Re: file NO. EC-2020-0252 Barbara Edwards
Good Morning Travis,

Per our conversation this morning, I may want to object to the request from Evergy to have a particular witness testify by video. _____
_____. The individual's name, title, nature and focus of the testimony, was never provided in order that I could make an informed decision.

I do not wish to cause consternation to that individual's household. If they will provide that information, I will certainly consider the request.

In response to page 2 #1 of the Second Notice of Hearing and Order Amending Procedural Schedule, Issue Date: August 6, 2020:

Evergy requests that the Commission allow testimony by phone or video. I have always wanted a live hearing, and have elected to delay the hearing and travel to Jefferson City, instead of the hearing being held locally. I prefer that all witnesses attend personally. If there are mitigating circumstances, I request that Evergy provide the name, title, and all other pertinent information for my consideration.

Thank you.

Sincerely,

Barbara Edwards
