated operations.¹⁴ 15

Details regarding the goods and services exchanged between the regulated operations of KCP&L and GMO are provided to the Commission annually in the cost allocation manual ("CAM") filings made by each company. The affiliate transactions reports for the most recent CAM filings made by KCP&L and GMO (covering 2015) are appended hereto as Schedule DRI-5. Schedule DRI-5 contains a listing of all affiliate transactions undertaken by KCP&L and GMO in 2015, including those covered by the limited variance granted in 2008 that permit all transactions between the regulated

¹⁴ See "Purpose" section at the beginning of 4 CSR 240-20.015.

operations of KCP&L and GMO to occur at cost except for wholesale power transactions
which are undertaken based on rates approved by FERC. Revisions to the CAM will be
necessary to accommodate GPE's acquisition of Westar and, consistent with paragraph
C.6. of the Staff S&A, KCP&L and GMO will meet with Staff within 60 days of closing
to provide a description of the impact of the Transaction on the allocation of costs among
GPE's utility and non-utility subsidiaries as well as the Transaction's expected impact on
the CAMs of KCP&L and GMO.

8 Given the experience of KCP&L and GMO with a very similar affiliate 9 transactions rule variance as well as the commitment in the Staff S&A to discuss the 10 impact of the Transaction on cost allocations and CAMs soon after closing, the 11 arguments of Independence witness Herz are not persuasive and serve as no reasonable 12 basis to deny the variance requested by GPE, KCP&L and GMO.

13 b. Wholesale Power Supply

14 Q: Mr. Herz suggests that the Transaction gives rise to a significant chance that the 15 price for wholesale power supply contracts will increase.¹⁵ How do you respond?

A: Wholesale power supply services are regulated by the Federal Energy Regulatory
Commission ("FERC") and, thus, are not within the jurisdiction and authority of this
Commission. As such, Mr. Herz's arguments regarding wholesale power supply
contracts are being made in the wrong forum and should be disregarded by the
Commission in this proceeding.

¹⁵ Herz Rebuttal, p. 14.

1 0: Mr. Herz discusses a number of "hold harmless" provisions in connection with the 2 Transaction made in proceedings before the KCC and FERC and suggests that commitments made by GPE, KCP&L and GMO in the Staff S&A and in the OPC 3 S&A are not binding at this time.¹⁶ How do you respond? 4

- 5 GPE, KCP&L and GMO request that the Commission approve the Staff S&A and the A: 6 OPC S&A so that the commitments made in those documents become binding.
- 7 **Q:** Mr. Herz goes on to suggest that differences among the commitments made in 8 connection with the Transaction in proceedings before the KCC, FERC and this Commission may disadvantage wholesale customers.¹⁷ How do you respond? 9

10 If Independence believes commitments in connection with the Transaction disadvantage A: 11 wholesale power customers, then FERC is the proper forum to make those arguments. 12 This Commission should not entertain arguments regarding services that are not 13 jurisdictional to Missouri in this proceeding. Therefore, Mr. Herz's recommendation that 14 the Commission should provide network transmission customers a "self-help" opportunity¹⁸ should be disregarded by the Commission as beyond its authority. 15

Mr. Herz further suggests that commitments made by GPE, KCP&L and GMO in 16 **Q:** 17 the Staff S&A and in the OPC S&A do not protect wholesale customers like Independence.¹⁹ How do you respond? 18

19 Because the jurisdiction of this Commission is limited to retail services and retail A: 20 customers, it is entirely appropriate that the commitments made in the Staff S&A and in 21 the OPC S&A do not cover wholesale customers like Independence. That the Staff S&A

¹⁶ Herz Rebuttal, p. 15.
¹⁷ Herz Rebuttal, p. 16.
¹⁸ Herz Rebuttal, p. 24.

¹⁹ Herz Rebuttal, pp. 17-21.

and the OPC S&A observe and respect the jurisdictional boundaries between this
 Commission and FERC is no reasonable basis to disapprove the Transaction, deny the
 limited variance requested from the affiliate transactions rule or disapprove either the
 Staff S&A or the OPC S&A.

5

Q: Has FERC approval of GPE's acquisition of Westar been requested?

6 A: Yes. Westar and GPE filed a request under section 203 of the Federal Power Act for 7 authorization of the Transaction. FERC must determine under section 203 of the Federal 8 Power Act whether the proposed transaction is consistent with the public interest. In 9 making this determination FERC considers, among other things, the effect on rates. 10 Specifically, FERC examines the impact of the proposed transaction on transmission 11 rates and cost-based rates for captive wholesale customers. In doing so, FERC will 12 consider hold harmless commitments made by Westar and GPE in their section 203 13 proceeding to mitigate any potential impact of the Transaction on such rates.

14 In GPE and Westar's initial application to FERC for authorization for the 15 Transaction (filed July 12, 2016), as strengthened in their answer filed October 11, 2016, 16 responding to protests filed in that proceeding by other parties, Westar and GPE 17 committed to hold harmless transmission and wholesale power and wholesale distribution 18 service customers with cost-based rates from the rate effects of the Transaction. This is 19 consistent with FERC policy. The hold harmless commitments, coupled with the 20 respective Generation Formula Rate ("GFR") and Transmission Formula Rate ("TFR") 21 protocols, will mitigate any rate effects of the Transaction on GFR and TFR customers. 22 Moreover, Westar and GPE demonstrated in their October 11, 2016 response that the 23 credit ratings concerns are speculative in nature and that the parties expressing such

| 1 | | concerns provide no evidence that Westar's or KCP&L's existing credit ratings will be |
|----|----|--|
| 2 | | downgraded as a result of the merger or that, even assuming a credit downgrade, such a |
| 3 | | downgrade would result in higher rates, given that none of the protesting parties |
| 4 | | suggested (much less demonstrated) that any of the companies involved in the |
| 5 | | Transaction would be downgraded below investment level. |
| 6 | Q: | Has FERC issued an order in the Westar/Great Plains section 203 proceeding? |
| 7 | A: | Not as of the date of filing this surrebuttal testimony. |
| 8 | c. | Acquisition Premium and Transaction Savings |
| 9 | Q: | Mr. Herz discusses the acquisition premium and the ratemaking treatment of |
| 10 | | Transaction savings proposed by GPE, KCP&L and GMO and then suggests that |
| 11 | | ratepayers will not be sufficiently insulated from costs of the Transaction. ²⁰ Mr. |
| 12 | | Herz appears to imply that ratepayers may end up paying a portion of the |
| 13 | | acquisition premium. How do you respond? |
| 14 | A: | First, GPE, KCP&L and GMO have clearly stated that they will not seek rate recovery of |
| 15 | | the acquisition premium, and we will honor that commitment. ²¹ |
| 16 | | For Transaction savings, GPE, KCP&L and GMO propose that they should be |
| 17 | | treated for ratemaking purposes just as efficiencies obtained by any utility in the normal |
| 18 | | course of business are, meaning that those savings would be retained by the utility until |
| 19 | | the next general rate proceeding at which time 100% of those savings would be reflected |
| 20 | | in customer rates. This requires no special ratemaking mechanism, contrary to the |
| 21 | | implications of Mr. Herz. And while KCP&L and GMO will have the burden of proving |

 ²⁰ Herz Rebuttal, pp. 22-23.
 ²¹ The only exception to this commitment could occur if a party to a KCP&L or GMO rate case seeks to impute Transaction debt to the capital structure of KCP&L or GMO for purposes of setting rates. Only in that instance could the subject utility request rate recovery of the acquisition premium. Ives Direct, p. 13.

1 that recoveries of transition costs in rates are just and reasonable and that the costs 2 provide benefits to customers, this kind of showing is typical for rate cases and provides 3 assurance to the Commission that it will see evidence of Transaction sayings in post-4 closing rate cases of KCP&L and GMO. See Staff S&A, paragraph B.3. Importantly, 5 however, the risk of not being able to make the required showing is ultimately borne by 6 GPE's shareholders, not KCP&L and GMO's customers. Because the acquisition 7 premium and Transaction costs are not being requested from customers and as 8 Transaction savings will be addressed in post-closing rate cases, there is no need to adopt a mechanism, as suggested by Mr. $Herz^{22}$, for the quantification, monitoring, allocation 9 10 and verification of Transaction savings.

11 In order to maintain the ability to make use of the fuel adjustment clause 12 ("FAC"), KCP&L and GMO must complete general rate proceedings approximately 13 every four years. This provides assurance that customers will experience the benefit of 14 Transaction savings within a reasonable period of time after the Transaction closes. 15 Given the upward cost of service pressure that KCP&L and GMO have been 16 experiencing for some time now (like the rest of the electric utility industry across the 17 country), it is not likely that rates will decrease as a result of general rate cases post-18 closing, but rather the rate increases will be lower than without the Transaction. This is a 19 benefit to customers that will be unavailable if the Transaction does not close.

20 21

22

Mr. Bryant explains in his surrebuttal testimony why the purchase price GPE has agreed to pay to Westar shareholders – which necessarily includes the acquisition premium which is simply a mathematical calculation derived by subtracting net book

²² Herz Rebuttal, p. 24.

| 1 | | value from the total purchase price - is reasonable. To the extent that KCP&L and/or | | | | | |
|----|----|--|--|--|--|--|--|
| 2 | | GMO is permitted to request rate recovery of the acquisition premium (and transaction | | | | | |
| 3 | | costs) under paragraphs B.1 and B.2 of the Staff S&A, any such request would be limited | | | | | |
| 4 | | by the provisions of paragraph B.4 of the Staff S&A which mandates that retail rates for | | | | | |
| 5 | | Missouri KCP&L and GMO customers shall not increase as a result of the Transaction. | | | | | |
| 6 | | Consequently, the possibility that rate recovery of the acquisition premium could be | | | | | |
| 7 | | requested under paragraphs B.1 and B.2 of the Staff S&A will not be detrimental to | | | | | |
| 8 | | customers. | | | | | |
| 9 | | V. SUMMARY AND CONCLUSION | | | | | |
| 10 | Q: | Please summarize for us your surrebuttal testimony and review what it is GPE, | | | | | |
| 11 | | KCP&L and GMO are requesting the Commission do in this case? | | | | | |
| 12 | A: | My surrebuttal testimony shows that GPE, KCP&L and GMO have demonstrated that the | | | | | |
| 13 | | Transaction is not detrimental to the public interest, and that with the merger | | | | | |
| 14 | | commitments and conditions included in the Staff S&A, the OPC S&A and the additional | | | | | |
| 15 | | commitments offered in this surrebuttal testimony, GPE, KCP&L, GMO, Staff and OPC | | | | | |
| 16 | | have presented a clear and rational path for the Commission to approve the Application | | | | | |
| 17 | | for Transaction Approval as not detrimental to the public interest and the Application for | | | | | |
| 18 | | Limited Variance as supported by good cause. GMO and KCP&L's Missouri customers, | | | | | |
| 19 | | and the greater public generally, will benefit from the savings achievable from this | | | | | |
| 20 | | Transaction. | | | | | |
| 21 | | Therefore, GPE, KCP&L and GMO respectfully request the Commission: | | | | | |
| 22 | | • Approve the Transaction as set forth in the Application for Transaction | | | | | |
| 23 | | Approval as not detrimental to the public interest subject to all of the terms | | | | | |
| | | | | | | | |

| 1 | and conditions set forth in the Staff S&A, the OPC S&A and the additional |
|----|---|
| 2 | commitments set forth in this surrebuttal testimony; |
| 3 | • Authorize GPE, KCP&L and GMO to perform in accordance with the terms |
| 4 | of the Merger Agreement and Transaction-related instruments and |
| 5 | agreements, and to take any and all actions that may be reasonably necessary |
| 6 | and incidental to the performance of the Transaction; |
| 7 | Grant the Application for Limited Variance from 4 CSR 240-20.015 for good |
| 8 | cause in order to facilitate transactions between the regulated operations of |
| 9 | KCP&L and GMO and Westar by allowing all transactions to occur at cost |
| 10 | except for wholesale power transactions, which will be based on rates |
| 11 | approved by FERC, subject to all of the terms and conditions set forth in the |
| 12 | Staff S&A, the OPC S&A and the additional commitments set forth in this |
| 13 | surrebuttal testimony; |
| 14 | To the extent any waivers of Commission Orders or regulations are necessary |
| 15 | to allow GPE, KCP&L and GMO to perform in accordance with the Merger |
| 16 | Agreement and Transaction-related instruments and agreements, grant such |
| 17 | waivers; and |
| 18 | Grant such other relief as may be necessary and appropriate to accomplish the |
| 19 | purposes of the Transaction by GPE, KCP&L and GMO, and to consummate |
| 20 | the Transaction-related agreements in accordance with the terms thereof. |
| 21 | In taking such actions, the Commission will ensure that all stakeholders will experience |
| 22 | significant benefits from the Transaction. These benefits will come with few and very |
| 23 | manageable risks. The merger commitments preserve or expand the Commission's |

1 jurisdiction over GPE, KCP&L and GMO and ensure the ability for Missouri customers

.

2 to continue to receive safe and reliable service at just and reasonable rates.

3 Q: Does that conclude your surrebuttal testimony?

4 A: Yes, it does.

BEFORE THE PUBLIC SERVICE COMMISSION STATE OF MISSOURI

IN THE MATTER OF THE APPLICATION OF GREAT PLAINS ENERGY INCORPORATED FOR APPROVAL OF ITS ACQUISITION OF WESTAR ENERGY, INC.

) Docket No. EM-2017-0226

AFFIDAVIT OF DARRIN R. IVES

)

)

STATE OF MISSOURI)) ss COUNTY OF JACKSON)

Darrin R. Ives, being first duly sworn on his oath, states:

1. My name is Darrin R. Ives. I work in Kansas City, Missouri, and I am employed by Kansas City Power & Light Company as Vice President – Regulatory Affairs.

2. Attached hereto and made a part hereof for all purposes is my Surrebuttal Testimony on behalf of Great Plains Energy Incorporated, Kansas City Power & Light Company, and KCP&L Greater Missouri Operations Company consisting of <u>twenty-five</u> (25) pages, having been prepared in written form for introduction into evidence in the above-captioned docket.

3. I have knowledge of the matters set forth therein. I hereby swear and affirm that my answers contained in the attached testimony to the questions therein propounded, including any attachments thereto, are true and accurate to the best of my knowledge, information and belief.

Darrin R. Ives

Subscribed and sworn before me this 27^{H} day of March, 2017.

| No. | Supplemental Werger Commitments and Conditions |
| | Applicability of Commitments and Conditions |
| requ | se conditions ¹ , in combination with the Staff S&A and OPC S&A, are presented as a package. Changes to any individual condition may ire changes to other conditions. The conditions will remain in force and effect for the time period specified in the condition or if no time od is specified in perpetuity and in all cases unless otherwise approved by the MoPSC. |
| | General Conditions |
| 4 | Honor all existing collective bargaining agreements. |
| 7 | Make best efforts to achieve desired staffing reductions through natural attrition. |
| 8 | Consider targeted voluntary staffing reduction programs if natural attrition is not sufficient. Where severance is unavoidable, honor or enhance KCP&L's employee severance package. |
| 9 | Maintain and promote all low-income assistance programs consistent with those in place at all operating utility companies prior to the Transaction. This commitment does not alter the Corporate Social Responsibility Commitment to which GPE, KCP&L and GMO have agreed as part of the OPC S&A. |
| | Financing and Ring-Fencing Conditions |
| 11 | Separation of assets: GPE commits that KCP&L and GMO will not comingle their assets with the assets of any other person or entity, except as allowed under the Commission's Affiliate Transaction statutes or other Commission order. |
| | GPE commits that KCP&L and GMO will conduct business as separate legal entities and shall hold all of their assets in their own legal entity name unless otherwise authorized by Commission order. |
| | GPE, KCP&L and GMO affirm that the present legal entity structure that separates their regulated business operations from their unregulated business operations shall be maintained unless express Commission approval is sought to alter any such structure. GPE, KCP&L and GMO further commit that proper accounting procedures will be employed to protect against cross-subsidization of GPE's, KCP&L's and GMO's non-regulated businesses, or GPE's other regulated businesses in Missouri. |

Though the terms "condition" and "commitment" may have slightly different meanings, for the sake of simplicity, this exhibit generally uses the term "condition" to refer to GPE, KCP&L and GMO's Supplemental Commitments.

1

Schedule DRI-4 Page 2 of 4

| No. | Supplemental Merger Commitments and Conditions | | | |
|-----|---|--|--|--|
| 12 | Other Separation: Neither KCP&L nor GMO shall guarantee the debt of the other, or of GPE, or of any of GPE's other affiliates, or otherwise enter into make-well or similar agreements, unless otherwise authorized by the Commission. Neither KCP&L nor GMO shall pledge their respective stock or assets as collateral for obligations of any other entity, unless otherwise authorized by the Commission. Neither KCP&L nor GMO will include, in any debt or credit instrument of GMO and KCP&L, any financial covenants or default triggers related to GPE or any of its affiliates. See also Staff S&A Financing Condition 1. | | | |
| 14 | Credit rating downgrade: In the event KCP&L or GMO should have its respective Standard & Poor's ("S&P") or Moody's Corporate Credit Rating downgraded to below BBB- or Baa3, respectively, as a result of the Transaction, KCP&L or GMO (the "Impacted Utility") commits to file: | | | |
| | i. Notice with the Commission within five (5) business days of such downgrade; | | | |
| | ii. A pleading with the Commission within sixty (60) days which shall include the following: | | | |
| | • Actions the Impacted Utility may take to raise its S&P or Moody's Corporate Credit Rating to BBB- or Baa3, respectively, including the costs and benefits of such actions and any plan the Impacted Utility may have to undertake such actions. If the costs of returning GMO and/or KCP&L to investment grade are above the benefits of such actions, GMO and/or KCP&L shall be required to show and explain why it is not necessary, or cost-effective, to take such actions and how the utility(s) can continue to provide efficient and sufficient service in Missouri under such circumstances; | | | |
| | The change, if any, on the capital costs of the Impacted Utility due to its S&P or Moody's Corporate Credit Rating below BBB- or Baa3, respectively; and | | | |
| | • Documentation detailing how the Impacted Utility will not request from its Missouri customers, directly or indirectly, any higher capital costs incurred due to a downgrade of its S&P or Moody's Corporate Credit Rating below BBB- or Baa3, respectively; | | | |
| | iii. File with the Commission, every forty-five (45) days thereafter until the Impacted Utility has regained its S&P or Moody's Corporate Credit Rating of BBB- or Baa3, respectively or above, an updated status report with respect to the items required in paragraph 4(c)(ii) above. | | | |
| | iv. If the Commission determines that the decline of the Impacted Utility's S&P or Moody's Corporate Credit Rating to a level below BBB- or Baa3, respectively, has caused its quality of service to decline, then the Impacted Utility shall be required to file a plan with the Commission detailing the steps that will be taken to restore service quality levels that existed prior to the ratings decline. | | | |
| | v. In the event KCP&L's or GMO's affiliation with GPE or any of GPE's affiliates is the reason for KCP&L's or GMO's respective S&P or Moody's Corporate Credit Rating to be downgraded to below BBB- or Baa3, respectively, KCP&L and/or GMO shall | | | |

| No. | Supplemental Merger Commitments and Conditions |
|-----|--|
| | pursue additional legal and structural separation, if necessary, from the affiliate(s) causing the downgrade, and the Impacted Utility shall not pay a common dividend without Commission approval or until the Impacted Utility's S&P or Moody's Corporate Credit Rating has been restored to BBB- or Baa3, respectively, or above. |
| | vi. If KCP&L's or GMO's respective S&P or Moody's Corporate Credit Rating declines below BBB- or Baa3, respectively, as a result of the Transaction, the Impacted Utility shall file with the Commission a comprehensive risk management plan that assures the Impacted Utility's access to and cost of capital will not be further impaired. The plan shall include a non-consolidation opinion if required by S&P or Moody's. |
| | See Staff S&A Financing Conditions 3, 4, 5 and 6. |
| | Ratemaking, Accounting, and Related Conditions |
| 18 | For ratemaking purposes, GMO and KCP&L agree to the use of an actual utility-specific capital structure with an equity share of no less than 45 percent and no more than 53 percent; provided, however, that GMO and KCP&L may petition the Commission for relief from this condition for reasons not related to the Transaction and the Commission may grant such relief, to the extent it chooses to do so, based on a finding of good cause. |
| 22 | KCP&L's and GMO's fuel and purchased power costs shall not be adversely impacted as a result of the Transaction. |
| 24 | The return on equity capital ("ROE") as reflected in GMO's and KCP&L's rates will not be adversely affected as a result of the Transaction. GPE agrees the ROE shall be determined in future rate cases, consistent with applicable law, regulations and practices of the Commission. See Staff S&A Financing Conditions 2 and 7. |
| 25 | Provided the actual utility-specific capital structure is used to set rates for KCP&L and GMO, GPE, KCP&L and GMO commit to uphold the principle that their future costs of service and rates will be set commensurate with the financial and business risks attendant to each affiliate's regulated utility operations and that they will not oppose, in either a regulatory proceeding or by judicial appeal of a Commission decision, the application of this principle. See Staff S&A Financing Condition 2. |
| | Affiliate Transactions and Cost Allocations Manual (CAM) Conditions |
| 35 | GPE, KCP&L and GMO will maintain adequate records to support, demonstrate the reasonableness of, and enable the audit and examination of all centralized corporate costs that are allocated to or directly charged to KCP&L or GMO. Nothing in this condition shall |

.

| No. | Supplemental Merger Commitments and Conditions | | | | |
|--|---|--|--|--|--|
| be deemed a waiver of any rights of GPE, KCP&L or GMO to seek protection of the information or to object, for purpo such information as evidence in any evidentiary proceeding, to the relevancy or use of such information by any party. | | | | | |
| | Access to Records | | | | |
| 40 | KCP&L and GMO will maintain records supporting its affiliated transactions for at least five (5) years. Within six months of the close of the merger, GPE will provide to the Commission Staff detailed journal entries recorded to reflect the transaction. GPE shall also provide the final detailed journal entries to be filed with the Commission no later than 13 months after the date of the closing. These entries must show, and shall include but not be limited to, the entries made to record or remove from all utility accounts any acquisition premium costs or transaction costs. | | | | |
| - | Parent Company Conditions | | | | |
| 42 | GPE acknowledges that its utility subsidiaries (existing and proposed) need significant amounts of capital to invest in energy supply and delivery infrastructure (including, but not limited to, renewable energy resources and other environmental sustainability initiatives such as energy efficiency and demand response programs) and acknowledges that meeting these capital requirements of its utility subsidiaries will be considered a high priority by GPE's board of directors and executive management and that GPE's access to capital post-transaction will permit it and its utility subsidiaries to meet their statutory obligation to provide safe and adequate service. | | | | |
| | See Staff S&A Customer Service Condition 1. | | | | |

GMO

Exhibit 2A

For The Year Ending December 31, 2015

| Description | Basis | Amount Billed to Affiliate | Account |
|--|--|---|---------|
