**ORDER GRANTING CERTIFICATE TO PROVIDE  
BASIC LOCAL TELECOMMUNICATIONS SERVICES**

Issue Date: February 1, 2010

Effective Date: February 11, 2010

This order grants a certificate of service authority to provide basic local telecommunications services in the state of Missouri, classifies those services and the company as competitive, and waives certain statutes and regulations.

On October 13, 2009, Velocity The Greatest Phone Company Ever, Inc. applied for a certificate of service authority to provide basic local exchange telecommunications services within the state of Missouri, and for competitive classification. The company seeks certification to provide basic local service in portions of Missouri that are currently being served by Southwestern Bell Telephone Company, L.P. d/b/a AT&T Missouri; Embarq Missouri, Inc. d/b/a Embarq; CenturyTel of Missouri, LLC d/b/a CenturyTel; and Spectra Communications Group, LLC d/b/a CenturyTel . Velocity is a Delaware corporation and is authorized to do business in Missouri by the Missouri Secretary of State.

On October 13, 2009, the Commission issued its Notice of Applications, establishing a 15-day deadline for intervention. No applications to intervene were received.

On January 13, 2010, the Staff of the Commission recommended that the requested certificate, classification, and waivers be granted.

The Commission may grant an application for a certificate of service authority to provide telecommunications service upon a showing that the applicant has met the statutory requirements, including relevant service standards,<sup>1</sup> and that the grant of authority is in the public interest.<sup>2</sup> Based on the verified application, including Velocity's stated commitment to comply with all applicable rules, as well as Staff's uncontested recommendation, the Commission finds that Velocity satisfies the requirements for certification and that granting such certificate is in the public interest.

Velocity also requests that it and its services be classified as competitive and that the application of certain statutes and regulatory rules be waived. The Commission may classify a telecommunications service as competitive if the Commission determines that the applicant is subject to a sufficient degree of competition to justify a lesser degree of regulation.<sup>3</sup> The Commission may only classify a telecommunications carrier as competitive if all of its services are so classified.<sup>4</sup> The Commission may waive the application of certain statutes and of its rules to a competitive carrier if it determines that such waiver is consistent with the purposes of Chapter 392.<sup>5</sup>

The Commission finds that Velocity will compete with incumbent local exchange carriers, as well as other competitive local exchange carriers, in the exchanges in which it

<sup>4</sup> Section 392.361.3.

provides basic local telecommunications service. The Commission finds that Velocity will be subject to a sufficient level of competition to justify a lesser degree of regulation. Furthermore, all of the services Velocity will offer are qualified for classification as competitive services.

The Commission may waive certain statutes and administrative rules for competitively classified carriers “if such waiver or modification is otherwise consistent with the other provisions of Section 392.361 to 392.520 and the purposes of this chapter.”<sup>6</sup> The Commission has developed a standard list of statutes and regulations that it waives for competitive local exchange carriers. The Commission finds that the waiver of those statutes and regulations is consistent with the purposes of Chapter 392, and will waive those provisions for Velocity.

The Commission may also require a telecommunications company to comply with any conditions reasonably necessary to protect the public interest. Staff recommends that Velocity’s application be granted subject to certain restrictions regarding switched access rates. These conditions are routinely recommended by Staff and Velocity accepted them in its application. The conditions proposed by Staff are necessary to protect the public interest and will be adopted.

The Commission places Velocity on notice that failure to comply with certain obligations pursuant to law may result in penalties assessed against the company. These obligations include, but are not limited to, the following:

- A) The obligation to file an annual report, as established by Section 392.210, RSMo 2000. Failure to comply with this obligation will make the utility liable

<sup>5</sup> See Sections 392.185, 392.361.3 and 392.420.

for a penalty of \$100 per day for each day that the violation continues. Rule 4 CSR 240-3.540 requires telecommunications utilities to file their annual report on or before April 15 of each year.

- B) The obligation to pay an annual assessment fee established by the Commission, as required by Section 386.370, RSMo 2000.
- C) The obligation to comply with all relevant laws and regulations, as well as orders issued by the Commission. If the company fails to comply it is subject to penalties for noncompliance ranging from \$100 to \$2,000 per day of noncompliance, under Section 386.570, RSMo 2000.
- D) The obligation to keep the Commission informed of its current address and telephone number.

The company is reminded that its officers may not represent it before the Commission. The company must be represented by an attorney licensed to practice law in Missouri.

In addition, Section 392.410.5, RSMo Cum. Supp. 2009, provides that the company's certificate of service authority becomes null and void one year from the date of this order unless the company has exercised its authority under that certificate.

The Commission notes that before providing telecommunications services in Missouri, a party shall possess the following: (1) an interconnection agreement approved by the Commission; (2) except for wireless providers, a certificate of service authority from the Commission to provide interexchange or basic local telecommunications services; and (3) except for wireless providers, a tariff approved by the Commission.

<sup>6</sup> Sections 392.361.5 and 392.420.

Velocity did not file a proposed tariff as part of its application. The Commission's regulations do not require that such a tariff be filed along with an application for a certificate, but Velocity is reminded that it cannot provide service in Missouri until its tariff is approved by this Commission.

**THE COMMISSION ORDERS THAT:**

1. Velocity The Greatest Phone Company Ever, Inc. is granted a certificate of service authority to provide basic local telecommunications services in the exchanges of Southwestern Bell Telephone Company, L.P. d/b/a AT&T Missouri; Embarq Missouri, Inc. d/b/a Embarq; CenturyTel of Missouri, LLC d/b/a CenturyTel; and Spectra Communications Group, LLC d/b/a CenturyTel ; subject to the conditions and recommendations contained in the Staff's Memorandum.

2. Velocity The Greatest Phone Company Ever, Inc. and the services it offers are classified as competitive.

3. Velocity The Greatest Phone Company Ever, Inc.'s originating and terminating access rates shall be no greater than the lowest Commission-approved corresponding access rates in effect for each incumbent local exchange carrier within whose service area Velocity The Greatest Phone Company Ever, Inc. seeks authority to provide service, unless authorized by the Commission pursuant to Section 392.220 and 392.230, RSMo.

4. The certificates and competitive service classification for switched exchange access are granted conditioned on the continued applicability of Section 392.200, RSMo, and the requirement that any increase in switched access service rates above the

maximum switched access service rates set forth herein shall be made pursuant to Section 392.200 and 392.230, RSMo, and not Section 392.500 and 392.510, RSMo.

5. If the directly competing incumbent local exchange carrier, in whose service area Velocity The Greatest Phone Company Ever, Inc. is operating, decreases its originating or terminating access service rates, Velocity The Greatest Phone Company Ever, Inc. shall file an appropriate tariff amendment to reduce its originating or terminating access rates in the directly competing incumbent local exchange carrier's service area within 30 days of the directly competing incumbent local exchange carrier's reduction of its originating or terminating access rates in order to maintain the cap.

6. Application of the following statutes and Commission rules is waived:

**Statutes**

- 392.210.2 - uniform system of accounts
- 392.240.1 - rates-rentals-service & physical connections
- 392.270 - valuation of property (ratemaking)

- 4 CSR 240-10.020 - depreciation fund income
- 4 CSR 240-30.040 - uniform system of accounts

7. Velocity The Greatest Phone Company Ever, Inc.'s Motion for Waiver of Filing of Evidence of Financial Resources is granted.

8. The certification granted herein is conditioned upon the company's compliance with the regulatory obligations set out in this order.

9. Velocity The Greatest Phone Company Ever, Inc. is advised that the grant of authority contained in this order may not, by itself, be sufficient to permit it to lawfully provide telecommunications services in Missouri. Specifically, Velocity The Greatest Phone Company Ever, Inc. cannot lawfully provide telecommunications services until it has a tariff in effect for such services. When Velocity The Greatest Phone Company Ever, Inc. submits such a tariff, it shall do so by filing a non-case tariff submission. The tariff submission shall not be filed in this case.

10. This order and Velocity The Greatest Phone Company Ever, Inc.'s certificate shall become effective on February 11, 2010.

11. This file shall be closed on February 12, 2010.
