**Subject:** Missouri PSC Workshop Information  
**Attachments:** Plant List.xlsb

At the February 7 workshop for Missouri Public Service Commission Case No. EW-2012-0065, the attached spreadsheet was discussed. I have included additional information on the spreadsheet based on those discussions. If you have any comments or corrections regarding this spreadsheet, please provide them to me by March 2. This spreadsheet is a list of all coal-fired facilities utilized by Missouri investor-owned electric utilities to serve Missouri retail customers.

As discussed in the workshop meeting, a draft report is being prepared. The draft report will be transmitted at a later date for your review and comments. Meanwhile, any recommendations regarding specific content or topics for the report should also be sent to me.
