

Due to this uncertainty, and MDNR's concerns with the ramifications of a delay in KCP&L's next IRP filing, MDNR recommends that the Commission delay ruling on

KCP&L's applications and order the parties to convene a conference to determine appropriate contingencies and conditions for KCP&L's next IRP filing. In this proposed conference, the parties will be able to examine and discuss the status of KCP&L's current and future integrated resource plans, implications of delaying the filing, and appropriate conditions and contingencies that should accompany any adjustment to the filing date for KCP&L's next IRP filing.

WHEREFORE, the Missouri Department of Natural Resources respectfully requests that the Commission: 1) delay ruling on the Application for Waiver Concerning Kansas City Power & Light Company's Filing Date for Its Next Integrated Resource Plan Submission by KCP&L; 2) direct the parties to this case to propose a schedule for a conference to discuss the items noted above and any others the parties deem pertinent to the scheduling of KCP&L's next IRP; and, 3) direct the parties to report on the outcome of the conference in a timely manner.

Respectfully submitted,

CHRIS KOSTER
Attorney General
