Respondent.)	

**SUPPLEMENTAL OBJECTIONS AND ANSWERS TO
COMPLAINANT’S REQUEST FOR A SUBPOENA**

COMES NOW Respondent Missouri-American Water Company (MAWC) and for its Supplemental Objections and Answers to Complainant’s Request for a Subpoena, in response to the Missouri Public Service Commission’s Order dated September 14, 2010, states as follows:

Request 3: Graphic recording water pressure in the main pipes of 24 hours duration on December 4, 2009 at various points on the system. (It will reveal the water pressure fluctuations which triggers water backflow from my pipes into main system).

Answer: MAWC incorporates its original objection to Request 3. Without waiving such objection, and further answering, MAWC states that it maintains graphic recording pressure gauges at sites throughout its St. Louis County system, but not at “main pipes” as requested by Complainant. Attached hereto is a graphic showing the water pressure at three points for the 24-hour period of December 4, 2009: Stratmann Tank, 9989 Old Olive Street Road (about one mile from Complainant’s residence) (dark blue line on graphic); Overland Gauge, 10417 Lackland Road (about three miles from Complainant’s residence) (green line on graphic); and Walton Tank, 8606 Lackland Road (about four miles from

Complainant's residence) (purple line on graphic). If Complainant desires to see pressure readings at additional sites, he can contact the undersigned.

Respectfully submitted,

MISSOURI-AMERICAN WATER COMPANY
