ORDER REGARDING BRIEFING OF THE ADVANCED COAL CREDIT ISSUE

Issue Date: February 24, 2011

Effective Date: February 24, 2011

On February 14, 2011, the Commission heard the issue of the advanced coal credit. Basically the issue is whether the Commission should allocate a proportional share of the \$125 million advanced coal credit initially received by Kansas City Power & Light Company (KCPL) to KCP&L Greater Missouri Operations Company (GMO). In addition, if the Commission determines that the credit should be apportioned to GMO, the specific procedure for doing so needs to be established and may involve the need for KCPL to make a request of the Internal Revenue Service (IRS). This is not an issue for which there will be additional evidence presented in the true-up proceeding. Therefore, the Commission wishes to proceed with a decision on this issue as expeditiously as possible.

The Commission directs the parties to include in their initial briefs to be filed on March 10, 2011, the entirety of their legal arguments, proposed findings of fact and conclusions of law, and any other proposed order language or arguments involving the

advanced coal credit issue. In addition, the parties shall state any objections to the Commission separating the advanced coal credit issue from the remaining issues in this case.

THE COMMISSION ORDERS THAT:

1. The parties shall include in their initial briefs to be filed on March 10, 2011, the entirety of their legal arguments, proposed findings of fact and conclusions of law, and any other proposed order language or arguments involving the advanced coal credit issue.

2. The parties shall state any objections to the Commission separating the advanced coal credit issue from the remaining issues in this case no later than March 10, 2011.

3. This order shall become effective upon issuance.

BY THE COMMISSION

Steven C. Reed
Secretary

(S E A L)

Nancy Dippell, Deputy Chief Regulatory
Law Judge, by delegation of authority
pursuant to Section 386.240, RSMo 2000.

Dated at Jefferson City, Missouri,
on this 24th day of February, 2011.
