8. If either highly confidential or proprietary information must be included in Data Request questions, the parties shall follow Commission Rule 4 CSR 240-2.135 for properly designating such information.

9. Where Data Request responses include models, spreadsheets, or similar information originally in a commonly available format where inputs or parameters may be changed to observe changes in inputs or outputs, the Party providing the responses shall provide such information in original format with formulas intact, if available.

WHEREFORE, the Parties state that they agree to comply with the above-stated procedures.
